- RAP (RESTful ABAP Programming Model)
- ODATA Services & API Enablement
- SAP FIORI & SAPUI5 Applications

- SAP Business Technology Platform (BTP)
- Workflow & Process Automation
- FIORI Launchpad Enhancements
- SAP Integration & API Services

## SAP Delivery Model

GreenX follows a flexible and efficient SAP delivery model designed to support both enterprise customers and SAP consulting partners.

### 1. Offshore Delivery Model

Dedicated remote SAP technical teams delivering cost-effective and high-quality development and support services.

### 2. Project-Based Delivery

End-to-end ownership of SAP technical work packages with defined timelines, milestones, and quality controls.

### 3. Dedicated Technical Support Model

Long-term SAP support model for ongoing enhancements, production support, incident resolution, and optimization.

### 4. Partner Enablement Model

Supporting SAP consulting firms with specialized SAP technical expertise for project overflow and niche technical requirements.

## SAP Technical Staffing Model

GreenX Solutions provides flexible SAP technical staffing and augmentation services.

- Senior SAP ABAP Consultants
- SAP FIORI/UI5 Developers
- SAP Workflow Experts
- SAP BTP Developers
- CDS & RAP Technical Specialists
- SAP Technical Architects
- Short-Term and Long-Term Resource Engagements
- Full-Time / Part-Time / Project-Based Staffing

Our staffing model enables customers and SAP partners to quickly scale technical teams based on project demand.

## Industries Served

GreenX Solutions has experience supporting organizations across:

- Manufacturing
- Utilities
- Public Sector
- Chemical Industry
- Government Organizations

## Why Choose GreenX Solutions

- Specialized focus on SAP technical development and modernization
- Strong expertise in S/4HANA and new SAP technologies
- Senior-level technical consultants with extensive project experience
- Fast turnaround and time-sensitive delivery capability
- Flexible delivery and engagement models
- Long-term support commitment
- High-quality, scalable, and maintainable SAP solutions

## Our Vision

To become a trusted global SAP technical engineering partner delivering innovative, scalable, and future-ready SAP technology solutions.

## Technology Expertise Matrix

Technology Area	Capabilities
SAP ABAP	Reports, Enhancements, Interfaces, Forms, OOABAP
SAP S/4HANA	Custom Code Adaptation, Modernization, Optimization
CDS & RAP	Advanced Data Models & RESTful Application Development
SAP FIORI/UI5	Responsive Apps, Launchpad Extensions, UI Enhancements
SAP Workflow	Business Process Automation & Approvals
SAP BTP	Cloud Extensions, Integration & APIs
