ABOUT ME

I am **Dr. Krishna Mohan Chenthati**, an accomplished Neurosurgeon with over 8 years of experience in brain and spine surgery. Trained at premier institutions in India and internationally, including a fellowship in Cerebrovascular and Skull Base Surgery at Fujita Health University, Japan, I bring extensive expertise in managing complex neurosurgical cases. I have assisted in more than 5000+ procedures and independently perform a wide range of neurosurgical operations.

Alongside my clinical practice at KIMS, Nellore, I have contributed to the academic and research community through publications in peer-reviewed journals and presentations at national and international conferences. I have also conducted workshops, trained young neurosurgeons, and actively participated in professional societies including APNSA, NSI, and SBSSI.

I am passionate about advancing neurosurgical care with precision, compassion, and continuous learning, while maintaining strong communication skills in English, Telugu, and Hindi to effectively connect with patients and colleagues alike and I'm Google 5 star Rated From Patients.
