# The Power of Peppermint Oil

*“Titus Billings did something that surprised him as much as it did Diantha. He placed both reins in one hand and with the other reached over, took one of her hands and pulled it close to him. Her hand was softer than anything he could remember touching in all of his 23 years. Pulling it to his lips he kissed it with reverence. Then Titus Billings held the feminine hand of Miss Diantha Morley by his side until the homestead came into view.”*

(Quote from book, page 23,  
“Harvesting Peppermint” chapter.)
