EN

Choose a suitable FX cable for your actuator. The 16 pin male connector plugs into the 16 pin female connector fixed on the machine. And the swivel lock on the male connector should be turned clockwise to lock the female connector. Lastly press the green button next to the connector and test process will begin.

TR

Aktüatörünüz için uygun bir FX kablosu seçin. 16 pimli erkek konektör, makineye sabitlenmiş 16 pimli dişi konektöre takılır. Erkek konektördeki döner kilit ile, dişi konektörü kilitlemek için saat yönünde döndürülmelidir. Son olarak konektörün yanındaki yeşil butona basılarak test işlemi başlatılır.
