

All dimensions are in mm.

System Package	Drive Unit (Motor Controller + Motor + Strain-wave Gearbox)
----------------	--

Technical Data

Operating Voltage	24 V
Rated Torque (at Output)	40 Nm
Rated Speed (at Output)	10 RPM
Encoder Resolution	14 bit
Communication	CAN 2.0b (default) : 1 Mbps
Data Sampling Rate	100 Hz
Gear Ratio	64:1
Weight	2450 g
Design Backlash	1-2 arc-min
Control	3-phase Field Oriented Controller (FOC) for BLDC motors Speed, Torque and Position
Safety	Electromagnetic power-off brake

*with specific configurations and operating conditions.

Applications

Robotic Arms, Walking Robots,
Rotary Table
