VERTICA

A Study of Stripes, Structure & Subtle Elegance

Vertica is a curated wallpaper collection inspired by the power of vertical rhythm. Rooted in architectural balance and refined design, this catalog reimagines stripe-based patterns through soft textures, tonal gradients, and modern compositions. Each design is created to elevate interiors with quiet sophistication bringing height, harmony, and timeless appeal to every space.

Vertica is a thoughtfully designed stripe-based wallpaper catalog developed for modern living and refined commercial interiors. The collection explores vertical design in its most versatile forms, repeat patterns, panel compositions, textured surfaces, and structured stripe layouts, offering designers and dealers flexible solutions for a wide range of applications.

Stripes naturally influence spatial perception by adding visual height and structure. In Vertica, this element is interpreted with restraint and creativity, resulting in designs that feel elegant, balanced, and enduring rather than bold or overpowering.

The collection focuses on soft color palettes, fine detailing, and harmonious proportions, making each design easy to integrate with contemporary, classic, and minimal interior styles.
