About Us

GK OUD is a specialized trading and sourcing company connecting trusted agarwood and oud suppliers from Asia with elite clients across the Middle East and around the world.

Headquartered in Hong Kong and operating from the Middle East, we act as a bridge between origin and demand — ensuring authentic, consistent, and traceable oud materials reach clients who value quality and reliability.

Our network extends across **Vietnam, China, India (Assam, Nagaland, Tripura)**, and **Sri Lanka**, with carefully selected partners known for their integrity, long-term stability, and respect for sustainable practices.

We combine a deep understanding of the oud industry with a modern, professional approach to international trade — delivering value through transparency, expertise, and trust.

Mission & Vision

Mission

Our mission is to build strong and lasting partnerships across the entire oud and agarwood value chain. We work with producers, distributors, and brands that share our standards of quality, responsibility, and respect for the product.

Whether for luxury perfumeries, wholesalers, or other specialized partners, our focus is on delivering authentic materials, ensuring reliability, and protecting the trust of everyone involved.

Vision

To become a global reference in responsible oud sourcing — combining tradition, innovation, and sustainable partnerships.

Our goal is to strengthen the supply chain by creating transparent and efficient links between Asia's most reliable producers and international buyers, supporting long-term growth built on integrity and performance.

Expertise & Network

Strategic Sourcing

GK OUD collaborates directly with leading factories and plantations that demonstrate proven reliability in production and quality control.

We prioritize partners capable of ensuring stable batches, consistent grades, and clear traceability over time.

Regional Operations

Operating from the Middle East, we manage all aspects of sourcing and distribution — including communication with buyers, product sampling, compliance with SFDA/SASO/CITES requirements, and coordination of shipments from origin to destination.

Client Support

We provide tailored assistance to clients and suppliers alike — offering product advice, logistics coordination, and quality verification to ensure smooth, long-term cooperation.
