

## Job Description

# Full Stack Developer

Location: Remote

Job Type: Part-time

Experience: 5 to 10 Years

## About the Role

One of our clients is looking for a skilled Full Stack Developer to manage both front-end and back-end development, ensuring the delivery of high-performance, secure, and scalable applications. The ideal candidate should have strong problem-solving skills, the ability to work independently, and a keen understanding of project goals while collaborating with the development team.

## Key Responsibilities

- **Full-Stack Development** – Build, maintain, and enhance software solutions with a focus on performance and scalability.
- **Front-End Engineering** – Develop responsive and user-friendly UI using React.js, Angular, or Vue.js.
- **Back-End Development** – Implement robust and efficient server-side logic using Node.js, Python, Java, or .NET.
- **Database Management** – Work with MongoDB, PostgreSQL, MySQL, or similar databases for efficient data handling.
- **Collaboration with Team Lead** – Understand project objectives and execute tasks efficiently under guidance.
- **API Development & Integration** – Create RESTful APIs and integrate third-party services.
- **Problem-Solving & Debugging** – Identify, troubleshoot, and resolve technical issues.
- **Security & Optimization** – Ensure application security, performance tuning, and adherence to best coding practices.

## Requirements

- 5 to 10 years of experience in full-stack development.
- Proficiency in front-end frameworks (React.js, Angular, or Vue.js).
- Expertise in back-end technologies (Node.js, Python, Java, or .NET).
- Hands-on experience with databases (MongoDB, PostgreSQL, MySQL, or Firebase).
- Knowledge of cloud platforms (AWS, Azure, Google Cloud) and DevOps tools is a plus.
- Ability to work effectively under guidance while also taking initiative.

- Strong problem-solving skills, attention to detail, and adaptability.
- Experience working in agile development environments.

**How to Apply:**

Interested candidates can submit their resume and cover letter through the careers portal at [alchemrise.com](https://alchemrise.com).
