PROFESSIONAL SUMMARY

Motivated and fast-learning web developer with hands-on experience in building dynamic web applications using PHP (Laravel). Skilled in designing scalable database schemas with MySQL and implementing RESTful APIs and CRUD systems. Passionate about writing clean, maintainable code and delivering secure, high-performance solutions. Have worked as a freelance web developer, delivering custom solutions for clients and gaining experience with a variety of technologies and project requirements.

WORK EXPERIENCE

BEMA.SITE   2024- PRESENT
Backend Developer

- Developing and maintaining backend systems using PHP (Laravel) and MySQL. Designed database structures, built RESTful APIs, and collaborated with front-end developers to ensure smooth system integration.

Food Shop   2021 - 2023
Sales

- Worked as a sales associate in a food preparation shop, assisting customers, managing orders, handling transactions, and ensuring a clean and organized service area. Helped maintain customer satisfaction through friendly service and attention to detail.
