

OX-1000R

The most innovative simulator

OX-1000R

Driving at home

Each OX is passionately crafted from high-quality components, enriched with a Bang & Olufsen BeoLab Surround 7.1 audio system (satellite speakers integrated into the chassis, active sound insulation) for truly powerful sound and the ultimate racing experience.

Wen-Hong Chen
UX Designer

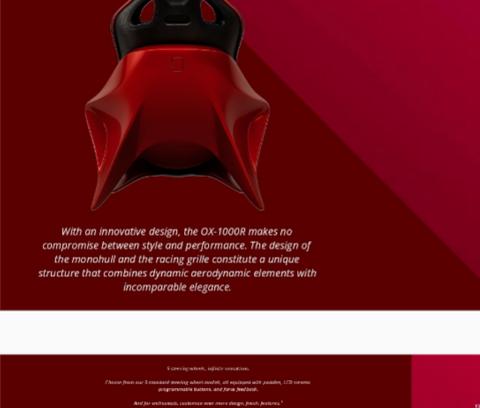

The OX-1000R has taken virtual reality simulators to the next level. With intuitive controls, full immersion and tailor-made ergonomics. Immerse yourself in a simulation that won't look like a simulation.

M. Duyn
co Director/Founder OX

Monocoque

ABS composite or fully carbon fibre rigid monocoque (optional), designed to give you a more pleasant driving environment

With an innovative design, the OX-1000R makes no compromise between style and performance. The design of the monohull and the racing grille constitute a unique structure that combines dynamic aerodynamic elements with incomparable elegance.

Connectivity and Compatibility

Connectivity: The best support screens - HTC monitor
Supported screen sizes: 24" to 32"
OS: Windows 10/11, macOS, Linux, Android, iOS
Resolution: 1080p, 1440p, 4K, 8K
Refresh rate: 60Hz, 120Hz, 144Hz, 165Hz, 180Hz, 240Hz
Input: USB, HDMI, DP, DVI, DisplayPort
Output: USB, HDMI, DP, DVI, DisplayPort
Audio: 7.1, 5.1, 2.1, 2.0, 1.0
Headset: 3.5mm, 2.5mm, 3.5mm, 2.5mm
Controller: PS4, PS5, Xbox, Switch, PC, PlayStation 5 Dual Sense

That OX simulator is ready to go with:
Power Steering (optional)
Active Suspension (optional)
VR (optional)
Real-time telemetry (optional)
Real-time data logging (optional)
Real-time data analysis (optional)
Real-time data visualization (optional)
Real-time data export (optional)
Real-time data import (optional)
Real-time data backup (optional)
Real-time data restore (optional)
Real-time data recovery (optional)
Real-time data protection (optional)
Real-time data encryption (optional)
Real-time data decryption (optional)
Real-time data compression (optional)
Real-time data decompression (optional)
Real-time data archiving (optional)
Real-time data unarchiving (optional)
Real-time data backup (optional)
Real-time data restore (optional)
Real-time data recovery (optional)
Real-time data protection (optional)
Real-time data encryption (optional)
Real-time data decryption (optional)
Real-time data compression (optional)
Real-time data decompression (optional)
Real-time data archiving (optional)
Real-time data unarchiving (optional)

Inspired by passion

The OX-1000R features the same dynamic lines and balanced proportions we expect from all sports cars. It was essential that the simulator meet the high standards we place on the design of these vehicles. The sculptural air lines of this simulator reflect the values of formless design.

The Heart

Powered by a state-of-the-art OX-1000R engine, the OX-1000R provides a truly immersive driving experience. The project is a gateway to the accessibility of motorsport, immersive and universal.

The OX-1000R is a masterpiece of design and engineering. It is a gateway to the accessibility of motorsport, immersive and universal.

Colour and Trim Options

Customized your OX-1000R with more than fifty different combinations, your simulator is unique just like you

Pedal

High range bucket seats

High Range Bucket Seats

Our seats offer a more comfortable racing posture with the perfect spine curve. Tested and approved by different drivers, our seats offer improved ergonomics for increased comfort and usability.

The Future Is Here

Starting from: 15,000€*
(About 21 890 000 KRW)
