# **INTRODUCTION**

Welcome to "Addition and Subtraction Word Problem Adventures for 2nd Graders." This book is an exciting journey into the world of mathematics through captivating word problems. For young learners, solving word problems isn't just about numbers; it's about real-life adventures that involve addition and subtraction

In these pages, your child will explore relatable scenarios, from counting apples to helping friends share toys. Through these adventures, young minds will develop crucial math skills while honing problem-solving abilities.

Each adventure is carefully designed to be age-appropriate and engaging, fostering a lifelong love for math. Let's embark on these math adventures and make learning addition and subtraction a thrilling and educational experience for our young mathematicians!

Let's begin our mathematical journey together!

# **TABLE OF CONTENT**

|                     |         |
|---------------------|---------|
| 1. Addition.....    | 4 – 14  |
| 2. Subtraction..... | 15 – 25 |
| 3. Solution.....    | 26      |

# ADDITION

# Addition **WORKSHEET**

Date.....

1. Pettar has 17 toy cars, and his friend Emma has 9 toy cars. How many toy cars do they have in total?
2. For her birthday, eva had 16 chocolate cupcakes and 8 vanilla cupcake. How many cupcakes did she have in total?
3. At the fair, there are 11 green balloons and 9 purple balloons. How many balloons are there in total?
4. In the parking lot, there are 12 yellow school buses and 8 white school buses. How many school buses are there in total?
5. At snack time, Jesica had 14 grapes, and her friend Max had 13 strawberries. How many fruits did they eat in total?

# Addition **WORKSHEET**

Date.....

6. At Carry`s birthday party, there were 14 red balloons and 11 blue balloons. How many balloons were at the party in total?
  
  
  
  
  
  
  
  
  
  
7. Katty has 25 colored pencils, and her classmate Alex has 13 marker. How many school supplies do they have in total?
  
  
  
  
  
  
  
  
  
  
8. In the petting zoo, they saw 16 rabbits and 12 guinea pigs.  
How many animals did they see in total?
  
  
  
  
  
  
  
  
  
  
9. In the aquarium, there are 28 colorful fish and 15 friendly dolphins. How many ocean creatures are there in total?
  
  
  
  
  
  
  
  
  
  
10. At the picnic, there are 14 ham sandwiches and 27 turkey sandwiches. How many sandwiches are there in total?

# Addition **WORKSHEET**

Date.....

11. Emily had 33 scoops of chocolate ice cream, and her friend Josh had 22 scoops of vanilla ice cream at an ice cream party. How many scoops of ice cream were eaten in total?
  
  
  
  
  
  
  
  
  
  
12. Sarah made 34 baskets, and her friend Jack made 12 baskets during their basketball practice. How many baskets did they make in total?
  
  
  
  
  
  
  
  
  
  
13. Mira has 26 marbles, and her friend Tom has 9 marbles. How many marbles do they have in total?
  
  
  
  
  
  
  
  
  
  
14. The football team scored 35 touchdowns in the first quarter and 13 touchdowns in the second quarter of their practice game. How many touchdowns did they score in total during practice?
  
  
  
  
  
  
  
  
  
  
15. In a football game, Team Blue scored 44 touchdowns, and Team Red scored 12 touchdowns. How many touchdowns were scored in total during the game?

# Addition **WORKSHEET**

Date.....

16. Leede and his friends are playing Cricket at the park. Leede score 53 runs, and his friend Max scores 22 runs. How many runs did they score together?
  
17. The school's basketball team had a game last week. In the first quarter, they scored 18 points, and in the second quarter, they scored 16 points. How many points did they score in total for both quarters?
  
18. The baseball team is playing a game. In the first inning, they scored 24 runs, and in the second inning, they scored 23 runs. How many runs did they score in total for both innings?
  
19. Timmy scored 14 goals in soccer practice yesterday, and his friend Lily scored 12 goals. How many goals did they score together??
  
20. In a soccer tournament, Team A scored 12 goals, Team B scored 9 goals, and Team C scored 6 goals. How many goals were scored in total during the tournament?

# Addition **WORKSHEET**

Date.....

21. In the garden, there are 45 red flowers and 26 yellow flower.  
How many flowers are there in total?
22. Lisa has 43 blue marbles, and Tima has 17 red marbles.  
How many marbles do they have in total?
23. On the farm, there are 24 cows and 19 pigs. How many farm animals are there in total?
24. At the fruit stand, Barresi bought 38 apples and 17 oranges.  
How many fruits did he buy in total?
25. Riky has 46 red building blocks, and Lily has 18 blue building blocks.  
How many building blocks do they have in total?

# Addition **WORKSHEET**

Date.....

26. In the past month, there were 12 sunny days and 17 cloudy days.  
How many days were there in total?
27. At the pet shop, they saw 36 cute puppies and 22 playful kitten.  
How many animals did they see in total?
28. At the ice cream parlor, Sarah ordered a cone with 27 scoops of chocolate and 16 scoops of vanilla. How many scoops of ice cream did she get in total?
29. Smith has 53 storybooks, and her friend Ben has 16 coloring books. How many books do they have in total?
30. At the zoo, they saw 32 lions and 18 zebras. How many animals did they see in total?

# Addition **WORKSHEET**

Date.....

31. Hasfy went to the toy store and bought a toy car for \$28 and a doll for \$24.  
How much money did she spend in total?
32. Jacob went to the candy store and bought few lollipop for 40\$ and some gum for 15\$.  
How much money did he spend in total?
33. Taibu had \$64 in his piggy bank, and he received \$19 as his weekly allowance.  
How much money does Taibu have in his piggy bank now?
34. Eshita had \$43 in her piggy bank. She found \$27 under her bed.  
How much money does she have in her piggy bank now?
35. Kelis received \$52 as his weekly allowance. His mom gave him an extra \$24 for helping with chores. How much money did he earn in total?

# Addition **WORKSHEET**

Date.....

36. At the ice cream parlor, Jesia ordered an ice cream cone for \$47 and a popsicle for \$25.  
How much money did she spend in total?
37. At the fruit stand, Liam bought apples for \$18 and bananas for \$37.  
How much money did he spend on fruit in total?
38. At her lemonade stand, Eruta earned \$63. Her neighbor Jake bought a glass of lemonade for \$8.  
How much money did she earn in total?
39. David earned \$33 for cleaning his room and \$39 for taking out the trash.  
How much money did he earn from doing chores?
40. Mular spent \$22 on a birthday cake and \$13 on decorations for his party.  
How much money did he spend on his birthday party?

# Addition **WORKSHEET**

Date.....

41. At a fruit stand, there were 19 juicy apples and 27 ripe oranges.  
How many pieces of fruit were there in total at the fruit stand?
42. Glenn picked 28 red apples and 36 green apples in the orchard.  
How many apples did he collect in total?
43. In the garden, they harvested 15 juicy tomatoes and 30 fresh cucumbers.  
How many vegetables did they harvest in total?
44. Latham has 24 apples, and his friend Jake gave him 13 oranges. How many fruits does Latham have in his basket now?
45. For a fruit salad, Lily needed 17 strawberries and 9 kiwis.  
How many pieces of fruit did she use in the salad?

# Addition **WORKSHEET**

Date.....

46. At the farm market, there were 29 plump peaches and 15 shiny cherries.  
How many pieces of fruit were available at the market?
47. For a picnic, Emily packed 34 crisp apples and 16 refreshing grapes.  
How many pieces of fruit did she bring for the picnic?
48. Max needed 28 ripe strawberries and 20 ripe bananas to make fruit smoothies.  
How many pieces of fruit were used for the smoothies?
49. Stokes had 25 bananas and 14 juicy pears in her fruit basket.  
How many pieces of fruit does she have in total?
50. In the orchard, there were 37 ripe peaches and 24 ripe pears on the tree.  
How many pieces of fruit were on the tree?

A decorative border made of black lines, featuring stylized leaves and small circles at the corners, framing the central text.

# **SUBTRACTION**

# Subtraction **WORKSHEET**

Date.....

1. Liya had 18 sunflowers, and she gave 7 to her friend. How many sunflowers does she have now?
  
  
  
  
  
  
  
  
  
  
2. At the vegetable garden, Ben had 19 carrot seeds. He planted 6 of them.  
How many carrot seeds does he have left?
  
  
  
  
  
  
  
  
  
  
3. Hales had 22 butterflies in his butterfly garden. He let 9 of them go.  
How many butterflies are still in the garden?
  
  
  
  
  
  
  
  
  
  
4. Evan had 14 roses in his garden. He watered 8 of them. How many roses are waiting for a drink?
  
  
  
  
  
  
  
  
  
  
5. Mathuw had 28 tomato plants in the garden. He planted 16 of them.  
How many tomato plants are still in the garden?

# Subtraction **WORKSHEET**

Date.....

6. Ruby had 18 beautiful flowers in her garden. She picked 5 of them to make a bouquet.  
How many flowers are left in her garden?
  
  
  
  
  
  
  
  
  
  
7. Mina had 23 flower seeds, and she planted 14 of them.  
How many flower seeds does she have left?
  
  
  
  
  
  
  
  
  
  
8. Beek had 32 flowers in his garden, and he gave 15 of them water.  
How many flowers are still thirsty?
  
  
  
  
  
  
  
  
  
  
9. Tany had 19 apples on her apple tree. She picked 12 of them.  
How many apples are left on the tree?
  
  
  
  
  
  
  
  
  
  
10. Alex had 25 weeds in his garden. He pulled out 8 of them. How many weeds are still there?

# Subtraction **WORKSHEET**

Date.....

11. Urvi collected 14 seashells at the beach, and she gave 9 of them to her friend.  
How many seashells does Sarah have left from her beach vacation?
  
  
  
  
  
  
  
  
  
  
12. Jason had 23 ice cream cones during his summer break. He ate 16 of them.  
How many ice cream cones does he have left?
  
  
  
  
  
  
  
  
  
  
13. Estya had 28 sun hats for her beach trip. She gave 13 of them to her friends.  
How many sun hats does she have left?
  
  
  
  
  
  
  
  
  
  
14. At the seashore, Safia found 24 seashells. She decided to keep 15 of them and gave the rest to her cousin. How many seashells did she give to her cousin?
  
  
  
  
  
  
  
  
  
  
15. Temba attended a summer camp for 20 days. He has already spent 14 days there.  
How many days of summer camp are left for Timmy?

# Subtraction **WORKSHEET**

Date.....

16. At the pool, Lily brought 30 sunscreen bottles. She used 23 of them. How many sunscreen bottles does she have left?
  
  
  
  
  
  
  
  
  
  
17. Masuf saw 28 seagulls at the beach. He threw a snack, and 22 seagulls came to eat. How many seagulls flew away?
  
  
  
  
  
  
  
  
  
  
18. Anthy had 31 summer reading books. She read 16 of them. How many books does she have left to read?
  
  
  
  
  
  
  
  
  
  
19. Nesam had 26 slices of watermelon at the picnic. He ate 15 slices. How many watermelon slices are left for everyone to enjoy?
  
  
  
  
  
  
  
  
  
  
20. Sunera had 32 pairs of flip-flops at the pool. She used 18 pairs for her pool party. How many pairs of flip-flops does she have left for her next pool party?

# Subtraction **WORKSHEET**

Date.....

21. At the art store, Tommy had \$26, and he spent \$12 on art supplies.  
How much money does he have left?
22. Harry had \$37, and he spent \$14 on a chocolate bar. How much money does he have left?
23. Sofia had \$35 for lunch, and she spent \$18. How much money does she have left for lunch?
24. Milar had \$30, and he bought a rare coin for \$16. How much money does he have left?
25. Emmy had \$16, and she spent \$8 on a gift for her mom. How much money does she have left?

# Subtraction **WORKSHEET**

Date.....

26. Jack had \$21, and he spent \$7 on new books. How much money does he have left?

27. At the bakery, Roy had \$40, and he bought cookies for \$23.  
How much money does he have left?

28. At the picnic, they had 35 sandwiches and 17 bags of chips.  
How many picnic treats did they have in total?

29. Stokes had \$29 in his piggy bank. He decided to save \$14.  
How much money is left in his piggy bank?

30. At the bakery, Toya had \$30, and she bought cookies for \$14.  
How much money does she have left?

# Subtraction **WORKSHEET**

Date.....

31. In the birdhouse, there were 14 nests. 8 nests are now empty.  
How many nests still have birds in them?
32. At the garden, Zefary heard 20 chirping sparrows. Then, 16 of them flew away.  
How many sparrows are still singing?
33. Maxwell saw a peacock with 30 feathers. 12 feathers fell to the ground.  
How many feathers are still on the peacock?
34. Bravo has 24 parrot feathers with different colors. He gave 16 feathers to his cousin.  
How many parrot feathers does he have left?
35. Samuel watched 33 hummingbirds in the garden. 19 hummingbirds went to a different garden.  
How many hummingbirds are still in the garden?

# Subtraction **WORKSHEET**

Date.....

36. Suyat saw 45 colorful birds in the park. She watched 29 of them fly away.  
How many colorful birds are still in the park?
37. Elga found 42 eggs in a bird's nest. She took 25 eggs home.  
How many eggs are left in the nest?
38. At the park, Touky saw 50 birds. Then, 28 of the birds flew away.  
How many birds are still at the park?
39. Zeba brought 35 pieces of bread to feed the ducks at the pond. She fed 16 pieces to the ducks.  
How many pieces of bread does she have left?
40. Henry collected 48 colorful feathers from different birds. He gave 27 feathers to his friend.  
How many feathers does he have left?

# Subtraction **WORKSHEET**

Date.....

41. Lisa had had 48 ripe bananas, and she gave 33 of them to her friend.  
How many ripe bananas does Sarah have left?
42. Emma picked 60 apples at the orchard. He ate 44 of them.  
How many apples does he have left?
43. Jack had 55 juicy oranges, and he shared 38 of them with his friends.  
How many juicy oranges does he have left?
44. For a fruit salad, Nora needed 39 strawberries, but she only had 25.  
How many more strawberries does she need?
45. At the mango tree, there were 34 ripe mangoes. A storm blew away 16 of them.  
How many ripe mangoes are still on the tree?

# Subtraction **WORKSHEET**

Date.....

46. Emily had 21 apples in her basket. She gave 13 of them to her little brother.  
How many apples are left in her basket?
47. Manju prepared a fruit platter with 30 slices of pineapple and 18 slices of melon.  
How many slices of fruit are on the platter?
48. For a fruit smoothie, Suyab needed 36 strawberries and 14 kiwis.  
How many pieces of fruit are needed in total for the smoothie?
49. Hamilton found 28 ripe lemons on the lemon tree. He picked 19 of them.  
How many ripe lemons are still hanging on the tree?
50. Malan collected 36 bunches of grapes. He gave 27 bunches to his neighbor.  
How many bunches of grapes does Jack have left?
