Introduction

Overview

Emirates & Al Nasr Building & Construction (EGYCO) L.L.C., is one of the United Arab Emirates' leading construction companies, with around 300 personnel working in Abu Dhabi. The company is a Category 1 company established in 1993 and has successfully completed a number of major residential and commercial projects during the past years.

We have a multi-discipline engineering capability that is committed to delivering high quality solutions matched to our customer requirements in the United Arab Emirates. We offer complete solutions through our integrated capability and experience. This approach recognizes the need to exercise the optimum balance of skills at each stage of a project and has enabled EGYCO to develop an enviable record in delivering cost effective customer benefits.

EGYCO's capabilities include the construction of all forms of residential and commercial complexes, including houses, schools, shopping centers and high rise residential and commercial buildings.

We have undertaken commissions mainly in Abu Dhabi & Al Ain cities and clients span government departments, local authorities and private developers.

Background & Group Strength

BACKGROUND

Emirates & Al Nasr Building & Construction (EGYCO) L.L.C. was first established and registered in the Emirate of Abu Dhabi in July 1993.

The Company is owned by Mr. Mohamed Salem Saleh Al Menhali & M/s. National Resources Group. The Company has executed numerous projects including - but not limited to - High Rise Buildings, Commercial & Residential, Hotels, Resorts, Villas, Schools, Public Houses, Etc.

As part of a group (M/s. National Resources Group - NRG), Emirates & Al Nasr Building & Construction (EGYCO) L.L.C. has well strength in diversity of using plenty of resources from our sister/partner companies, following are a few of companies:

- M/s. Emirates & Al Nasr Building & Construction (EGYCO) - Al Ain (Br.)
- M/s. Emirates & Al Nasr Building & Construction (EGYCO) - Dubai (Br.)
- M/s. Gulf Resources General Contracting LLC (GRGC)
- M/s. Al Khat Al Dhahbi for Carpentry Work & Blacksmithing LLC

Chairman's Message

Emirates & Al Nasr Building & Construction (EGYCO) L.L.C., is one of the United Arab Emirates' leading construction companies, with around 300 personnel working in Abu Dhabi. The company is a Category 1 company established in 1993 and has successfully completed a number of major residential and commercial projects during the past years. We have a multi-discipline engineering capability that is committed to delivering high quality solutions matched to our customer requirements in the United Arab Emirates. We offer complete solutions through our integrated capability and experience. This approach recognizes the need to exercise the optimum balance of skills at each stage of a project and has enabled EGYCO to develop an enviable record in delivering cost effective customer benefits.

EGYCO's capabilities include the construction of all forms of residential and commercial complexes, including houses, schools, shopping centers and high rise residential and commercial buildings. We have undertaken commissions mainly in Abu Dhabi, Al Ain & Dubai cities and clients span government departments, local authorities and private developers.

Our success mostly depends upon our enthusiastic & hard working personnel. Our management has been implemented a successful quality policy which ensures immense quality in our services. Co-operation and co-ordination make easy way to attain our goals and vision. We are not compromising in our quality policy and safety policy which endeavor a great mileage to us.

We are proud to being a part of the development of the nation thru delivering services, stable financial growth, generating employment and so on and wish to be taken more responsibilities and obligations for the nation & society.

Mr. Mohamed Saleh Saleh Al Menhali

Quality Policy Statement

"EGYCO is committed to maintaining a high level of quality and reliability in all our projects and services by providing high standard of work in accordance with the drawings and documentation on all projects undertaken regardless of their size or complexity and to continually improve the effectiveness of the Quality Management System in accordance with the requirements of ISO 9001:2015."

The pursuit of the highest quality of service to our customers is as essential to the context of the organization, long-term growth, its strategic direction and survival of the business, as are cost control and competitive pricing.

Quality Objectives

We recognize that our success is dependent upon the satisfaction of our customers through the services we provide. To this end the Company has set the following key objectives:

- Our firm and continued commitment to effective quality management and excellence at all levels of business.
- To implement continual innovation in all of our projects and services.
- To develop an ethos of "get it right first time"
- To provide for the training needs for our staff to support the goals and objectives of the company.
- To conduct our business in an ethical and professional manner.
- While conducting our business, it is our firm commitment to safeguard the health and safety of our employees, the people around, and the protection of the environment while adhering to the statutory and mandatory
- We set our goals by establishing Quality Objectives and review both the policy and objectives for its continuing suitability and make sure it is communicated and understood within the organization.

The ultimate responsibility for quality within the Company is with the Senior Management. In recognizing the importance of quality, the Senior Management has appointed a dedicated Management Representative for developing and managing the quality system.

This policy statement confirms the Company's commitment to all aspects of Quality and is reviewed at least annually by

Vision & Mission Statement

- *To supply the quality projects in timely manner and to the full satisfaction of our reputable clients as per international standards.*
- *To be the best and most respected client preferred Construction Company.*
- *To be regarded as the market leader with a reputation for innovation and outstanding performance.*
- *To develop a safety culture with "Safety First" at all levels of the organisation.*

Quality Measures

Emirates & Al Nasr Building & Construction (EGYCO) L.L.C. recognizes that a major factor in its business success is the emphasis it has placed on Quality, Health, Safety and Environment (QHSE) as key elements of all its activities.

Continued success requires excellence. This means providing our clients with services which are of the highest professional and technical standards and which comply with all their QHSE requirements. Additionally, it means complying with the statutory QHSE requirements of the country in which we are operating.

Doing the job right the first time and doing it safely must be a primary business objective. This and the continual pursuit of excellence will enable EGYCO to achieve and maintain the highest practicable standards of Quality, Health, Safety and Environment.

Everyone within the organization, as well as our contractors, has an essential part to play in ensuring EGYCO continues to improve all aspects of its operational activities. Thus, ensuring we achieve our stated QHSE objectives and maintain and improve our profile as an organization, which can adapt and respond according to any operational requirements placed upon us.

This is the responsibility of all levels of personnel, from Senior Management to the newest recruit and, this requires a personal commitment from everyone. This commitment can only enhance our reputation and image as a company, which leads by example, thus enabling us to build upon this and expand our existing customer base.

In support of the Quality Policy, EGYCO has adopted BS EN ISO 9001: 2015 as the control standard for its activities and operates within an established quality system designed to meet the requirements of this standard. The quality system is formally registered to BS EN ISO 9001 accredited by UKAS

Health & Safety Measures

Safety is a major concern on any construction site, and we, at EGYCO recognizes the risks and our responsibilities to our workers and all of the stakeholders involved in our projects. We adopt a "safety first" lifecycle approach to construction ensuring that the highest standards are employed throughout the design and construction stages to create safe and pleasant environments for all stakeholders throughout the lifecycle of the project. Our goal is be accident free and to minimize disturbance and nuisance to third party stakeholders with our construction activities.

In support of the HSE Policy, EGYCO has adopted ISO 45001:2018 as the control standard for its activities and operates within an established HSE system designed to meet the requirements of this standard.

HSE Policy

EGYCO's policy is to provide a safe and productive work environment for all our personnel and customers. In this regard and according to the company's policy we are committed to:

- ☑ Ensure zero harm to people and environment by pursuing the goal of zero accidents.
- ☑ Includes commitment to provide safe and healthy working conditions for the prevention of work related injury and ill health and is appropriate to the purpose, size and context of the organization and to the specific nature of its OH&S risks and opportunities.
- ☑ Promote a positive safety culture in all operations.
- ☑ Identify and eliminate the hazards, practices, and behaviors which are unsafe and cause accidents.
- ☑ Includes a commitment to consultation and participation of workers, and, where they exist, worker's representatives.
- ☑ Prevent the pollution and minimize environmental impact by reducing the waste and discharge and adopting the best practices.
- ☑ Comply with all the applicable statutory and mandatory QHSE requirements, legislation and regulations of U.A.E and the ISO 9001:2015, 14001:2015, ISO 45001:2018 standards.
- ☑ Continual improvement & prevention of pollution, injury & ill health.
- ☑ Provide framework for setting & reviewing environmental, health & safety objectives & targets.
- ☑ Motivate all employees in order to create a safe and healthy workplace which would protect the environment.
- ☑ Accomplish the QHSE goals by clearly defining the roles and responsibilities and providing the appropriate resources.
- ☑ Establish, implement and maintain the QHSE MS through the involvement of the management and personnel.
- ☑ All employees are permitted and are responsible to stop any work at any locations that is considered unsafe.

These commitments will be achieved by:

- Establishing, maintaining and implementing a documented Occupational, Health & Safety Management System. Ensuring procedures, program and guidelines are in place to support the QHSE Management System.
- Communicating the Company's QHSE policy and Objectives to relevant interested parties, including its employees, stake holder, clients and customers.
- Providing the necessary resources for the implementation of the QHSE Management System.
- All employees are permitted and are responsible to stop any work at any locations that is considered unsafe.
- The policy will be reviewed periodically and will be available for employee and public.
- Setting, monitoring and reviewing QHSE targets and objectives.
- Complying with QHSE Policies of OSHAD, DMA & ISO International Standards.

Environmental Measures

At EGYCO, we take our environmental responsibilities seriously, so many of our initiatives go beyond what we are required to do by law. By taking steps to reduce the impact of our work on the environment, we can play a positive part in protecting it for the future. Proper planning, allows us to minimize waste, recycling where possible, and we keep our use of toxic and hazardous materials to an absolute minimum, seeking to use environmentally preferable materials from sustainable sources wherever possible. In order to comply with its legal, regulatory and other business obligations and to be compliant with ADEHSMS guidelines to prevent pollution and continually improve its environmental performance, the Company operates an Environmental Management System (EMS), which complies with the requirement of ISO 14001:2015. As part of this system all sites will have an Environmental Management program framework with specific, periodically revised SMART objectives and targets and address its aspects and impacts through the development and maintenance of an environmental plan. Particular consideration will be given to:

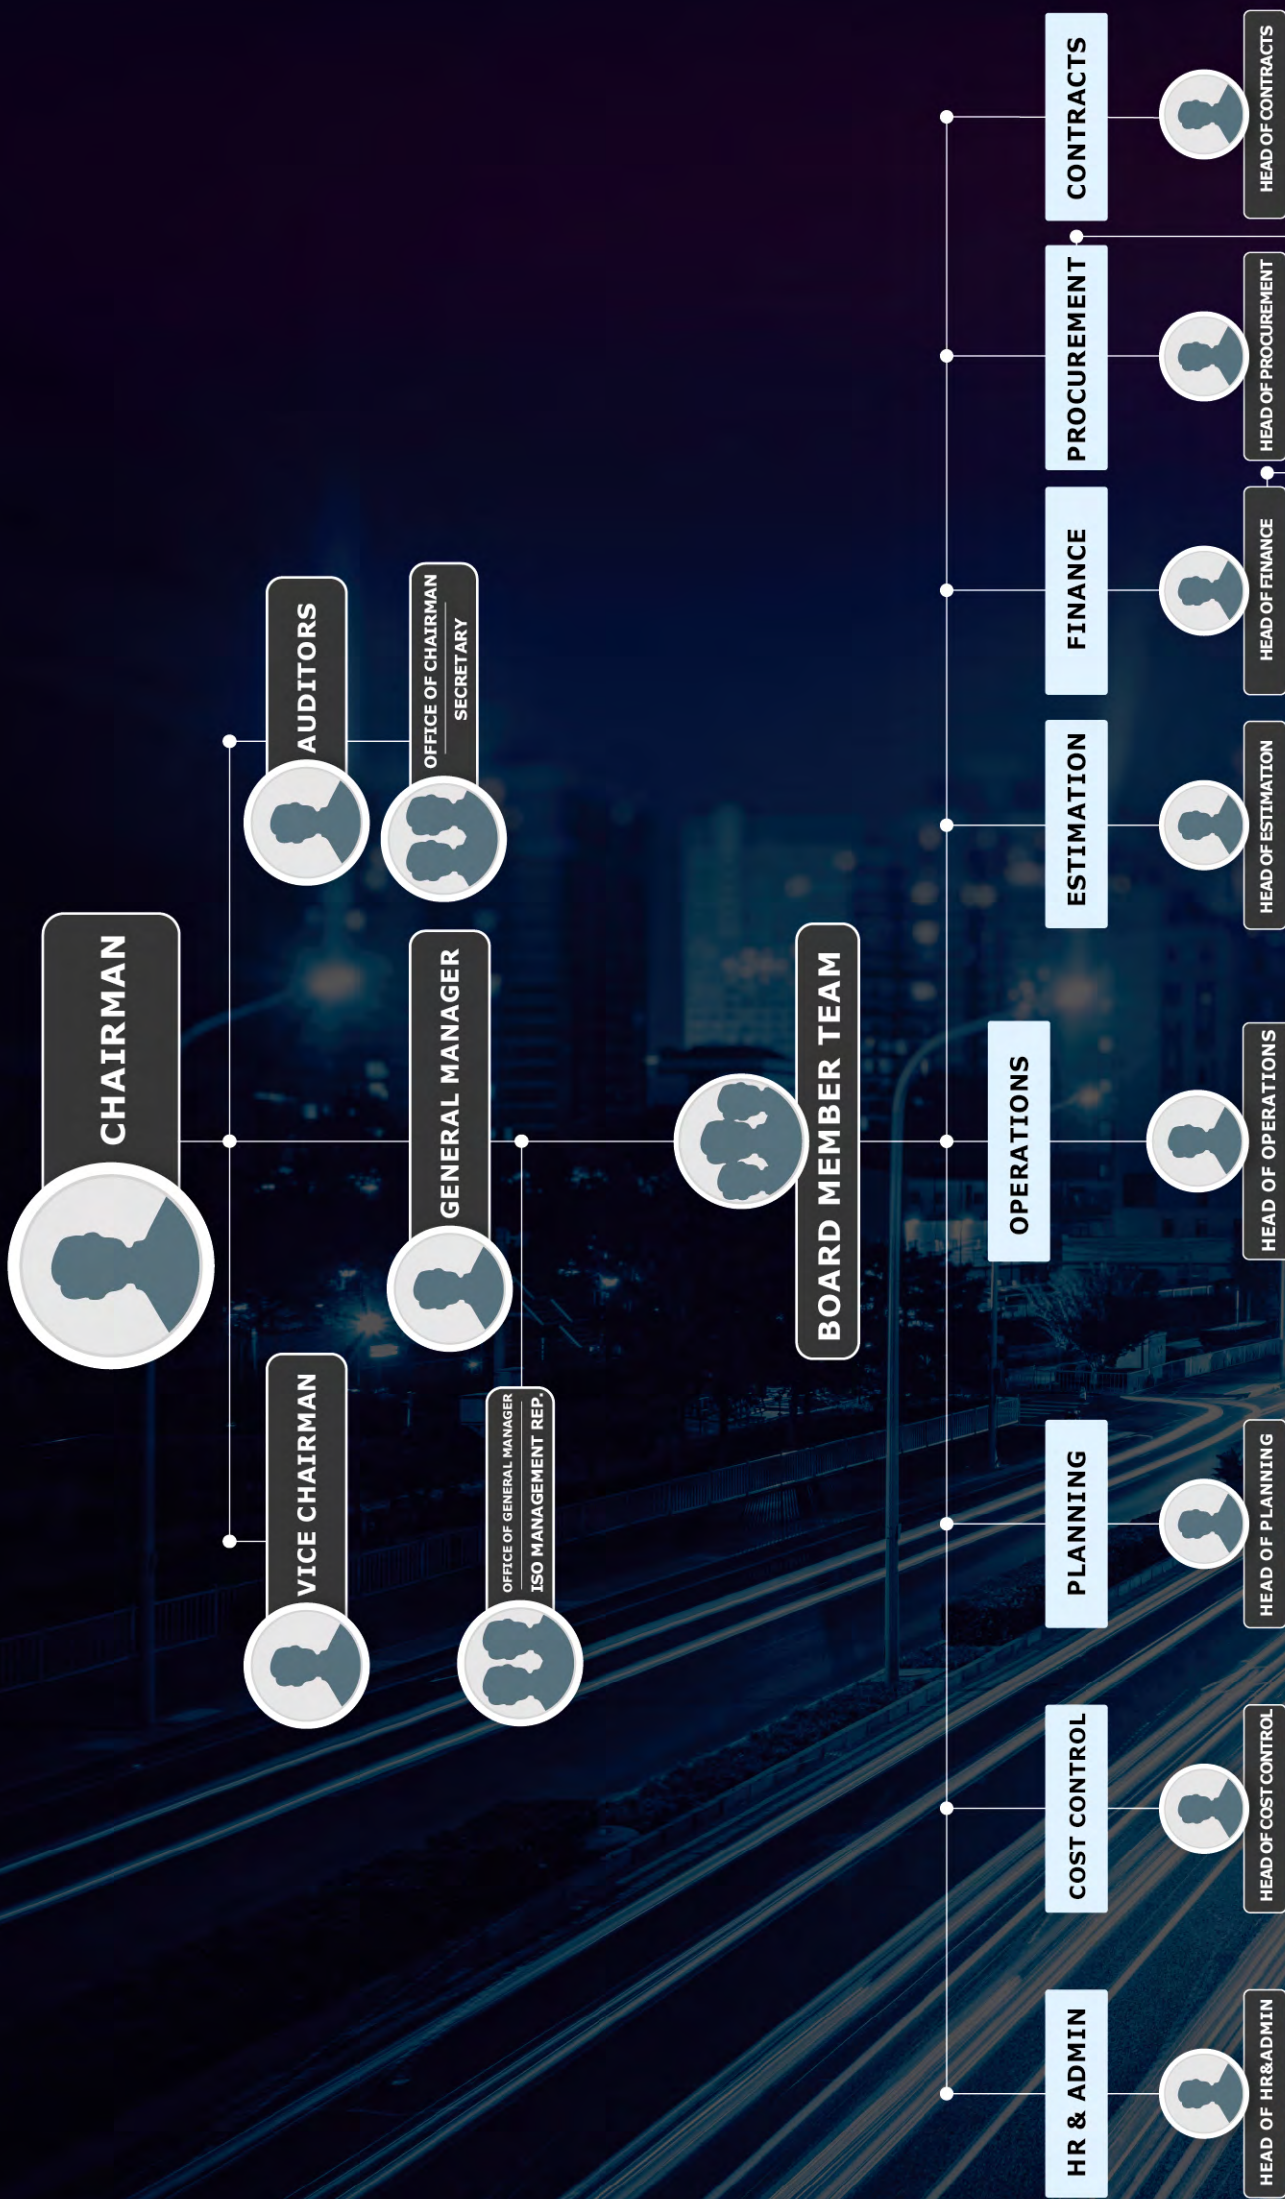

- ❑ Emissions to air-noise, dust, vibration, fumes and smoke.
- ❑ Emission to water-fuel, silt and other chemicals.
- ❑ Contaminated land and damage to flora and fauna.

The continuing development, education and training of employees, suppliers and other stakeholders will be a key activity in the implementation of the EMS. Adequate resources will be committed to ensure that environmental targets are achieved. To ensure continual improvement of the Company's environmental performance, the Management System and the Management Program will be reviewed and updated as necessary at regular intervals.

Organizational Structure

The background image shows a construction site at sunset. A large concrete bucket is being lifted by a crane, suspended by a cable and pulley system. Several workers are visible on scaffolding, silhouetted against the colorful sky. The overall scene is industrial and captures a moment of heavy construction work.
