The new line of clothing for painters Master Color with high protective properties and modern design

The company Master Color presents a new line of clothing for comfortable work, providing reliable protection from adverse factors of the production process, an ideal fit to the figure, and complete freedom of movement.

Thorough attention to detail, the use of modern materials and quality fittings guarantee comfort and durability of the clothing for painters Master Color.

The product has passed tests according to EU regulations

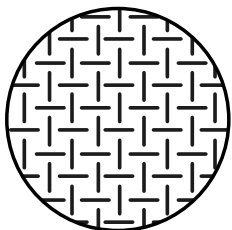

and meets the requirements of international standards (ISO 13688:2013 Protective clothing. General requirements).

MASTER COLOR

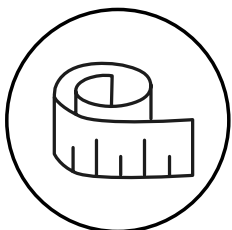

Master Color products meet the basic requirements for clothing for painters:

- ✓ Protects against harmful industrial factors; Made from durable, wear-resistant materials;
- ✓ Does not cause allergic reactions;
- ✓ Features a comfortable modern cut;
- ✓ Easy to care for; Equipped with convenient functional details (pockets, elastic bands, Velcro, tool loops, reflective elements);
- ✓ Supplied with a quality certificate.

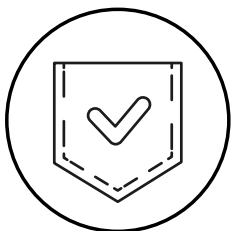

Protective overalls are a comfortable daily protection against harmful production factors

Thanks to the combination of synthetic (polyester) and natural (cotton) fibers, the materials used to make Master Color painter's clothing have high physical and mechanical properties and good hygienic indicators. The fabric is pleasant to the touch, retains its shape, dries quickly, maintains color for a long time, breathes, provides hygroscopicity, and has dirt-repellent properties.

Adjustment of size

Special devices allow for precise fitting of the garment to the figure (elastic inserts at the waist, adjustable straps).

Attention to detail

Almost all clothing models presented in the line are equipped with functional elements: spacious pockets of various sizes and purposes, pockets for knee pads, reinforced inserts in areas prone to quick wear, and loops for tools.

Pants

MASTER COLOR

The material composition — polyester (65%) and cotton (35%) — ensures the durability of the product. Thanks to the use of polyester, the pants are resistant to tearing and abrasion, chemical and thermal effects, do not deform when worn, and have a lightweight. The use of cotton ensures the hygiene and comfort of the product.

The pockets are made of Oxford 300 D fabric — a durable fabric with a textured structure, characterized by strength, heat resistance, and resistance to dirt.

The elastic band at the waist allows you to adjust the size of the pants to your figure.

Areas prone to quick wear are additionally reinforced.

6 convenient pockets of different sizes allow you to place everything necessary for work.

Art.	Size	Packaging
30-8011	size M	1/20
30-8012	size L	1/20
30-8013	size XL	1/20
30-8014	size XXL	1/20

Overalls

30-8042	size L	1/25
30-8043	size XL	1/25
30-8044	size XXL	1/25

Polo

MASTER COLOR

A polo shirt will be a great addition to pants or a jumpsuit, providing a stylish look.

Material composition — polyester (65%) polyester and cotton (35%) — provides durability of the product. Thanks to the use of polyester, it is resistant to tears and abrasion, chemical and thermal effects, does not deform during wear, and is lightweight. The use of cotton ensures hygiene and comfort of the product.

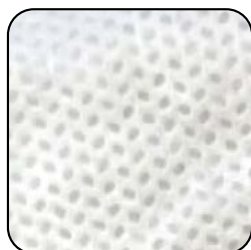

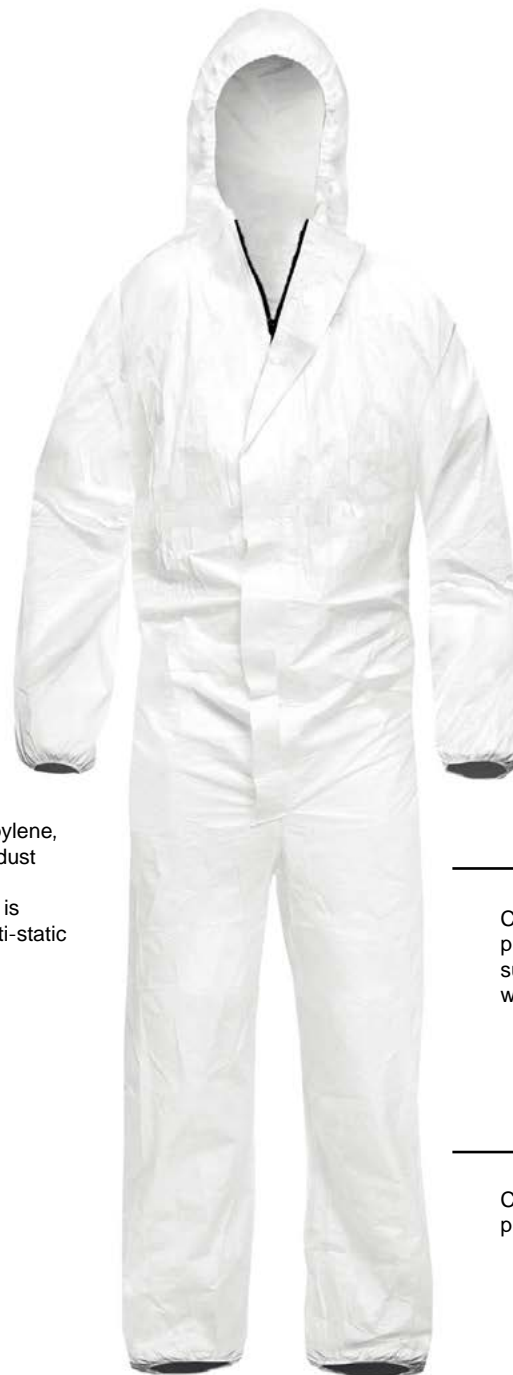

The product does not fade when washed.

Art.	Size	Packaging
30-8021	size M	1/50
30-8022	size L	1/50
30-8023	size XL	1/50
30-8024	size XXL	1/50

Overalls with a hood for painting work

MASTER COLOR

The overalls are made of "spunbond" material (polypropylene, density — 55 g/m²), which provides good breathability, dust protection, thermal insulation properties, resistance to atmospheric precipitation, and light weight. The material is non-toxic, does not cause allergic reactions, and has anti-static properties.

Excellent protection for the skin against chemical effects during construction, painting, and plastering work.

Cuffs on the sleeves and pant legs prevent foreign objects and substances from coming into contact with the skin.

Can be used in medicine, pharmaceuticals, and the food industry.

Art.	Size	Packing
30-8053	size XL	1/50
30-8054	size XXL	1/50
30-8055	size XXXL	1/50
