Immunisation Policy

Date of Issue: December 2025

Review Date: December 2026

Introduction

At Razzy's Daycare & Nursery, we actively promote the vaccination of children in accordance with government health guidance and the child's age. We ask parents to inform the nursery if their child has not received recommended vaccinations, so we can manage potential risks to the child, other children and staff. The nursery manager maintains awareness of the immunisation status of all children and uses this information to support safeguarding and infection control measures.

We recognise that some children may not be vaccinated due to age, medical reasons, or parental choice. The nursery does not discriminate against children who have not received immunisations and does not disclose individual vaccination information to other parents. Where children are not immunised, staff will explain the potential risks of infection to parents and provide guidance on how these risks are managed within the nursery.

Legal and Regulatory Framework

- Early Years Foundation Stage (EYFS) Statutory Framework 2024/2025
- The Children Act 1989 and 2004
- Health and Safety at Work Act 1974
- Public Health England / UK Health Security Agency guidance on vaccination and infection control
- Ofsted requirements for health, safety and welfare

Recording Immunisations

Information about each child's immunisations is recorded on registration documents or care plans and these records are updated as required. Parents are encouraged to provide updates whenever new immunisations are administered, particularly when a child reaches the age for the next scheduled vaccine.

Staff Vaccinations

All staff are responsible for keeping their vaccinations up to date in line with the NHS vaccination schedule. Staff should notify the nursery of their immunisation status and if uncertain, are encouraged to seek advice from their GP or practice nurse to ensure their own health and the safety of children in their care.

Emergency Information

Emergency contact information for each child is maintained and reviewed at least every six months. Parents are reminded to update this information through newsletters, parents' evenings and notices on the Parent Information Board.
