

Insurance Claims & Inspections

Streamlining Claims with Drone Precision

Fast, Safe, and Accurate Damage Assessments

Efficient Claims Processing with Drones

Sky Captain Media® offers specialized drone services for insurance companies, adjusters, and policyholders, streamlining claims and enhancing property inspections. Our advanced drone technology and industry-specific software de-

liver high-resolution aerial imagery and video up to 10K, improving the accuracy and efficiency of damage assessments while reducing costs and turnaround times.

Why Choose Our Services?

- **Faster Claims Processing:** Real-time aerial assessments reduce delays, allowing adjusters to review damage remotely and expedite claim approvals.
- **Accurate & Detailed Documentation:** High-resolution imagery and videos clearly capture property damage, ensuring comprehensive records for claims.
- **Cost-Effective & Efficient:** Eliminate costly equipment like scaffolding or trucks, accessing hard-to-reach areas quickly to lower inspection costs.
- **Increased Safety:** Conduct inspections remotely, minimizing risks for field agents in hazardous or damaged areas.

Our Insurance Claims & Inspection Services

1. **Property & Building Inspections**
Assess residential, commercial, or industrial properties for storm, fire, or wear damage, providing detailed imagery and reports for informed decisions.
2. **Roof Inspections**
Capture high-resolution footage of roofs with Hasselblad® cameras, identifying leaks or missing shingles safely without ladders.
3. **Hail & Storm Damage Assessments**
Survey large areas post-storm to document roof, siding, or landscape damage, enabling accurate claim evaluations with minimal resources.
4. **Vehicle & Equipment Inspections**
Document damage to vehicles or machinery with aerial and close-up imagery, streamlining claims for fleets or heavy equipment.
5. **Liability & Claims Documentation**
Provide unbiased aerial footage to verify claims, assess liability, and support dispute resolution with clear evidence.
6. **Pre-Inspection Property Surveys**
Capture baseline property conditions in high-risk areas, aiding insurers with up-to-date records for faster claims processing.
7. **Real-Time Reporting & Data Collection**
Offer live-streamed inspections and detailed reports with annotated imagery, videos, and measurements for efficient assessments.

Benefits of Drone Inspections

- **Faster Turnaround Time:** Complete assessments quickly, reducing claim processing time with immediate access to data.
- **Accurate & Reliable Data:** High-resolution imagery up to 10K ensures precise documentation, minimizing disputes.
- **Cost Savings:** Avoid manual inspections and expensive equipment, lowering costs for in-

surers and policyholders.

- **Enhanced Safety:** Inspect hazardous areas remotely, protecting field agents from unstable structures or roofs.
- **Comprehensive Coverage:** Capture complete overviews of large or hard-to-reach properties, ensuring no detail is missed.

Our Engagement Process

1. Consultation & Planning

We assess your inspection needs, tailoring the approach and timeline for properties, vehicles, or equipment.

2. Aerial Inspection & Data Capture

Licensed pilots use advanced drones to capture high-resolution imagery, videos, and data for accurate damage assessments.

3. Post-Processing & Reporting

We compile comprehensive reports with annotated images, footage, measurements, and analysis for informed decision-making.

4. Delivery & Integration

Deliver reports and media in your preferred format, ready for claim verification or integration into management systems.

Streamline Claims with Sky Captain Media®

Sky Captain Media® provides fast, accurate, and cost-effective drone solutions for insurance claims and inspections. Our high-resolution imagery and video up to 10K empower insurers

and adjusters to process claims efficiently. Contact us at engage@skycaptainmedia.com or visit www.skycaptainmedia.com to enhance your claims process.
