Customized Design Solutions

We Are Reliable

We commit; we fulfil what we say is what we do. Our internal processes are predictable. Fulfilling commitments is our integrity. We don't mind walking extra miles to fulfil our commitments. That's what makes all of our customers happy to place orders with us again and again, whenever an opportunity comes. We are reliable both by character and characteristic.

Success by Design

It is when our customers yield desired objectives, we treat ourselves successful. That is the way we relate ourselves with our customers. At True Source, we believe in the concept called Success by Design. This means, that recurring success cannot take place by chance or by accident. Instead, it has to be crafted, it has to be planned. Success by design can have several connotations at True Source. One interpretation is that our designs are meant to succeed. And the other means, we passionately design the success, and execute it the same way. True Sources has already created more than 500 success stories so far, and the counting is on.

Quality is Hygiene

While we believe in right quality, we never boast of it. As a philosophy at True Sources, right quality is as critical as basic hygiene. It cannot lose importance in view of any circumstantial factor. It is intrinsic. It just flows into whatever we do. Our customers rest assured of right quality of products, right quality of designs, right quality of execution and right quality of services. It has to be right quality always.
