

Company Profile

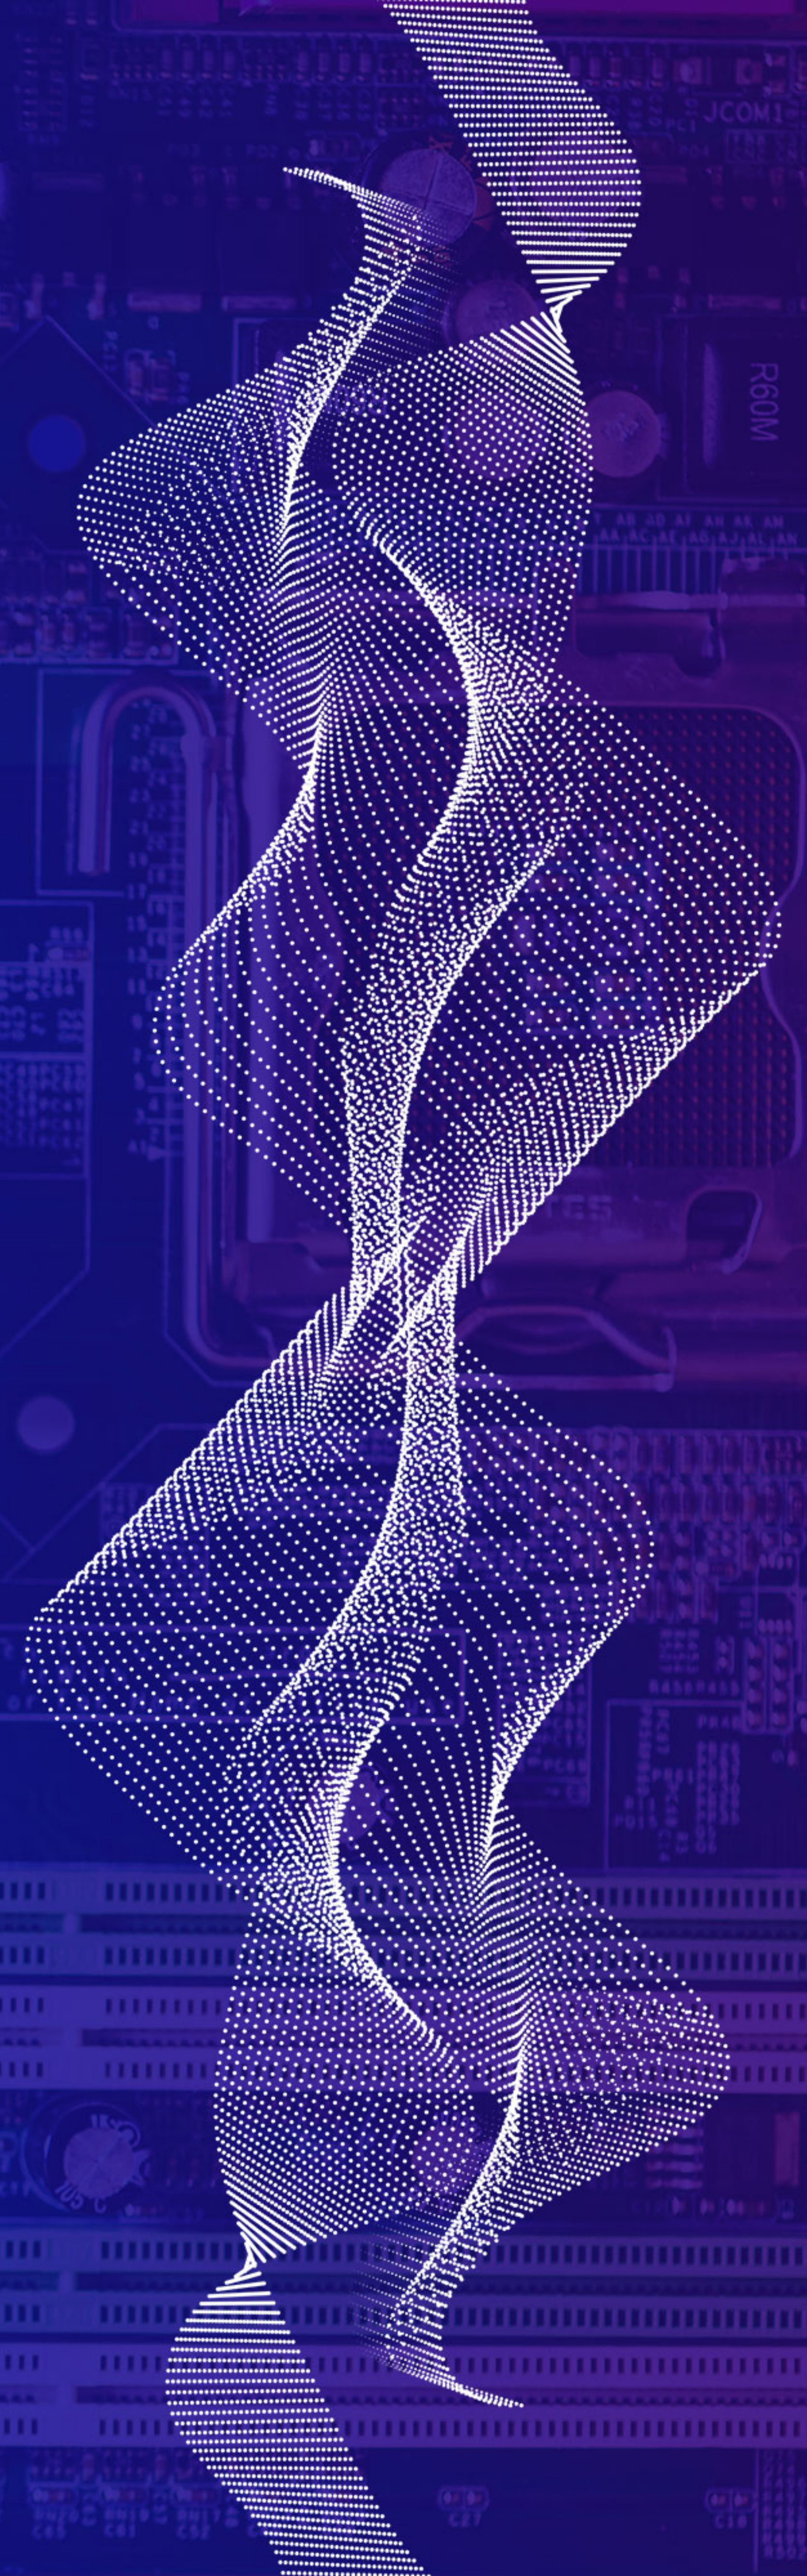

Who We Are

Sarab Technologies is a Saudi-born technology company focused on building intelligent digital systems that shape the future of mobility, infrastructure, and smart urban living.

We combine Artificial Intelligence, advanced analytics, simulation technologies, and smart infrastructure solutions to help governments, enterprises, and cities operate more efficiently, sustainably, and intelligently.

At Sarab Technologies, we believe technology should not only solve today's challenges — but also anticipate tomorrow's opportunities.

Brand Philosophy

The name Sarab symbolizes the ability to see

beyond what is visible.

It represents vision, imagination, and the transformation of complex data into intelligent reality. Our mission is to bridge the gap between innovation and real-world impact through technology-driven solutions that redefine how cities and systems function.

Brand Positioning

Sarab Technologies positions itself as a next-generation intelligence and infrastructure technology partner specializing in:

- Smart Mobility Solutions
- AI-Driven Transportation Systems
- Digital Twins & Smart Simulation
- Infrastructure Intelligence
- Smart Cities & Urban Analytics

We empower organizations with intelligent platforms that improve decision-making, optimize operations, and create sustainable digital ecosystems.

Vision

To become a leading regional force in intelligent infrastructure and AI-powered urban transformation.

Mission

To develop advanced technology solutions that enhance mobility, infrastructure efficiency, and smart city innovation through AI, data intelligence, and digital transformation.

Core Services

Smart Mobility

Designing intelligent transportation ecosystems that improve traffic flow, public transport efficiency, safety, and urban connectivity.

AI-Driven Transportation

Leveraging Artificial Intelligence and predictive analytics to optimize transportation networks, automate decision-making, and reduce operational inefficiencies.

Digital Twins & Simulation

Creating real-time digital replicas of physical environments and systems to support planning, forecasting, monitoring, and performance optimization.

Infrastructure Intelligence

Building data-powered infrastructure systems capable of monitoring assets, improving maintenance operations, and enabling proactive decision-making.

Smart Cities & Urban Analytics

Providing advanced urban intelligence platforms that help cities become smarter, more connected, sustainable, and citizen-centric.

Why Sarab Technologies

Saudi Vision-Aligned Innovation

AI-Powered Intelligent Systems

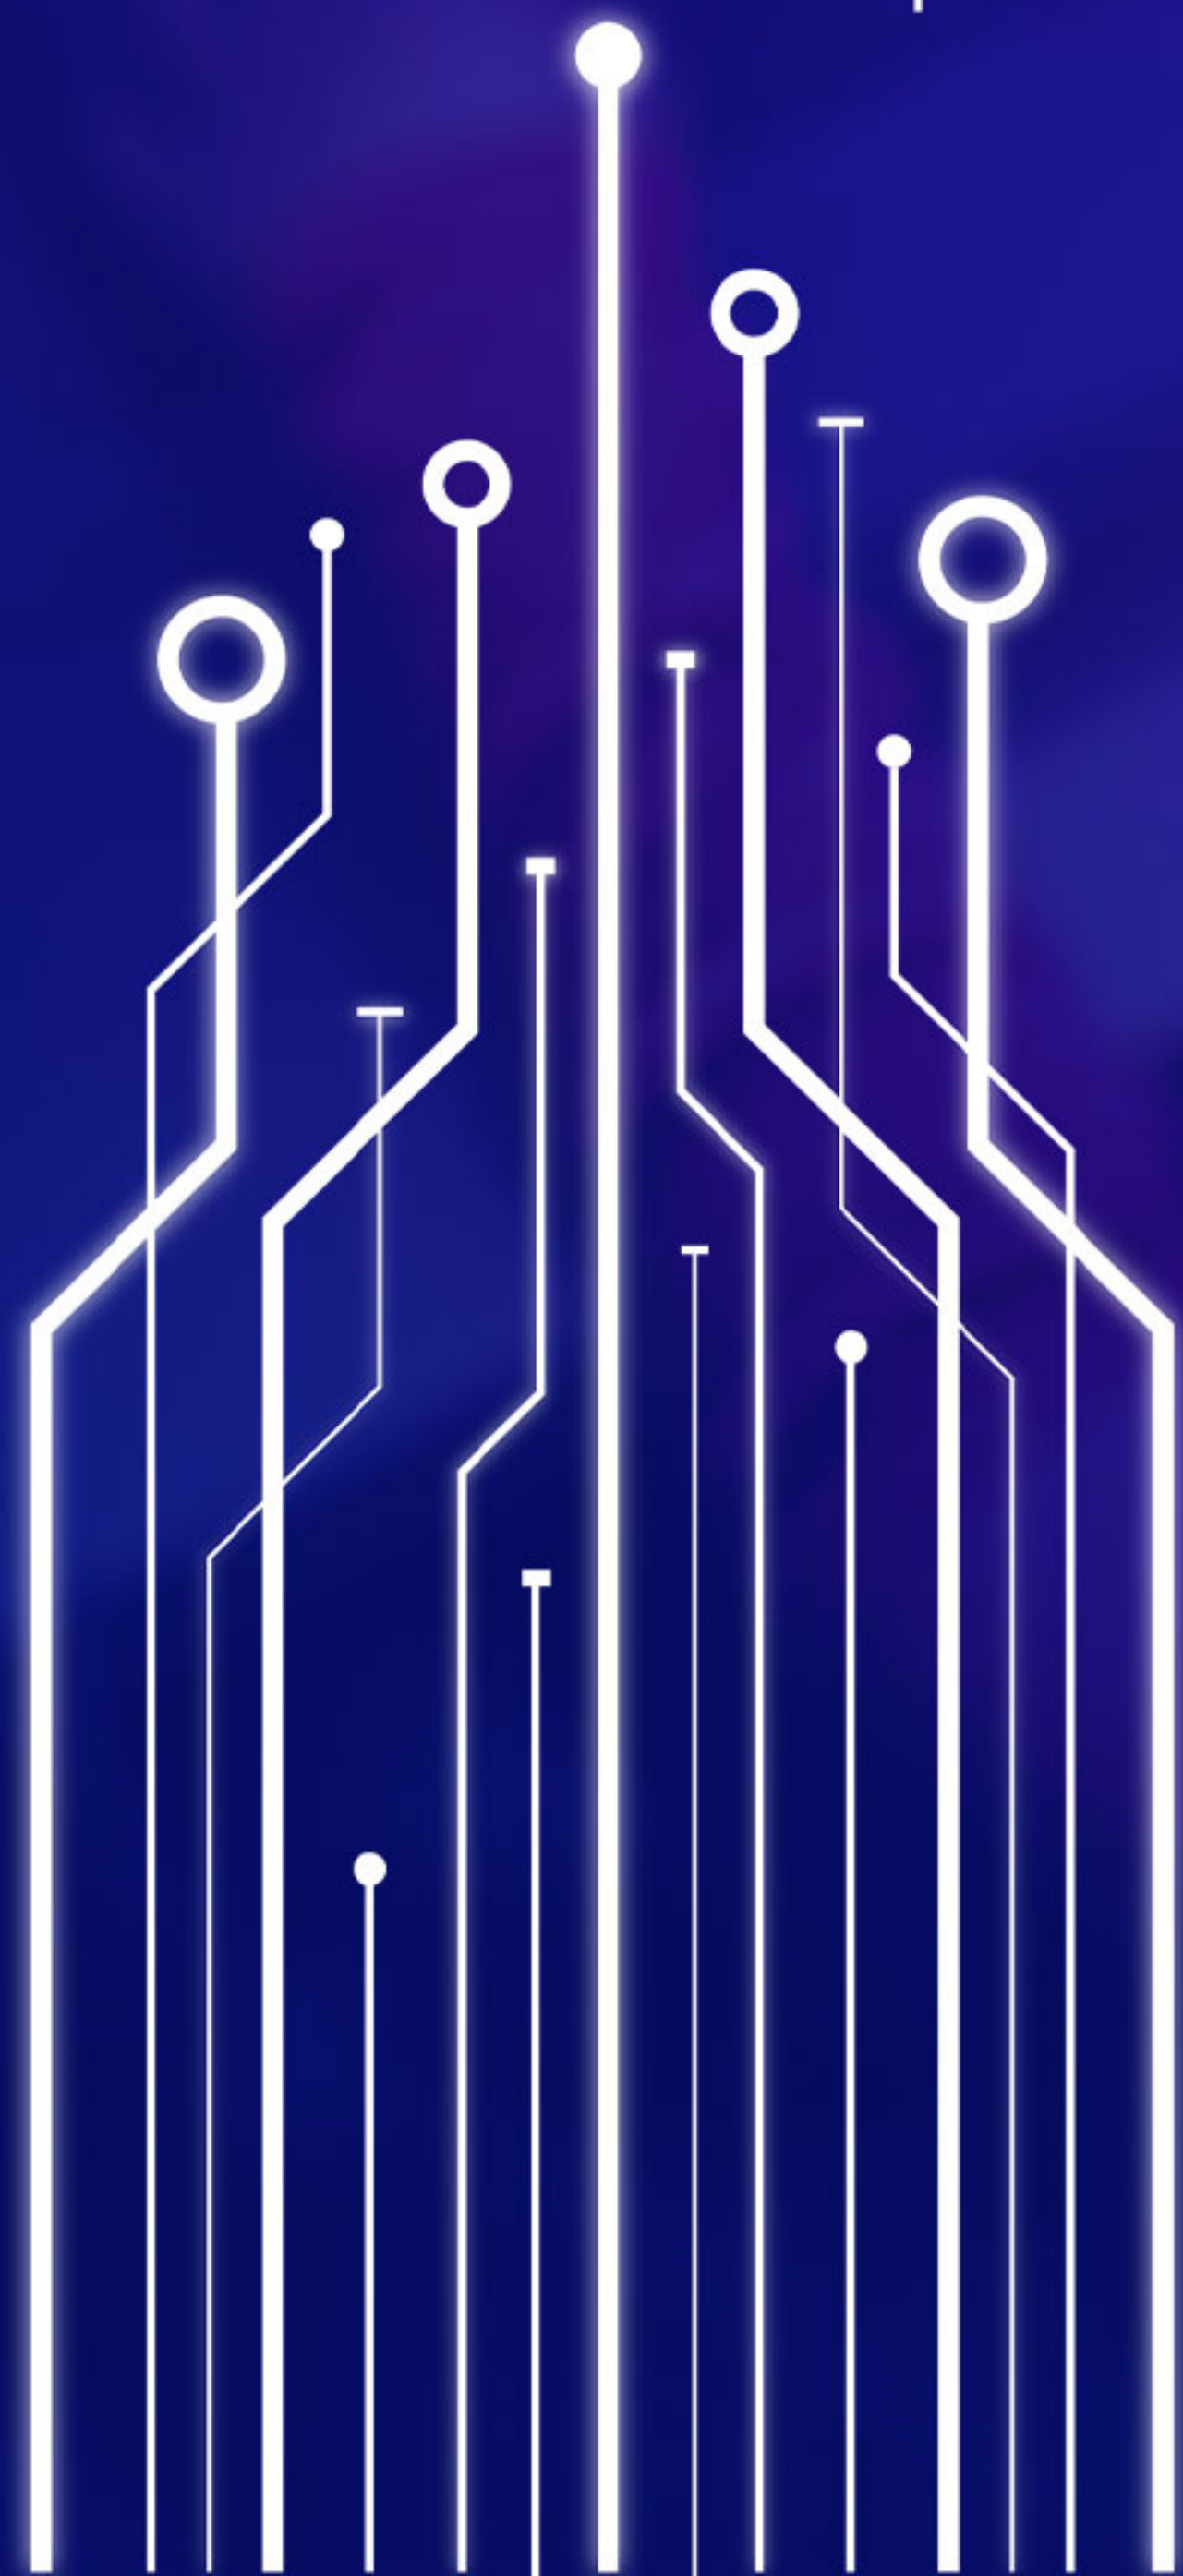

Future-Focused Technology Solutions

Scalable Infrastructure Intelligence

Advanced Data & Simulation Capabilities

Sustainable Urban Transformation Approach

Expertise in Smart Mobility Ecosystems

Our Approach

At Sarab Technologies, we follow a technology-first methodology built around innovation, scalability, and measurable impact.

We analyze complex urban and infrastructure challenges, transform data into actionable intelligence, and deliver integrated solutions tailored to the evolving needs of modern cities and enterprises.
