## WHAT IS PROVIDED AT THE LOFT:

### Kitchen

Our fully equipped kitchen is at your disposal, with everything you need to prepare your own meals:

- crockpots
- pots and pans
- bakeware
- toaster
- large roaster
- can opener
- electric kettle
- tea pot
- coffee pots (both drip and Keurig for indiv. cups)
- dishes
- silverware / serving utensils
- and more!

Alcoholic beverages ARE permissible, and wine glasses are available for your use. Please drink responsibly, and do not use rotary cutters after imbibing!

---

### Dining

There is no formal dining room in The Loft, but there is a dining table in the open living space. If you are quilting, this is where you will have your machines. There is a counter bar for you and your friends to eat at if you do not want to move the sewing machines off the table. If you are enjoying a special dinner, please feel free to use the beautiful china found in the cabinet. Just note that this china has a silver rim, and is not microwave safe.

---

### Bathroom

The bathroom at The Loft has a large walk-in shower and lots of counter space. It is stocked with toilet paper, tissues, hand soap, hair dryer, along with body wash and shampoo. Each guest will be provided a bath towel, a hand towel, and a facecloth. For the comfort of all guests, please mist the shower walls with shower spray, and squeegee the glass shower doors after EVERY SHOWER. A squeegee and shower spray bottle are in each shower.

---

### Bedrooms

The Loft has 3 guest bedrooms. The largest at the end of the hall has a queen bed, the smallest room has queen bed, and third room has a double and an extra large twin. Remember to bring your own earplugs!

Each bed/bedroom is equipped with a reading lamp and outlets with USB ports. All beds are supplied with mattress and pillow protectors, linens, duvets and quilts.

---

### The Chat Space

We have made every effort to ensure a pleasurable stay for our guests by creating another space to relax and unwind; the chat space located in the common area has two comfy chairs and a small couch for an evening of hand stitching or chatting. There is a goose neck lamp by the couch for extra lighting. A radio with CD player is also located on the book shelf for your use, so feel free to bring your favourite music to listen to.

## Drinking Water

The Loft uses a private well. The water has been tested and is fresh, delicious, and perfectly safe to drink.

---

## Phone Service

Cell phone coverage is reliable in our area. We do not offer Wifi, as our outline area has limited internet and does not lend itself to shared coverage. Unplug and relax!

---

## Using the Space for Quilting

The main area is large enough to accommodate 4 quilters (5 if you promise not to complain about space). There are two ironing boards that sit on the counter along with a large cutting table. Two irons are supplied for your use as well. Two power bars have been set up at either end of the large table for your convenience. For your use, we have (2) 4' x 4' portable design walls, plus a larger 4' x 6' wall.

***We hope these details have piqued your interest, and that we'll have the pleasure of hosting you and your creative hobbies!***
