Orthopedic Casting Tape

It is designed for orthopedic plaster applications. Clivex Casting Tape is a syntetic orthopedic casting tape made of knitted fiberglass subtrade impregnated with water-activating polyurethane resin. The fabric is extensible in all directions, which makes it very comfortable to use.

- High quality knitted subtrade and special resin formula provide smooth surface and strong layer adhesion.
- Superior multi-direction stretch gives excellent moulding on curved area.
- Clivex Casting Tape is strong, air permeable, moisture resistant, superb adhesion and X-Ray Transparent. Exposure to any moisture will cause the tape become rigid. The setting time is approximately 4 minutes and it takes 20 minutes for full weight bearing.
