Engineering for People
Welcome to Satilla

The 1st board
game series in
Humanitarian
Engineering!

Satilla is a perfect holiday destination but it is flood prone. Prospective and alumni RMIT Students meet with Community Members to discuss local priority needs and potential solutions. Your goal is to help Satilla.

How to play:

1 min – *Pick a card at random and act like the character you choose.*

5 mins – *Discuss in an inclusive manner to reach your goal.*

**After the game,
answer these questions:**

- How would you describe the overall experience?
- Which characters were most valuable to the goal and why?
- Would you like to play the full game in class?

Engineering for People
Welcome to Satilla

We have no toilets, no water, and no electricity near the beach

The ocean brings so much trash to our village. It's so annoying!

I know where a treasure is buried!
Help me fix my boat and I will tell you

fisher

An illustration of an elderly woman with short grey hair, wearing a wide-brimmed straw hat, a blue long-sleeved shirt, and green overalls. She is smiling and holding a basket of fresh produce, including pumpkins and carrots. The background shows a rural landscape with green fields and a blue sky. In the top right corner, there is a circular badge that says 'MINI EDITION' and a text overlay that reads 'WITH Engineering for People Welcome to Satilla'.

Welcome to Satilla

I bought 3 cattle last year.
They all drowned in floodwater

We should do something about
our drinking water. It's so dirty!

I know which areas flood first.
Let me show you

farmer

Engineering for People
Welcome to Satilla

My shop flooded last year...
I lost everything!

I miss my children. They moved
to the city to find better jobs

I am old but can still work.
Tell me what to repair

retired
mechanic

An illustration of a young man with glasses and a young woman with long brown hair sitting in a wheelchair. They are both smiling and looking at each other. The background shows a building with blue doors and windows, and some greenery. In the top right corner, there is a circular logo that says 'MINI EDITION' and a banner that says 'WITH Engineering for People Welcome to Satilla'.

First year engineering students at RMIT may receive up to \$40,000 to work with communities like Satilla

They also work with humanitarian NGOs to make real change! That's why I chose to study here!

I've heard that they play board games in class. Is that true?

prospective
students

An illustration of a woman with dark curly hair, wearing a yellow hard hat and a blue safety vest over a teal shirt. She is smiling and looking towards the viewer. The background shows a construction site with buildings under construction, a crane, and power lines. In the top right corner, there is a circular logo that says 'MINI EDITION' and a banner that reads 'WITH Engineering for People Welcome to Satilla'.

Welcome to Satilla

I studied environmental engineering at RMIT and graduated top of my class.

Now, I have my own business and support women who want to study STEM!

I can help with humanitarian challenges and link you with industries
