Thank you for inquiring about my consulting services. I look forward to seeing how we might work effectively and enjoyably together.

Consulteaching Model

I am a teacher by both nature and experience. I love sharing knowledge, skills, and insights, encouraging learning, and partnering with independently motivated learners willing to try out new ideas. I also like to mentor mentors, especially in working deeply at the edge of psyche, story, and system. I work individually and with groups.

I work toward making change through education, mastery, dialogue, wisdom, story, and reenchantment through practical dreaming together. Insights need embodying in action. My constant question is: What kind of difference can all this make?

Personal Dimension

Clients vary widely in how much emotional/process encouragement they desire. I will accompany you through whatever difficult transition you face, with the understanding that I no longer do psychotherapy. My emphasis is on what you need to explore, learn, create, realize, strategize, and apply.

Fees

- Hourly consulting: \$210/hour individuals, \$255/hour organizations.
- Presentation: \$800 plus any travel and lodging.
- One-day workshop: \$1,700 plus any travel and lodging.
- Project, retainer, and student rates available.

Thanks so much for considering my assistance with your important work.
