

0.0 RECYCLED PLASTIC GARDEN EDGE

0.1 General

Where shown on the drawings and as specified below, supply and install recycled plastic garden edge to separate adjoining landscape surfaces.

0.2 Material

Recycled plastic garden edge shall be made from Australian recycled HDPE plastic and shall include extruded edge boards in a 'J' channel profile, anchor pegs with lock-head profile, and associated edge board profile joiners.

0.3 Installation

The recycled plastic garden edge system shall be installed as per manufacturer's installation guide.

0.4 Project Specific Outcomes

Where indicated on the landscape drawings, install anchor pegs at 600mm typical spacings to achieve increased strength to the garden edge alignment.
