

Glacier Explorer!

Most U.S. glaciers are in Alaska!

DID YOU KNOW?

Glaciers are giant, slow-moving rivers of ice. In the United States, most glaciers are in Alaska. Glaciers can also be found in Washington, Oregon, California, Montana, Wyoming, Colorado, and Nevada. Around the world, many glaciers are found in Antarctica and Greenland!

1 Find the Glacier Places!

Color or circle the states where glaciers can be found!

GLACIER STATES

Alaska
Washington
Oregon
California
Montana
Wyoming
Colorado
Nevada

Can you spot these icy places too?

2 Draw a Glacier Scene!

Draw a chilly glacier scene with ice, mountains, snow, or animals you might see nearby!

★ Great job, Explorer! ★

Sea Life Explorer!

What sea animals, shells, plants, or ocean treasures might you find near this coast? Draw them below!

DID YOU KNOW?

Coastal states are next to oceans, gulfs, or bays. Many sea animals live near the coast where land meets water!

★ Great job, Explorer! ★

Let's learn about sea life animals!

SEA LIFE & GLACIER ANIMALS

And glacier animals too!

Page 1 of 3 • Learn About Animals in Two Different Habitats

Some animals live in the ocean. Other animals live in icy, cold places near glaciers. Let's learn which animals belong in each habitat!

SEA LIFE

jellyfish

dolphin

sea turtle

clownfish

octopus

seahorse

Sea life animals live in the ocean or sea. Many swim in salt water.

GLACIER

polar bear

penguin

seal

walrus

arctic fox

snowy owl

Glacier animals live in very cold places with snow, ice, and freezing water.

What's Different?

• Sea life animals live in the ocean.

• Glacier animals live in icy, cold habitats.

★ YOU'VE GOT THIS! ★

Let's practice sorting animals!

ANIMAL HABITAT SORT

Write each animal in the right habitat!

Page 2 of 3 • Practice

Use the word bank. Write each animal in the correct habitat box below.

WORD BANK

jellyfish

dolphin

sea turtle

clownfish

octopus

seahorse

polar bear

penguin

seal

walrus

arctic fox

snowy owl

SEA LIFE

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____

GLACIER

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____

Helpful Hint

Sea life animals live in the ocean.
Glacier animals live in icy, cold places.

GREAT JOB!

You can do it!

ANIMAL HABITAT TEST!

Write Sea Life or Glacier!

Page 3 of 3 • Can You Match Each Animal to Its Habitat?

Write the correct habitat next to each animal:
Sea Life or **Glacier**.

- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10

★ **Bonus Question**

★ Which habitat is cold and icy? _____

★ **YOU'VE GOT THIS!** ★
