 ***“Africa Will Not Forget: A Message to BRICS and the New World Equation”***

***By J.C. Engonga™ | World War News TV™***

***Filed under: The World War Against Corruption™***

---

***I. INTRODUCTION: THIS IS NOT AN INVITATION. THIS IS A WARNING.***

***To the nations of BRICS—Russia, China, India, Brazil—and your satellite allies:***

***Africa is no longer your playground.***

***We know your patterns. We have studied your strategies. We have decoded your deals, your development pacts, your “non-interference” diplomacy cloaked in economic pressure. You have replaced the whip with the memorandum, the colonial governor with the consultant, the missionary with the tech investor.***

***This message is not written for negotiation. It is written as pre-declaration.***

***Africa will not forgive those who exploit her again.***

***And there will be no place for the enemies of African sovereignty in the construction of her future.***

## ***II. OUR MEMORY IS NOW A WEAPON***

*You hoped we would forget.*

*You hoped that Africa would see you as saviors, not as new imperialists with different accents.*

*But we remember:*

- *How African resources were exchanged for debt traps.*
- *How our institutions were co-opted by “developmental partners.”*
- *How our people were surveilled under your infrastructures.*
- *How you praised our independence while sponsoring dependency.*

*You played both sides of our war zones. Sold us weapons and peacekeepers. Installed satellites and surveillance in the name of "security." You admired our culture, but devoured our raw materials.*

*That era ends now.*

## ***III. A UNIFIED AFRICA IS NOT A REQUEST. IT IS A REALITY.***

*A new Africa is rising. Not in secret, not in theory—but in strategy, law, and voice.*

- *An Africa that will no longer beg for investment—but builds its own ecosystems.*
- *An Africa that speaks with one voice, protects one vision, and walks one agenda.*
- *An Africa that does not measure friendship in trade volumes—but in sovereign respect.*

*From Malabo to Lagos, from Addis to Cape Town—our alignment is internal. We will not be divided by currency swaps or rare earth bids.*

#### ***IV. ALLIANCE IS NOT EQUAL TO ACCESS***

*Let this be clear to your embassies, your diplomats, your corporations:*

*Partnership does not mean permission.*

*If your presence in Africa continues to reflect extraction over equity, dominance over dialogue, or coercion masked as cooperation—you will be expelled.*

*Economically. Politically. Digitally. Narratively.*

*We no longer accept apologies.*

*We demand architecture.*

*You will not write our future contracts.*

*You will not govern our standards.*

*You will not supervise our sovereignty.*

#### ***V. AFRICA IS THE NEW CENTER***

*Whether the West collapses or the BRICS ascend, Africa remains the single pivot point for the planet's next civilization phase. Why?*

- *Resources that feed every green revolution.*
- *Demographics that shape every future labor market.*
- *Geography that anchors military and economic corridors.*
- *History that will not be erased again.*

*We are not a market. We are not a bloc.*

*We are the continental conscience of the 21st century.*

*And from now on, we decide who stays, who partners, and who goes.*

## ***VI. WE OFFER TERMS, NOT REQUESTS***

***To BRICS and aligned nations:***

***We offer conditional partnership, not open access. The conditions are simple:***

- 1. Full transparency of every bilateral agreement.***
- 2. Non-negotiable localization of technology, knowledge, and capital.***
- 3. Cultural and narrative autonomy.***
- 4. Absolute respect for African security parameters.***
- 5. Recognition of Africa's voice in every global decision that touches our land.***

***Failure to meet these terms is not a diplomatic error—it is a declaration of adversarial intent.***

## ***VII. CLOSING: DO NOT MISTAKE OUR PATIENCE FOR PERMISSION***

*Africa is not what it was.*

*We have lawyers, architects, coders, narrators, strategists.*

*We are building satellites, governing cyberspace, drafting constitutions for the unborn.*

*Our youth is not distracted—they are uploading memory into systems.*

*This is your final chapter to choose sides:*

*Either become allies of African sovereignty,*

*Or be remembered as new faces of an old enemy.*

*We don't ask for space in your future.*

*We build ours.*

*And if you want to be part of it—kneel at the altar of respect.*
