## KATA PENGANTAR

Puji syukur ke hadirat **Allah SWT** atas rahmat dan karunia-Nya naskah ini dapat disusun dan dihadirkan sebagai bagian dari ikhtiar akademik untuk memahami dan merespons kebutuhan mata kuliah “**Analisis Problematika Pendidikan Ekonomi**”. Buku ajar ini disusun dengan kesadaran penuh bahwa pendidikan ekonomi memiliki peran strategis dalam membentuk cara pandang, pola pikir, dan sikap generasi muda dalam menghadapi realitas ekonomi yang terus berubah. Di tengah dinamika globalisasi, transformasi digital, serta kompleksitas persoalan ekonomi nasional, pendidikan ekonomi dituntut untuk tidak hanya mengajarkan konsep dan teori, tetapi juga menumbuhkan kepekaan, nalar kritis, dan tanggung jawab sosial yang selaras kearifan bangsa yang berlandaskan pada Pancasila.

Naskah ini lahir dari kepedulian terhadap praktik pendidikan ekonomi yang menghadapi berbagai tantangan, mulai dari kesenjangan antara kurikulum dan implementasi, keterbatasan kompetensi pendidik, hingga keterkaitan antara pembelajaran ekonomi dan realitas kehidupan masyarakat. Permasalahan tersebut tidak dimaksudkan untuk dipandang sebagai kelemahan semata, melainkan sebagai ruang refleksi dan peluang perbaikan bersama. Dengan pendekatan reflektif, buku ajar ini berupaya menghadirkan pembahasan yang tidak menghakimi, tetapi mengajak pembaca untuk memahami persoalan secara utuh dan kontekstual.

Penyusunan buku ajar ini juga didasari keyakinan bahwa pendidikan ekonomi yang bermakna harus berangkat dari realitas sosial dan lingkungan. Oleh karena itu, buku ini mengaitkannya dengan konteks pendidikan ekonomi di Indonesia serta pembelajaran dari berbagai praktik di beberapa negara selaras dengan kebutuhan mahasiswa, pendidik, peneliti, dan pemerhati pendidikan ekonomi yang memiliki perhatian terhadap peningkatan kualitas pembelajaran. Bahasa yang digunakan diupayakan tetap akademik, namun disajikan secara sederhana dan komunikatif agar mudah dipahami oleh berbagai kalangan. Penulis menyadari bahwa naskah ini masih memiliki keterbatasan, baik dari sisi kedalaman kajian maupun keluasan perspektif. Oleh karena itu, kritik, saran, dan masukan yang konstruktif sangat diharapkan sebagai bagian dari proses pembelajaran dan pengembangan keilmuan yang berkelanjutan.

Akhir kata, semoga buku ini dapat memberikan manfaat dan menjadi salah satu referensi yang mendorong dialog, refleksi, serta aksi nyata dalam pengembangan pendidikan ekonomi yang lebih manusiawi, relevan, dan berdaya guna. Semoga upaya kecil ini dapat berkontribusi dalam membangun pendidikan ekonomi yang tidak hanya mencerdaskan, tetapi juga membentuk insan yang beretika, peduli, dan siap menghadapi tantangan masa depan.
