# Partnering with Science to **Deliver** **Global Excellence**

At Crestline Chem International LLP, we connect the world's finest chemical ingredient manufacturers with businesses that demand uncompromising quality and reliability. As your global partner in chemical and specialty ingredient sourcing, we provide the essential bridge between innovation and implementation. Our comprehensive suite of services ensures that your supply chain operates seamlessly across borders, cultures, and regulatory environments, delivering the ingredients you need when you need them.

## 20+

**Years Industry  
Experience**

Established expertise in  
chemical sourcing and  
distribution

## 50+

**Global Suppliers**

Extensive network across  
five continents

## 1000+

**Ingredients**

Comprehensive product  
portfolio

## 30+

**Countries Served**

Truly global reach and  
presence

## 900+

**Projects Completed**

Proven track record of  
success

## 2500+

**Satisfied Clients**

Trusted by industry leaders  
worldwide

# Core Service Capabilities

## Global Ingredient Sourcing

Access the world's premier manufacturers and identify optimal sources for your specific requirements

## Quality Driven Distribution

Comprehensive quality control protocols ensure ingredients meet exact specifications and regulatory standards

## Regulatory Support

Complete technical documentation, compliance verification, and regulatory guidance for international trade

## Supply Chain Management

Customized logistics solutions, inventory management, and supply chain optimization

## Reliable Supply Solutions

Consistent, uninterrupted supply through diversified sourcing and strategic inventory placement

# Industries We Serve

Our expertise spans multiple sectors, providing tailored solutions that address the unique challenges of each industry. From pharmaceutical development to cosmetic formulation, we deliver the ingredients that power innovation.

**Nutraceutical**

**Cosmetics**

**Bakery**

**Beverage**

**Confectionery**

**Dairy**

**Savory**

# Comprehensive Product Portfolio

Our extensive catalog encompasses thousands of premium chemical and specialty ingredients, sourced from the world's leading manufacturers and rigorously tested to ensure consistent quality.

## APIs & Specialty Chemicals

---

Active pharmaceutical ingredients, intermediates, and specialty compounds for pharmaceutical applications

## Nutraceutical Ingredients

---

Vitamins, minerals, amino acids, botanical extracts, and functional ingredients for health products

## Functional Food Ingredients

---

Emulsifiers, stabilizers, thickeners, and specialty additives for food processing applications

## Cosmetic Raw Materials

---

Emollients, emulsifiers, preservatives, pigments, and specialty ingredients for personal care formulations

## Additives & Excipients

---

Processing aids, solvents, and formulation components for diverse industrial applications
