Introduction

Mining & More is a South African mining solutions provider committed to strengthening operational performance across open cast and shaft mining environments. We focus on delivering dependable equipment, high-quality accessories, mining spares, mine management solutions, and rehabilitation services.

In an industry where reliability, efficiency, and safety determine profitability, we position ourselves as a partner that mines can trust from start-up to shutdown. Every solution is designed to reduce downtime, support compliance, and ensure that operations meet their production targets while maintaining environmental integrity.

Our approach is partnership-driven, combining industry experience, regional knowledge, and a strong technical network to support mining operations of all sizes across Southern Africa.

Who We Are

Mining & More was founded with a clear objective: to provide transparent, reliable, long-term mining solutions that elevate the standards of mine operations. Our focus on quality, accountability, and on-time delivery ensures that our clients receive the support they need to operate effectively in a demanding sector.

We pride ourselves on being agile and responsive, offering rapid supply support and practical consulting that aligns with each mine's operational realities.

Mission and Vision

➔ Mission

To empower mining operations with dependable supply, professional management support, and specialised mining expertise that improve safety, productivity, and sustainability across the mining lifecycle.

➔ Vision

To become Southern Africa's most trusted mining solutions partner, recognised for exceptional service, technical reliability, and a commitment to responsible mining practices.

Our Values

Integrity

Every decision is guided by transparency and ethical practice.

Safety First

We prioritise compliance, worker safety, and environment-conscious processes.

Operational Excellence

We strive to reduce downtime, optimise productivity, and maximise the lifespan of mining assets.

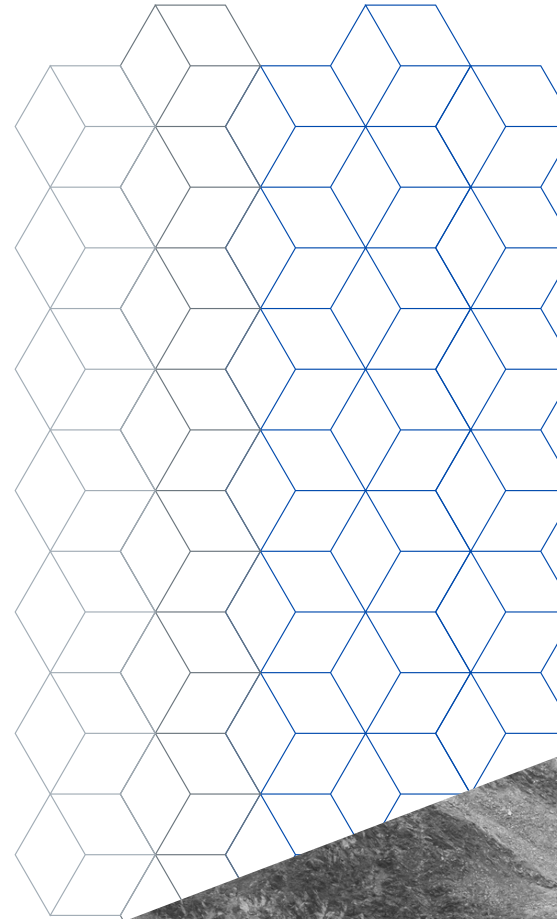

Sustainability

We support long-term environmental recovery through structured rehabilitation programs.

Client Partnership

We work not as a supplier, but as an extension of your mining team.

Core Services

MINING & MORE | PAGE 7

Mining Equipment Supply

Each product is sourced from reputable manufacturers and vetted for durability, safety, and performance under tough mining conditions.

Accessories, Hardware, and Spares

Our fast-turnaround supply model reduces downtime and maintains uninterrupted operations.

Mine Management Solutions

Our management solutions are rooted in efficiency, safety, and measurable productivity outcomes.

Mining Consulting

Our consulting approach ensures that mines operate with clarity, strategy, and measurable performance improvement.

Mine Rehabilitation

We work closely with environmental specialists, engineers, and government frameworks to ensure post-mining land recovery aligns with regulatory requirements.

Markets We Serve

Mining & More provides solutions to:

- ➔ Open cast mining operations
- ➔ Shaft and underground mining operations
- ➔ Mineral processing plants
- ➔ Construction and engineering firms
- ➔ Mining contractors
- ➔ Government entities and rehabilitation programmes
- ➔ Junior miners and new entrants

Why Clients Choose Us

Reliability

We provide consistent supply and dependable service, ensuring operations continue without disruptions.

Technical Expertise

Our team understands mining operations, processes, and regulatory requirements.

Strong Supplier Network

We partner with trusted manufacturers and distribution channels across Southern Africa.

Safety and Compliance Focus

Every solution we provide meets industry and environmental standards.

Scalable Support

Whether you're a junior mine or a large operation, we tailor solutions to your needs.

End-to-End Convenience

From equipment supply to consulting and rehabilitation, we offer a complete mining support ecosystem.

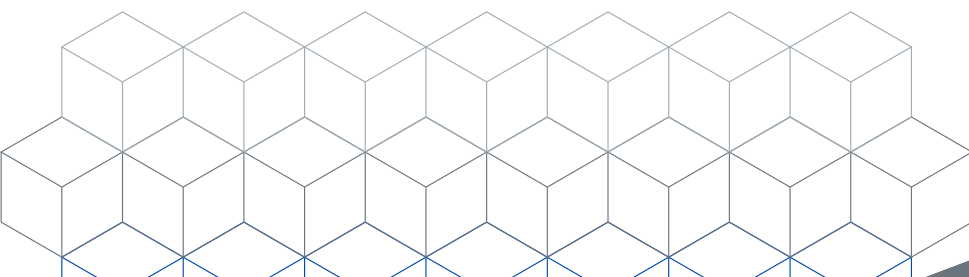

Future Growth Strategy

Mining & More aims to expand into:

- Local manufacturing and fabrication of selected mining components
- Long-term maintenance and repair contracts
- Larger scale environmental rehabilitation partnerships
- Digitalisation of mine management workflows
- Regional expansion into SADC mining territories

Our long-term strategy focuses on innovation, smarter supply chains, and building a safer, more sustainable African mining environment.

Mining & More is more than a supplier. We are a strategic mining partner focused on reliability, sustainability, and excellence. Our commitment to service, safety, and long-term partnerships positions us as a trusted solutions provider for mines throughout Southern Africa.
