French Knot

1. Jar: Back Stitch
2. Stems: Stem Stitch
3. Leaves: Long & Short Stitch
4. Flowers Sepals & Petals: Satin Stitch
5. Flower Centers: Split Stitch
6. Flower Pollens: Chain Stitch
7. Decorative Details: French Knot

Transferring Pattern

Water-soluble stabilizer

Print the pattern on the A4 water-soluble stabilizer sheet. Carefully cut the pattern from the sheet, leaving about ½ inch of margin around the edges.

Peel off the backing paper and carefully adhere the pattern to the hooped fabric, smoothing out any wrinkles or air bubbles.

Once the pattern is secured, embroider as usual.

After completing the embroidery, carefully cut away any excess stabilizer, leaving a small margin around the stitched design.

Once the embroidery is complete, soak and gently hand-wash the fabric to dissolve any remaining stabilizer.

Lay the fabric flat to air dry. Once dry, iron on the appropriate setting for your fabric if needed.
