Beginner Training Guide

How To Set Up Your Account, Fund It, Click Ads, Upgrade, Withdraw, and Build Faster With Referrals

This guide is designed for brand-new 12DollarsPerClick members. You do not need to be technical. You simply need to follow each step in order.

Inside this guide, you will learn how to:

Set up your account, fund your purchase balance, buy your first 12DPC ad, create your ad, click ads daily, understand cycles, pay ad clicking dues, withdraw earnings, upgrade to Level 2 and Level 3, use multiple accounts, and build faster with referrals.

Do not skip steps. In 12DPC, some actions must be completed before the next step unlocks.

What Is 12DPC?

12DollarsPerClick is a paid advertising and ad-clicking platform. Members purchase ads, place their own ad inside the system, and then click other member ads daily to earn.

The basic idea is simple:

You buy an ad.

You create your ad.

You click ads daily.

You earn per click.

When your account reaches a cycle point, part of the money is used to keep your ad active and part may become withdrawable or usable toward upgrades.

Overview

HOW DO YOU GET STARTED WITH 12 DPC?

Up To \$12 DOLLARS PER CLICK

- 1** Register via the person who invited you.
- 2** Log in with your email address and password.
- 3** Scroll down on the dashboard and click on 'Deposit funds'.
- 4** You can deposit using **TRX, DOGE, or LTC**.

Minimum amount: **\$12.50** or with a card: minimum **\$20**.
- 5** If you pay with TRX-DOGE-LTC, you will generate a wallet address and there is **no minimum deposit requirement**.
However, there is a minimum requirement with a credit card: **at least \$20**.
- 6** Once the funds are in your balance, scroll down on the dashboard and click on 'Buy Level 1 12DPC ad'.
- 7** Click on the 'Earn' tab and watch **12 ads** for 12 seconds. You receive **\$0.20** per click; your total passive earnings are **\$2.40**.
- 8** After exactly **24 hours**, you can rewatch your 12 ads and earn **\$0.20** per ad again.
- 9** **Cycle goal \$25**
When this cycle of **\$25** is reached, **\$12.50** will be credited to your withdrawal balance and **cycle 2** will automatically start with **\$12.50**. Please note that a contribution of **\$1.70** must be paid starting from cycle 2. This contribution is valid for 12 days. You can pay this from the **\$12.50** in your withdrawal balance.
- 10** When you refer new members, you will also receive a bonus.
 - LEVEL 1 = 15%**
 - LEVEL 2 = 12.50%**
 - LEVEL 3 = 10%**This bonus helps you reach your cycle goal faster.

i FOLLOW THESE STEPS, STAY CONSISTENT, AND WATCH YOUR \$12 DPC JOURNEY GROW!

The 3 Earning Levels

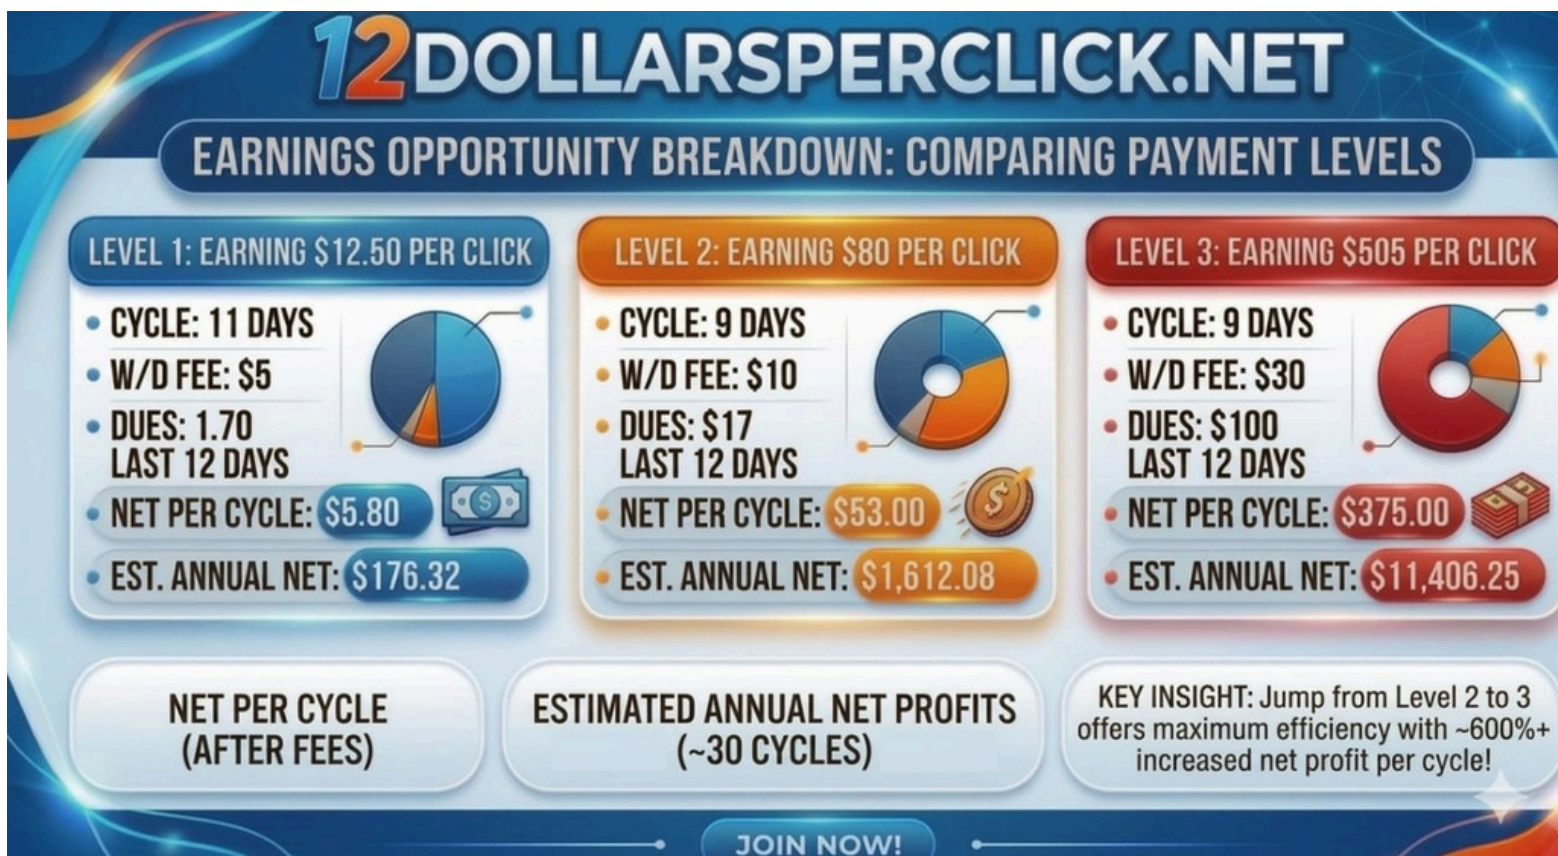

There are 3 earning levels inside 12DPC.

Level 1 costs \$12.50 and pays \$0.20 per ad click.

Level 2 costs \$105 and pays \$2.00 per ad click.

Level 3 costs \$630 and pays \$12.00 per ad click.

You only earn on the level you are currently active at. Once you upgrade to a higher level, you no longer click the lower-level ads for earnings.

Your Daily Job Is Simple

Your daily job is to log in and click your available ads.

At the current setup, you click 12 ads per day. Each ad takes 12 seconds.

After you complete your daily clicks, the system locks you out until the next daily timer resets.

This means consistency is important. The more consistent you are, the faster you move through cycles.

Understanding Your Back Office Menu

At the top of your 12DPC back office, you will see the main menu:

Dashboard

Earn

Advertise

Wallet

Referrals

Support

Settings

Here is what each one is for:

Dashboard is where you see your account status, level, balances, notices, and quick action buttons.

Earn is where you click daily ads.

Advertise is where you manage or create your ads.

Wallet is where you deposit funds, transfer funds, and withdraw.

Referrals is where you find your referral link and referral activity.

Support is where you contact support if you need help.

Settings is where you manage account details.

Before You Add Money

Before you fund your account, decide which path you want to follow.

If you only want to start at Level 1, you need \$12.50.

If you want to start at Level 2, you need \$117.50 total.

If you want to go straight to Level 3, you need \$747.50 total.

These amounts are because you must move through the levels in order.

You cannot skip directly to Level 3.

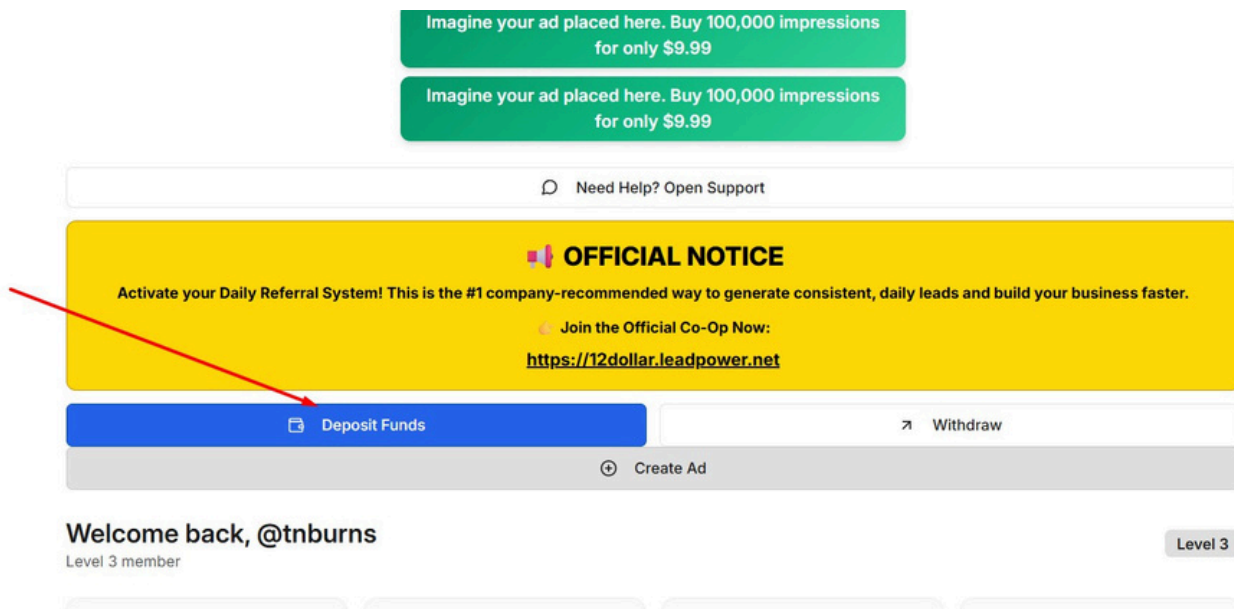

You must activate Level 1 first, create the Level 1 ad, then upgrade to Level 2, create the Level 2 ad, then upgrade to Level 3, and create the Level 3 ad.

Step 1: Click Deposit Funds

From your dashboard, look for the blue button that says Deposit Funds.

Click this button to open the funding area.

This is where you can add money to your purchase balance. Your purchase balance is the balance used to buy ads and upgrades.

**Click Deposit Funds
to add money**

Deposit With Crypto

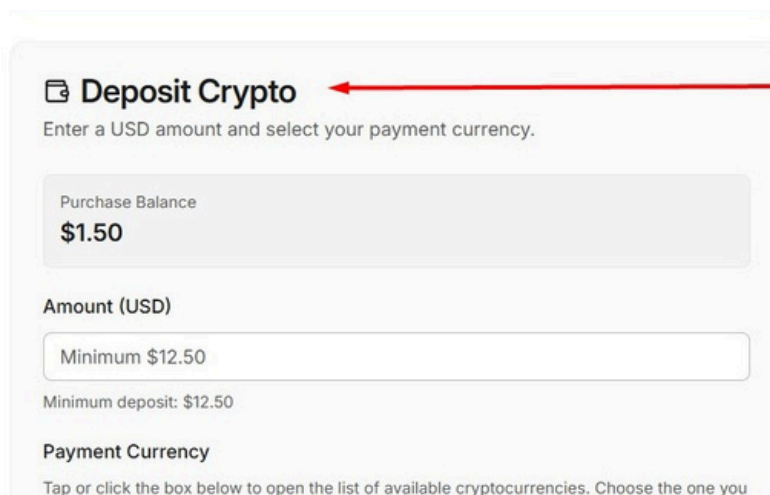

You can also deposit using crypto.

The crypto options shown include:

BTC
DOGE
LTC
TRX
XRP

To deposit crypto:

1. Go to Deposit Funds.
2. Scroll to Deposit Crypto.
3. Enter the amount you want to deposit.
4. Choose the crypto you want to use.
5. Click the deposit button.
6. The system will generate a payment page with a wallet address and exact amount.
7. Send the exact amount to the exact wallet address.

Deposit Crypto ←

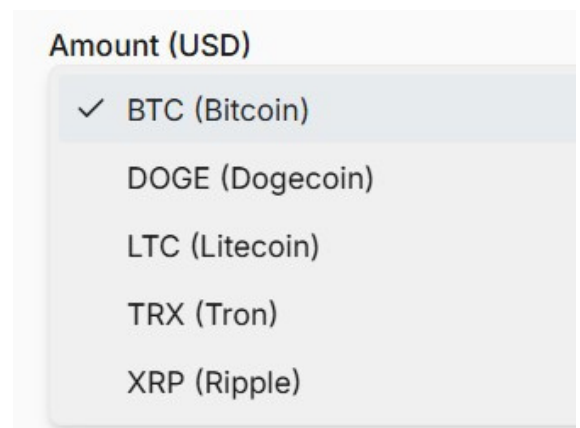

Enter a USD amount and select your payment currency.

Purchase Balance
\$1.50

Amount (USD)
Minimum \$12.50

Minimum deposit: \$12.50

Payment Currency
Tap or click the box below to open the list of available cryptocurrencies. Choose the one you

Amount (USD)

- ✓ BTC (Bitcoin)
- DOGE (Dogecoin)
- LTC (Litecoin)
- TRX (Tron)
- XRP (Ripple)

Important Crypto Warning

When depositing crypto, the amount must be exact.

Do not round the number.

Do not guess.

Do not send to an old address.

Do not reuse a previous payment address unless the system tells you to.

Before sending, always check:

The crypto type is correct.

The amount is exact.

The wallet address is copied correctly.

The first 4 characters match.

The last 4 characters match.

If your wallet charges a fee, make sure the amount received still matches what 12DPC asked for.

Step 2: Buy Your Level 1 Ad

After your deposit shows in your purchase balance, you are ready to buy your Level 1 ad.

From your dashboard, look for the button that says:

Buy Level 1 12DPC Ad \$12.50

Click this button.

This purchase activates your Level 1 position and gives you an ad slot. But you are not finished yet. You must create the ad before you can click ads and earn.

The screenshot shows a dashboard with the following elements:

- Header: "Manage your account and earnings"
- Advertisement: "CREATE YOUR OWN VIRAL PAGE IN SECONDS" with a sub-header "START YOUR VIRAL LINK" and a woman's image. Below it are two green boxes: "Imagine your ad placed here. Buy 100,000 impressions for only \$9.99".
- Member Support: A green bar with a speech bubble icon and the text "Member Support".
- Navigation: A blue button "Deposit Crypto" on the left.
- Withdrawal: A "Withdraw" button with a right-pointing arrow. Below it is the text "Purchase a Withdrawal Eligibility ad + click 10 ads to unlock withdrawals" and a "Purchase Withdrawal Eligibility Ad" button with a right-pointing arrow.
- Targeted Button: A blue button "Buy Level 1 12DPC Ad \$12.50" on the right, which is highlighted by a red arrow pointing from the right side of the image.

Click here to buy your Level 1 ad.

Step 3: Create Your Required Ad

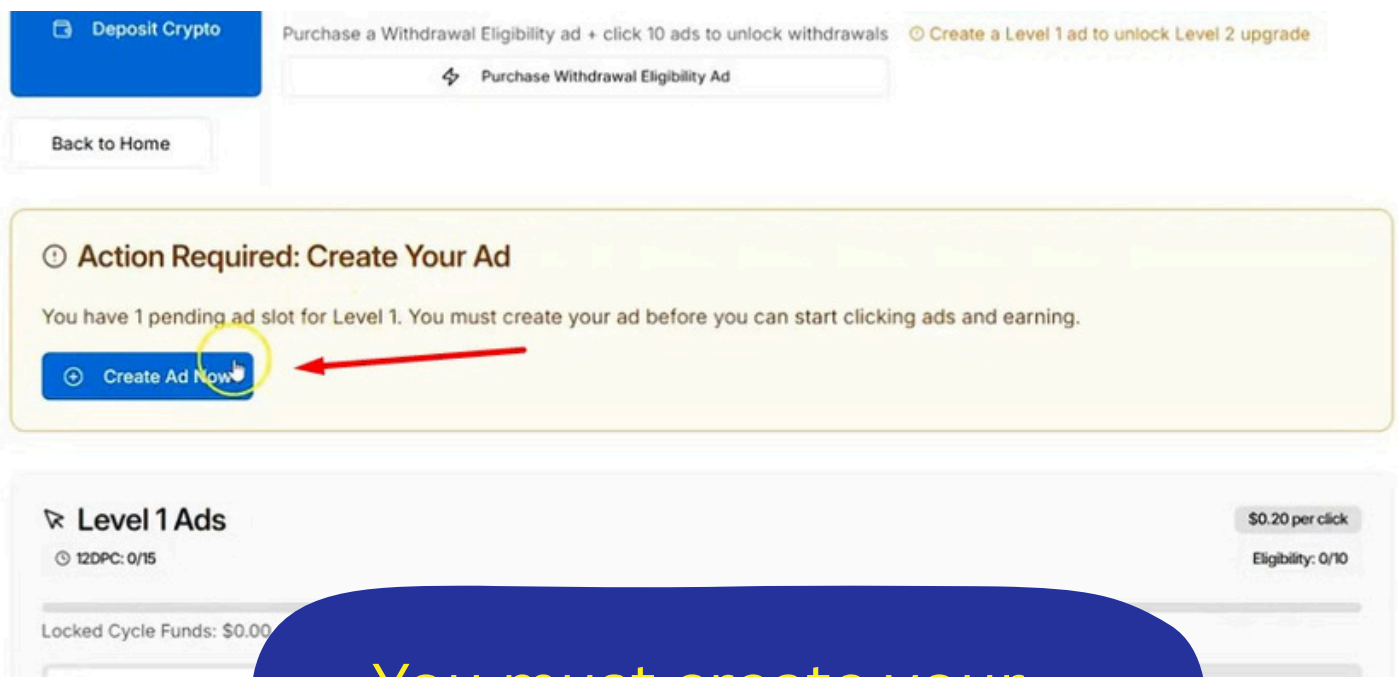

After buying your Level 1 ad, the system may show an Action Required message.

This means you have purchased the ad slot, but you still need to create the actual ad.

Look for the button that says:

Create Ad Now

Click that button.

The screenshot displays a user interface with several elements. At the top left is a blue button labeled "Deposit Crypto". To its right are two links: "Purchase a Withdrawal Eligibility ad + click 10 ads to unlock withdrawals" and "Create a Level 1 ad to unlock Level 2 upgrade". Below these is a search bar containing "Purchase Withdrawal Eligibility Ad" and a "Back to Home" button. A prominent yellow warning box contains the text "Action Required: Create Your Ad" and "You have 1 pending ad slot for Level 1. You must create your ad before you can start clicking ads and earning." A blue button labeled "Create Ad Now" is circled in yellow within this box, with a red arrow pointing to it from the right. Below the warning box is a section titled "Level 1 Ads" with a "12DPC: 0/15" indicator, a "\$0.20 per click" rate, and an "Eligibility: 0/10" status. A "Locked Cycle Funds: \$0.00" label is also visible.

You must create your ad before earning.

How To Fill Out Your Ad

When the Create Your Ad box opens, you will see two fields:

Title

Destination URL

The title is the name of your ad. This is what people will see before they click.

The Destination URL is the website link you want people to visit.

Example title ideas:

Earn Online From Home

Simple Daily Income System

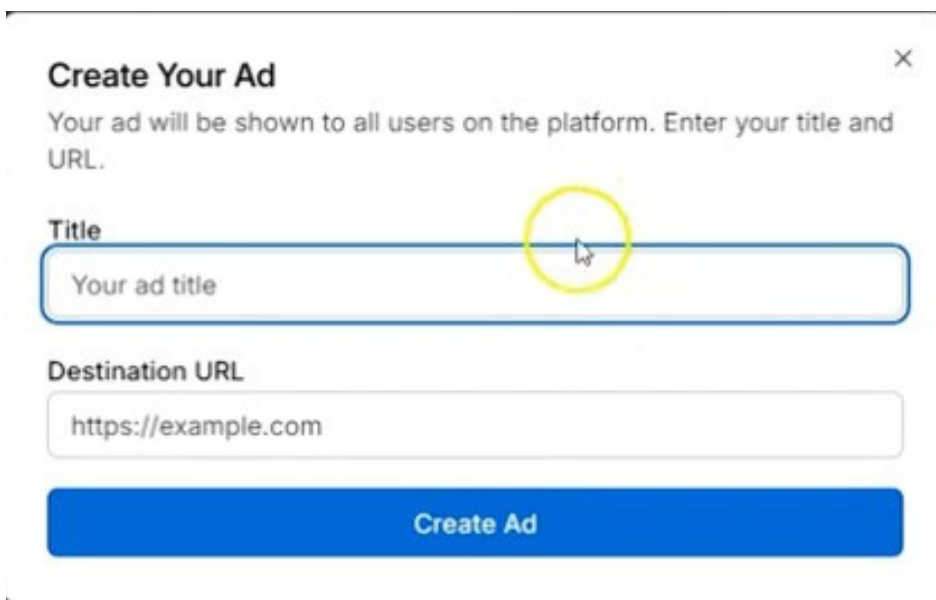

See How This Works

Start Your Online Income Journey

For the URL, use a capture page, referral page, or website you want to promote.

Do not leave either box blank.

After entering both, click Create Ad.

Create Your Ad ×

Your ad will be shown to all users on the platform. Enter your title and URL.

Title

Destination URL

Create Ad

**Put your ad title here.
Put your website link here.
Click Create Ad**

Step 4: Click Ads To Earn

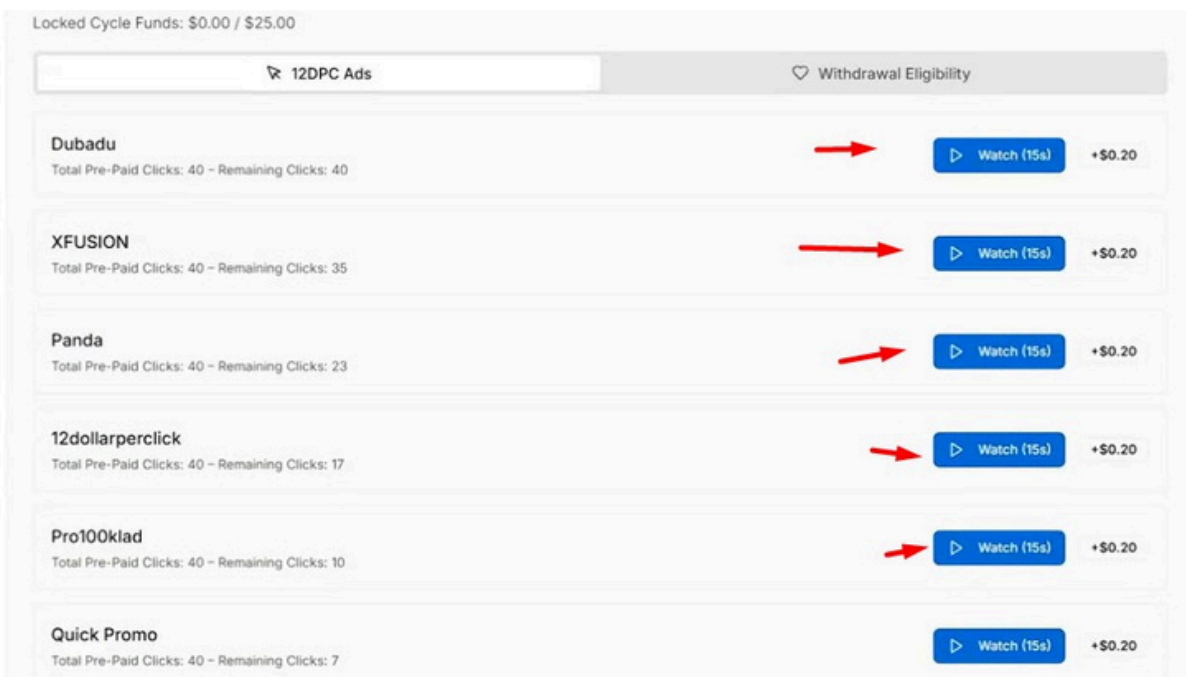

Once your ad is created, you can begin clicking ads.

At the top menu, click Earn.

You will see a list of available ads. Each ad will have a Watch button.

To earn:

1. Click Watch.
2. Wait for the timer to finish.
3. Click Confirm when it appears.
4. Return to the Earn page.
5. Repeat until you complete all 12 daily ads.

**Click Watch to open the ad.
Repeat until you reach 12 clicks.**

Refresh Is Your Friend

Sometimes you may only see a few ads available. That does not mean you are done.

If you still need more daily clicks, refresh the page or return to the Earn page again. More ads may appear.

The system may show regular member ads or admin-provided ads. Either way, your goal is to complete your allowed daily clicks.

Keep going until the system shows that you have completed your daily ads.

What Happens After You Finish Daily Ads?

After you click your daily limit, the system will lock your ad clicking for about 24 hours.

This is normal.

Your next clicking window begins after the timer resets. The reset is based on when you finished your last ad.

For best results, try to click around the same time each day.

Understanding Your Money Inside 12DPC

You may see different balances inside your dashboard.

Purchase Balance

This is money you can use to buy ads, pay for upgrades, or keep your account active.

Withdrawal Balance

This is money that may be available to withdraw, once withdrawal requirements are completed.

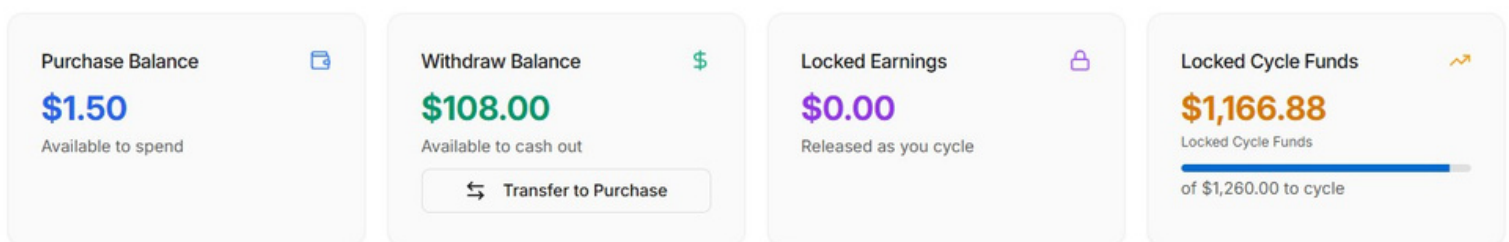

Locked Cycle Funds

This is money building toward your next cycle.

The important thing to remember is this:

Clicking ads builds your cycle funds.

Cycling creates new ad activity and may move money into withdrawable or usable balances.

What Does “Cycle” Mean?

A cycle happens when your account reaches the required earning amount for your level.

At Level 1, you earn \$0.20 per click.

At Level 2, you earn \$2.00 per click.

At Level 3, you earn \$12.00 per click.

When the cycle completes, the system automatically processes the cycle according to your level.

This is how your account keeps moving forward.

Your account operates on an 8-cycle structure.

☞ This means:

- You can complete up to 8 cycles

After your 8th cycle, your account will reset

After completing 8 cycles, your account resets so you can continue earning long-term.

Once you reach 8/8, your account goes through a reset so you can continue earning.

Step 1: Reset Begins

Your account enters a reset phase after completing your 8th cycle.

Step 2: Reposition Your Account

You will:

- Transfer funds from Withdrawal Balance → Purchase Balance
- Use those funds to maintain your level

👉 In most cases, your earnings will cover this.

Step 3: Back to Earning

Once completed:

- ✓ Your cycle counter resets to 0/8
- ✓ You continue earning as normal

Why This System Exists

This structure is designed to:

- ✓ Keep payouts flowing
- ✓ Maintain system stability
- ✓ Allow long-term sustainability

Beginner Tip

Always:

- ✓ Keep some earnings available
- ✓ Be ready to reposition after cycle 8
- ✓ Stay consistent daily

Simple Way to Remember

Cycle → Earn → Reset → Repeat

Step 5: Keep Your Access Active

To keep clicking ads and earning, your ad clicking dues must remain active.

The dues are currently every 12 days:

Level 1: \$1.70

Level 2: \$17

Level 3: \$100

These dues are required to keep access active.

If your access expires, you may not be able to click ads and earn until it is renewed.

Ad Clicking Dues

Required to click 12DPC ads and earn

Access until: Friday, May 15, 2026 at 06:48 AM

Level 3 Dues Rate: \$100.00/12 days Duration: 12 days

Next purchase available in 247 hours
You can purchase another cycle when 6 hours or less remain on your current access.

Extend Access (+12 days) - \$100.00 for 12 days of access

Access Active

Check your access expiration date here.

WITHDRAWAL PROCESS

IN 12DPC

Up To
\$12
DOLLARS
PER CLICK

- 1** Once your account cycles - your earnings will be placed in your **Withdraw Balance**.

EARNINGS
PLACED IN
**WITHDRAW
BALANCE**

- 2** Decide how much you want to transfer to **Purchase Balance** for purchases like:

AD CLICK
DUES

- 3** At the **Withdraw Balance** - Transfer the amount to **Purchase Balance** to be used for your purchases from #2.

WITHDRAW
BALANCE

PURCHASE
BALANCE

- 4** To Withdraw funds from **Withdraw Balance** - you must First purchase **Withdrawal Eligibility Ads**

- Click Advertise/My Ads - at the **Withdrawal Eligibility Ads** -
- Click **Level_ Eligibility Ad** (amount)
- Enter your Ad Title and URL - pay the Fee by clicking the **Level_ Eligibility Ad** (cost) button.

- 5** Click on **EARN** - then **Withdrawal Eligibility** tab - click **Ad** (5 second) - Confirm - return to click the **Withdrawal Eligibility** tab **AFTER** each Ad - confirm & repeat until all ads are done.

The red **LIMIT** text will appear next to the **Withdrawal Eligibility** tab

- 6** To Withdraw funds - Click on **Wallet** - then **Withdraw** - **CAREFULLY** enter your details for withdrawal.

- use the drop down menu for other choices
- Request Withdrawal.

THE CURRENT PAYOUT TIMELINE IS OVER **7-9 DAYS** (SUBJECT TO CHANGE)

Before You Withdraw

Before withdrawing, you must complete withdrawal eligibility requirements. You may need to:

1. Purchase a Withdrawal Eligibility Ad.
2. Click 10 Withdrawal Eligibility ads.

These ads are separate from your regular daily earning ads.

They are required before the withdrawal button becomes available.

Withdrawal Eligibility

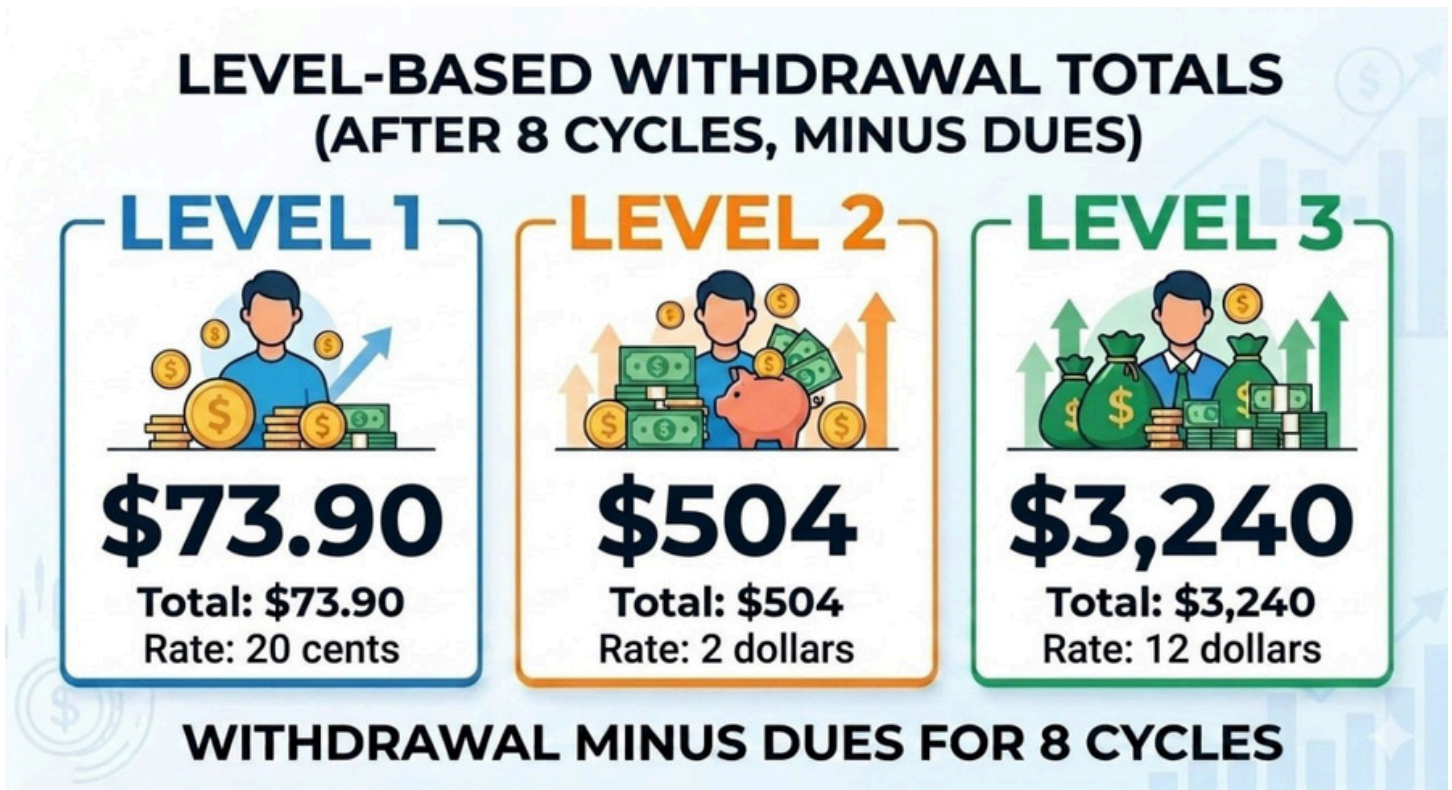

Complete both requirements below to unlock withdrawals:

- Purchase Withdrawal Eligibility Ad (0/1)
- Click 10 Withdrawal Eligibility ads (0/10)

↻ Purchase Withdrawal Eligibility Ad

Complete both
requirements to
unlock withdrawals.

Step 6: Request Your Withdrawal

To withdraw:

1. Go to Wallet.
2. Click Withdraw.
3. Choose your cryptocurrency.
4. Enter the amount you want to withdraw.
5. Paste your wallet address.
6. Double check everything.
7. Submit your withdrawal request.

Your wallet address must match the crypto you selected.

Do not send TRX to a BTC wallet.
Do not send BTC to a TRX wallet.

TRX (Tron)

Amount (USD)

10.00

Minimum withdrawal: \$10

Wallet Address

Enter your wallet address

Choose crypto here.
Enter amount here.
Paste wallet address
here.

Choose Your Starting Strategy

There are three main ways to start.

Scenario #1: Upgrade to all 3 levels right away.

Scenario #2: Upgrade to Level 1 and Level 2 right away.

Scenario #3: Start at Level 1 and grow slower.

There is no one-size-fits-all answer. Choose the strategy that fits your budget and comfort level.

Scenario #1: Upgrade To Level 3 Right Away

This is the fastest way to start earning at the highest level.

Total starting amount: \$747.50

Here is the exact order:

1. Deposit \$747.50 into your account.
2. Buy your Level 1 ad for \$12.50.
3. Create your Level 1 ad.
4. Upgrade to Level 2 for \$105.
5. Create your Level 2 ad.
6. Upgrade to Level 3 for \$630.
7. Create your Level 3 ad.
8. Go to Earn and click your Level 3 ads.

At Level 3, you earn \$12 per click.

2 ads x \$12 = **\$144 per day.**

Important Notes For Fast Track Members

Do not try to upgrade out of order.

You must create each ad before the next step unlocks.

The correct order is:

Level 1 purchase
Level 1 ad creation
Level 2 upgrade
Level 2 ad creation
Level 3 upgrade
Level 3 ad creation
Click Level 3 ads

If something does not appear unlocked, go back and make sure the previous ad was created.

Scenario #2: Start At Level 2

This is a balanced strategy for people who want to start stronger but do not want to fund all the way to Level 3 immediately.

Total starting amount: \$117.50

Here is the exact order:

1. Deposit \$117.50.
2. Buy Level 1 for \$12.50.
3. Create your Level 1 ad.
4. Upgrade to Level 2 for \$105.
5. Create your Level 2 ad.
6. Go to Earn and click your Level 2 ads.
- 7.

At Level 2, you earn \$2 per click.

12 ads x \$2 = \$24 per day.

How To Reach Level 3 From Level 2

Level 3 costs \$630.

You can reach Level 3 in three ways:

Fastest: Deposit new funds and upgrade.

Balanced: Combine earnings with new funds.

Slowest: Reinvest earnings until you have enough.

The key is to avoid unnecessary withdrawals if your goal is to reach Level 3 quickly.

Scenario #3: Start At Level 1

This is the lowest-cost way to begin.

Starting amount: \$12.50

Here is the exact order:

1. Deposit \$12.50.
2. Buy your Level 1 ad.
3. Create your Level 1 ad.
4. Click your daily Level 1 ads.
5. Allow your earnings to build.
6. Upgrade when you are ready.

At Level 1, you earn \$0.20 per click.

12 ads x \$0.20 = \$2.40 per day.

This method is slower, but it allows you to learn the system with a small starting amount.

How To Triple Your Earnings

12DPC allows up to 3 accounts per household.

This can be powerful because each account can earn separately.

Example at Level 3:

So at level 3:

1 account \approx \$2020/month

2 accounts \approx \$4040/month

3 accounts \approx \$6060/month

Same simple process... multiplied.

That is the power of duplicating the same simple daily action.

Important:

Each account should have its own username and email address.

How To Think About Multiple Accounts

A simple strategy is to build one account first, learn the process, then add additional accounts when you are comfortable.

Beginner option: Start with one account.

Builder option: Start with two accounts.

Advanced option: Build all three accounts.

Do not confuse yourself by rushing. Learn the system first, then scale.

The Income Most Members Miss

Clicking ads is powerful by itself.

But referrals can make the system much more powerful.

When you personally refer someone, you can earn when they click ads.

That means you are not only earning from your own clicks. You can also earn from the daily activity of your team.

What 1 Level 3 Referral Can Mean

With just 1 referral at Level 3:

You earn \$1.20 for each ad they view.

If they view 12 ads:

$\$1.20 \times 12 = \14.40 per day

That is about:

\$432 per month

from just one active Level 3 referral.

What 5 Level 3 Referrals Can Mean

With 5 active Level 3 referrals:

\$14.40 per day x 5 = \$72 per day

That is about:

\$2,160 per month

This is why referrals matter.

You do not need hundreds of referrals to see meaningful growth. A small number of active members can make a big difference.

Simple Referral Strategy

Do not overcomplicate referrals.

Start by sharing your simple story:

I joined 12DPC.

I bought my first ad.

I click ads daily.

I am building toward higher earnings.

Here is how it works.

Then invite people to watch the presentation or join your team.

Best places to share:

Your email list

Facebook profile

Facebook group

Messenger contacts

YouTube description

Traffic exchanges

Common Mistakes

Avoid these beginner mistakes:

- Skipping the ad creation step.
- Sending the wrong crypto amount.
- Using the wrong wallet address.
- Forgetting to click daily.
- Trying to withdraw before eligibility is complete.
- Letting ad clicking dues expire.
- Withdrawing too soon if your goal is to upgrade.
- Trying to upgrade before completing the required ad step.

Your Simple Daily Routine

Every day:

1. Login.
2. Click Earn.
3. Click your available ads.
4. Confirm each ad.
5. Complete all 12 daily clicks.
6. Check your balances.
7. Log out.

That is it.

Consistency is the secret.

Final Advice Before You Start

Start with the strategy that fits your budget.

If you are brand new, learn the system first.

If you want to grow faster, upgrade faster.

If you want to scale bigger, use referrals and multiple accounts.

The system is simple, but only if you follow the steps in order.

Ready To Get Started?

Step 1: Create your account.

Step 2: Fund your purchase balance.

Step 3: Buy your first ad.

Step 4: Create your ad.

Step 5: Start clicking daily.
