PUSA BASMATI 1718

SPECIALITY -

- Fragrant
- Extra thin long grain
- Finest grain
- Higher tolerant to diseases
- Good market value
- More production capacity
- Crop duration 130 to 135 days

KAVYA SEEDS PVT. LTD.

MARCELLO 21

SPECIALITY -

- Fragrant
- Long thin grain
- Highly tolerant to diseases
- Higher market value
- Excess production capacity
- Crop duration 110 to 115 days

KAVYA SEEDS PVT. LTD.

ADITYA 612

SPECIALITY -

- Fragrant
- Long thin grain
- Highly tolerant to diseases
- Higher market value
- Excess production capacity
- Crop duration 120 to 125 days

KAVYA SEEDS PVT. LTD.

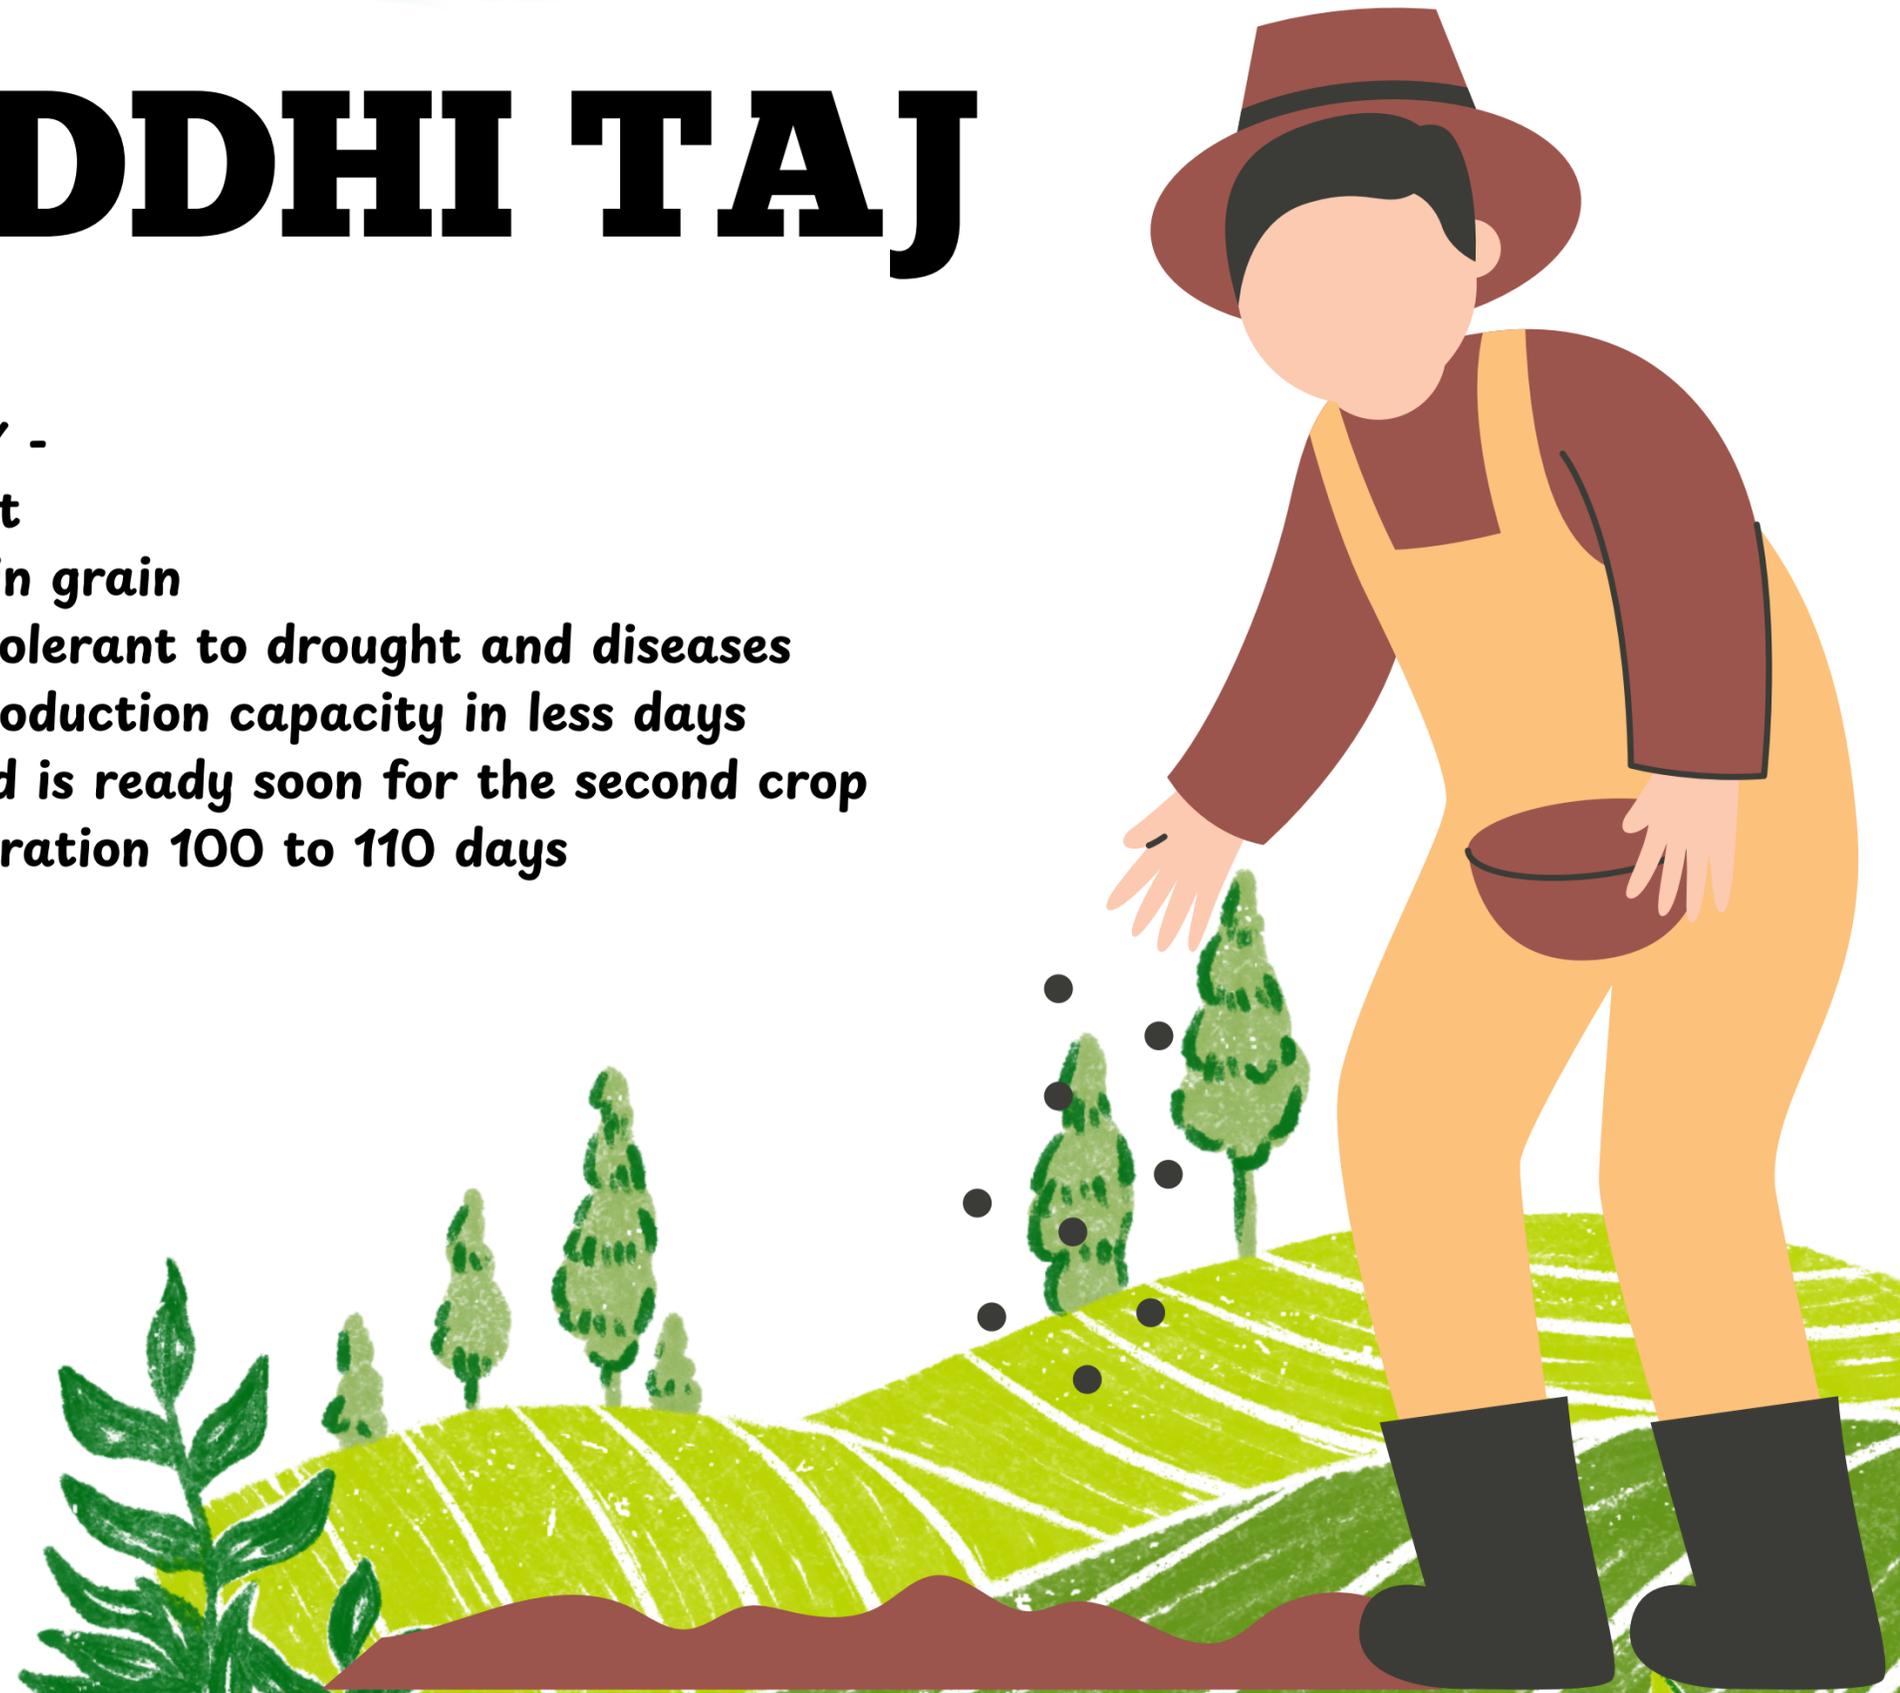

SAMVRIDDHI TAJ

SPECIALITY -

- Fragrant
- Long thin grain
- Highly tolerant to drought and diseases
- More production capacity in less days
- The field is ready soon for the second crop
- Crop duration 100 to 110 days

KAVYA SEEDS PVT. LTD.

KAVYA 999

SPECIALITY -

- Excellent corn for spring season
- Attractive orange grits
- The plant remains green till harvesting and is best for fodder
- Major diseases resistance
- Corn full to the brim
- The proportion of grains in the corn is high
- More production capacity
- Crop duration : 95 to 105 days in spring season

KAVYA SEEDS PVT. LTD.

BALWAN

SPECIALITY -

- New Corn for spring
- Attractive orange grits
- Plant is green till harvest hence suitable
- Major disease resistance
- Whole corn
- The proportion of grains in the corn is high
- More production capacity
- Crop duration : 100 to 110 days in spring season ●
