

Our Mission

To empower individuals through compassionate, person-centered support that promotes independence, dignity, and inclusion within their chosen communities.

Our Vision

To be a leading provider of recovery-focused, person-directed services that foster self-determination and long-term stability for individuals with severe mental illness across Kentucky.

Empowerment Solutions, Inc.

*Empowering Individuals Toward Recovery,
Independence, Support, and Engagement*

Overview of the Organization

Empowerment Solutions, Inc., was founded upon the deep personal values and lived experiences of its Executive Director and shareholders. Each member of the leadership team has witnessed firsthand the barriers, stigma, and systemic inequities faced by participants with Serious Mental Illness (SMI) or co-occurring SMI and Substance Use Disorders (SUD). Empowerment Solutions, Inc. is a response to those challenges and has a vision for inclusion, empowerment, and recovery for all Kentuckians, regardless of diagnosis or circumstance.

Through participation in the 1915(i) RISE Initiative, Empowerment Solutions, Inc. will extend its continuum of care to participants with SMI or co-occurring SMI and SUD who require rehabilitative and habilitative support in the least restrictive setting possible. Empowerment Solutions, Inc. believes that participants with SMI or co-occurring SMI and SUD have the right to live self-directed, meaningful lives within their communities with access to support that promotes hope, purpose, and dignity.

Application & Eligibility Details

Participant Eligibility Requirements

- Be 18 years of age or older
- Be enrolled in Kentucky Medicaid
- Have a primary diagnosis of Serious Mental Illness (SMI), such as schizophrenia, bipolar disorder, or major depressive disorder with functional impairment
