

NorthernClarity Digital Product Setup Guide

Thank you for your purchase!

Thank you for supporting NorthernClarity. This guide will help you access, download, and use your digital products. Please read through this guide before contacting support.

1. After Your Purchase

After checkout you will receive an order confirmation and a download link. The download link is available for 24 hours, so we recommend downloading your files as soon as possible and saving them to your device or cloud storage.

2. How to Download

Desktop: Click the download button and save the file to your Downloads folder or preferred location.

iPhone/iPad: Tap the download link, choose Download, then locate the file in the Files app or Downloads folder.

Android: Tap the download link and open the Downloads folder using your Files app.

Cloud Storage: Save a backup to iCloud Drive, Google Drive, OneDrive, or Dropbox for easy access.

3. Opening Your Files

Most products are delivered as PDF files. Open them with Adobe Acrobat Reader, Apple Books, Preview (Mac), Microsoft Edge, or another PDF reader.

4. Printing

For best results, print at 100% scale (Actual Size). Use high-quality paper if desired. You may also use the products digitally if preferred.

5. Using Digitally

Many customers annotate PDFs using apps such as Goodnotes, Notability, Noteshelf, Xodo, or Adobe Acrobat. A tablet with a stylus offers the best experience, but any PDF annotation app will work.

6. Download Link Expires After 24 Hours

Your download link is available for 24 hours after purchase. Download your files immediately and keep a backup. If you experience technical issues within that period, contact support with your order information.

7. Troubleshooting

- Link won't open: Try another browser or device.
- File won't download: Check your internet connection and available storage.
- PDF won't open: Install or update a PDF reader.
- Can't find the file: Check your Downloads folder or search by filename.
