

ARTEMIS II MOON ADVENTURE!

Emma:

They flew all the way around the Moon!

What did the 4 astronauts do around the Moon?

In April 2026, Artemis II sent 4 astronauts around the Moon in NASA's Orion spacecraft. They flew past the far side of the Moon, tested their spacecraft, took amazing pictures, and returned safely to Earth.

Marcus:

And they went past the far side and came safely home!

MEET THE CREW

Reid Wiseman
Commander

Victor Glover
Pilot

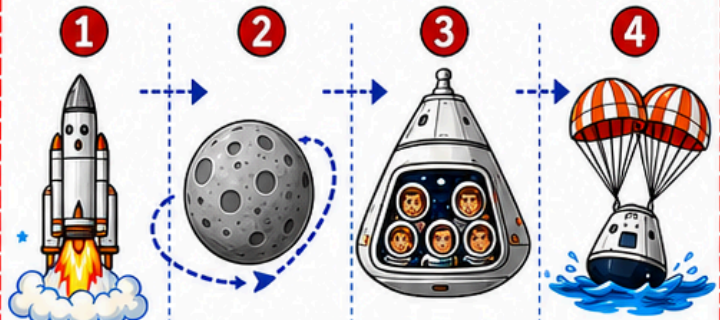

Christina Koch
Mission Specialist

Jeremy Hansen
Mission Specialist

WHAT THEY DID

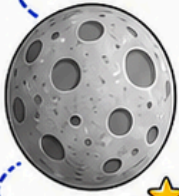

1
Launched from Kennedy Space Center, Florida on April 1, 2026.

2
Flew around the Moon and behind the far side.

3
Tested Orion in deep space for nearly 10 days.

4
Splashed down safely in the Pacific Ocean off San Diego on April 10, 2026.

MISSION FIRSTS

- ★ First crewed lunar flyby in over 50 years
- ★ First woman on a lunar mission
- ★ First Black astronaut on a lunar mission
- ★ First Canadian on a lunar mission
- ★ Traveled farther from Earth than any humans before

DRAW THE FAR SIDE OF THE MOON!

What do you think the astronauts saw?

MY MOON MISSION

If you could fly around the Moon, what would you want to see?

SPACE ADVENTURE!

Emma:

Space is amazing! Let's explore!

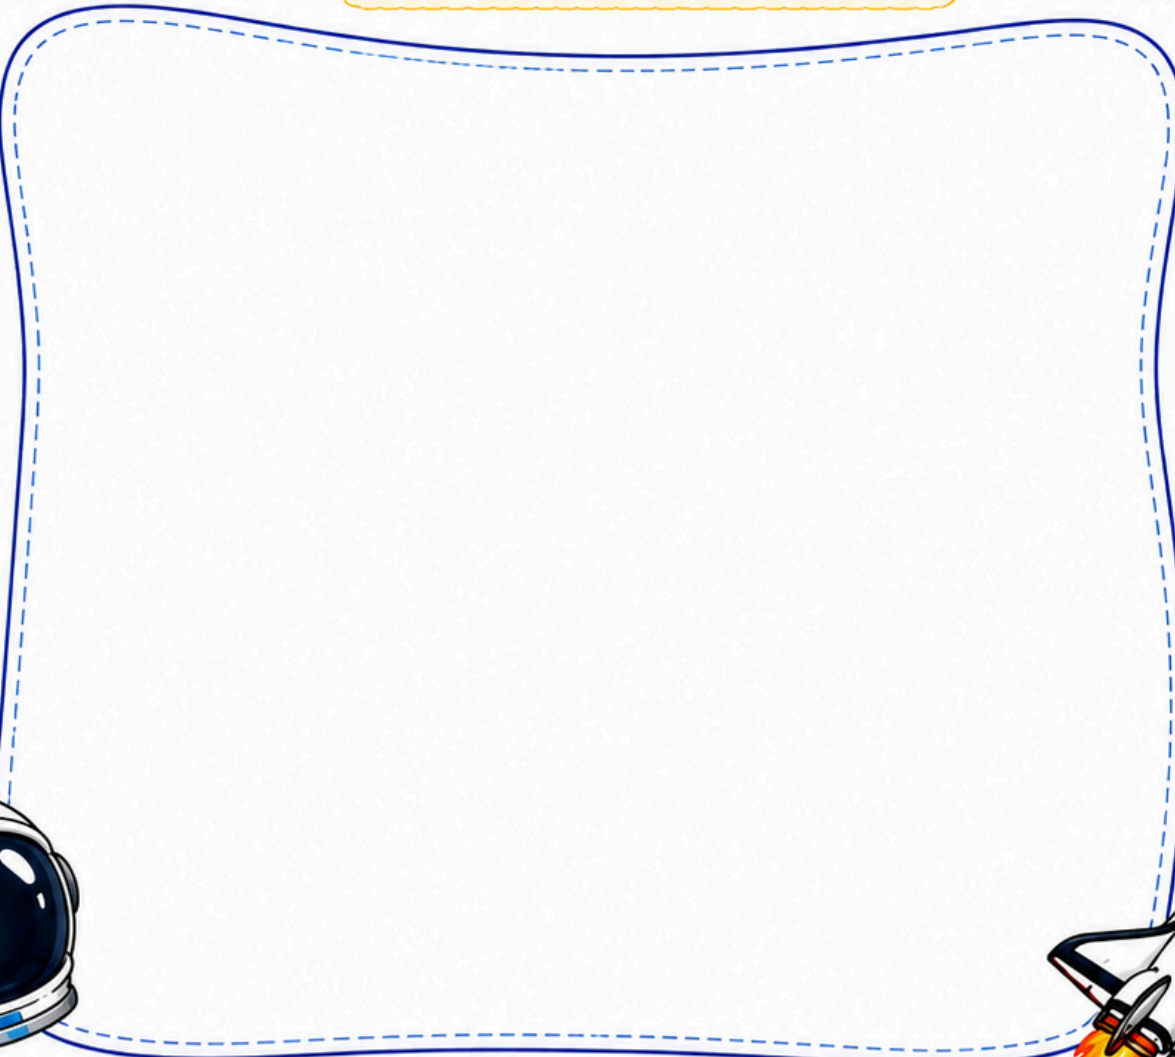

DRAW YOURSELF AS AN ASTRONAUT!

Imagine you are exploring space!
Draw yourself in your astronaut suit.

Marcus:

Draw yourself as an astronaut in space!

★ DID YOU KNOW?

Astronauts train to travel in space, but they also need to be strong, smart, and curious—just like you! ❤️

MY SPACE MISSION:

If you were an astronaut, where would you go?

The Planet Adventure!

Emma:

Can you learn the planets in order?

My Very Educated Mother Just Served Us Nine Pizzas!

- M** Mercury
- V** Venus
- E** Earth
- M** Mars
- J** Jupiter
- S** Saturn
- U** Uranus
- N** Neptune
- P** Pluto*

*Pluto is now called a dwarf planet!

Marcus:

Use the memory trick to help you!

DID YOU KNOW?

Pluto was once called the ninth planet.

Today, scientists call Pluto a **dwarf planet!**

THE PLANETS IN OUR SOLAR SYSTEM

Mercury

Venus

Earth

Mars

Jupiter

Saturn

Uranus

Neptune

Pluto*

DRAW YOUR FAVORITE PLANET!

My Favorite Planet Is:

Because:

SPACE EXPLORER CHALLENGE!

Can you say this three times?

My Very Educated Mother Just Served Us Nine Pizzas!

1st try!

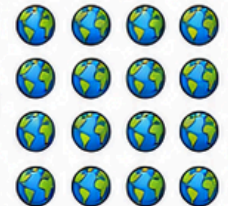

2nd try!

3rd try!

AMAZING SPACE FACT!

Jupiter is so big that more than **1,000 Earths** could fit inside it!

PLANETS TEST!

Can You Put the Planets in Order from the Sun?

MEMORY TRICK:

My **V**ery **E**ducated **M**other
Just **S**erved **U**s **N**ine **P**izzas!

Use the memory trick to help you remember the planets in order!
