Skin Care & Permanent Cosmetics

Portfolio

(1) Maintenance Management System

Plans, schedules, and records ship maintenance for equipment. **Improves operational efficiency, asset utilization, and enables remote synchronization for offline users.**

Portfolio

(2) Sales Database

Handles sales quotations and orders, generating manufacturing diagrams in the process.

Centralized and secured business data, reduced lead time for quote generation, and enables quicker monthly reporting.

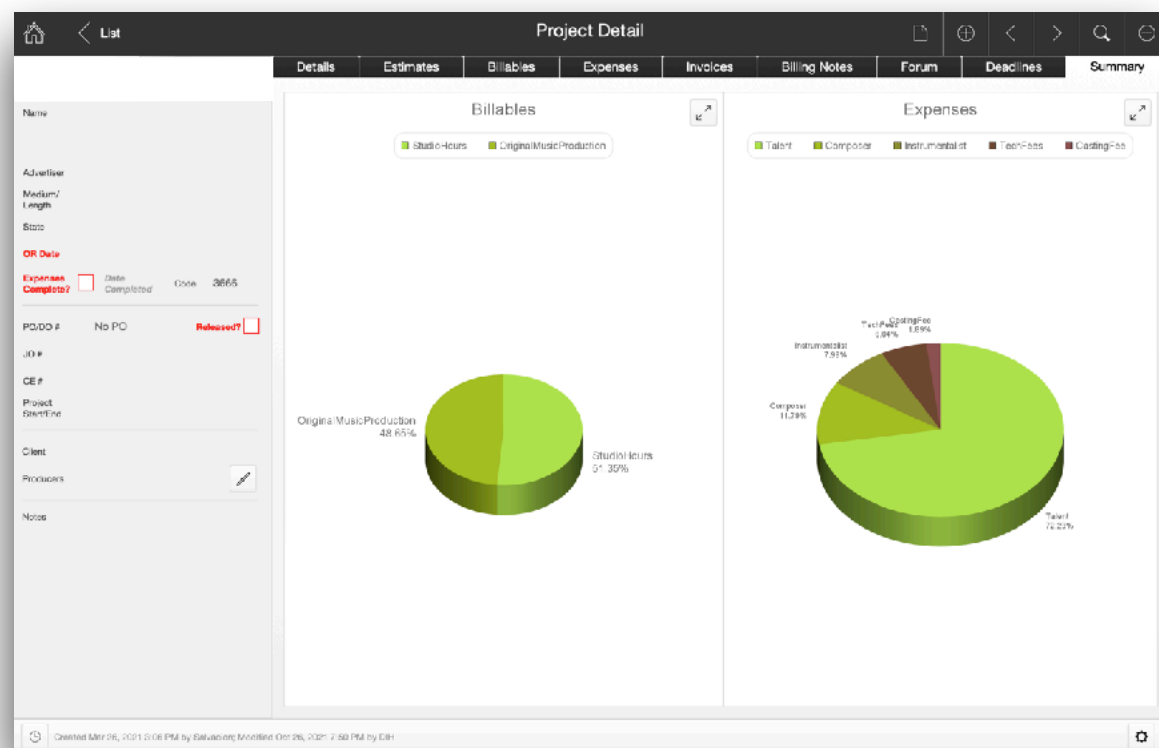

The screenshot displays the 'Orders / Jobs' software interface. The main window is titled 'OW1(B-Block/Class B1-2) - TALLEBUDGERA SS' and includes a 'Delete' button and navigation arrows. The interface is divided into several tabs: 'Line Items', 'Pricing / Terms', 'Job Details', 'Measurements', 'Panels', and 'Stackbay'. The 'Panels' tab is currently active, showing a list of panels (P1, P2, P3, P4) with their respective dimensions and configurations. Each panel entry includes a diagram, a 'Type' dropdown, a 'Style' dropdown, 'Manual Meas.' fields, and 'Wall Finish' options for 'Side A' and 'Side B'. The 'P1' panel is an 'Expanding Panel' with a 'Standard Style'. The 'P2' panel is a 'Standard Panel' with a 'Standard Style'. The 'P3' and 'P4' panels are also 'Standard Panels' with 'Standard Styles'. The interface also includes a 'Clear all Wall Finishes' button and a 'Close' button at the bottom right. The background shows a list of other orders/jobs with their respective dates and status.

Panel	Type	Style	Manual Meas.	Wall Finish: Side A	Wall Finish: Side B
P1	Expanding Panel	Standard Style			
P2	Standard Panel	Standard Style			
P3	Standard Panel	Standard Style			
P4	Standard Panel	Standard Style			

Portfolio

(3) Post-production Management System

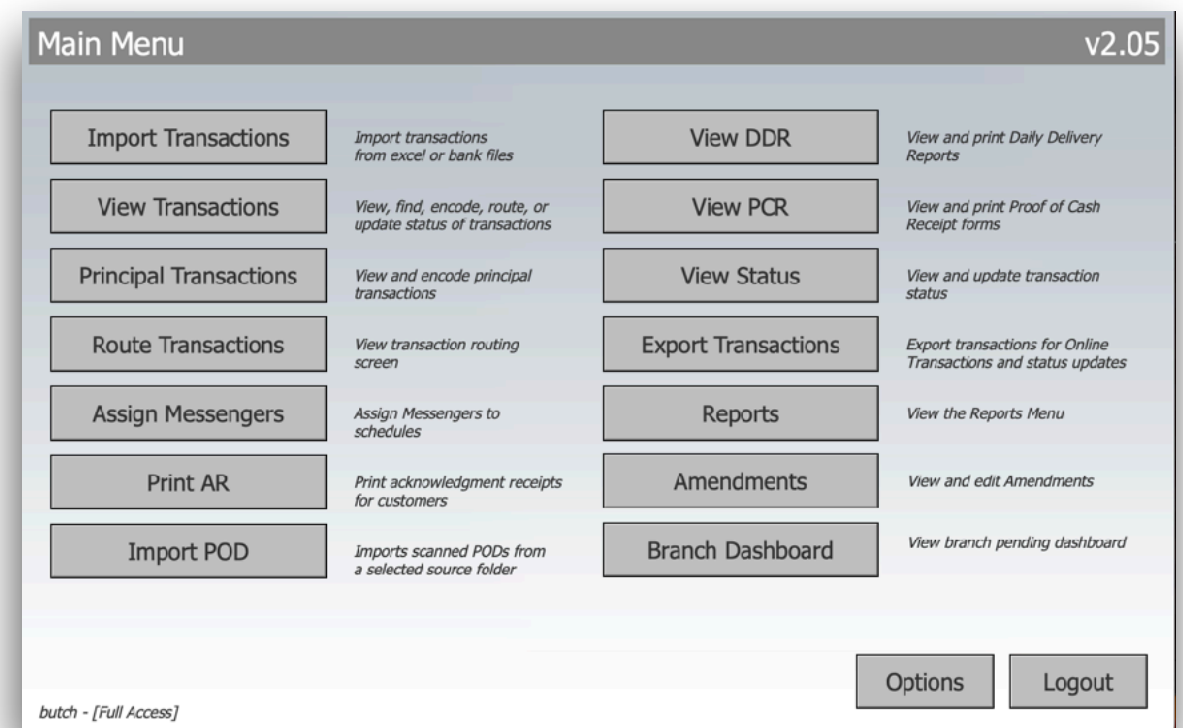

Tracks project information, revenue, and collection. **Enabled remote work for team, reduced pandemic-related business disruption, and simplified accounting processes.**

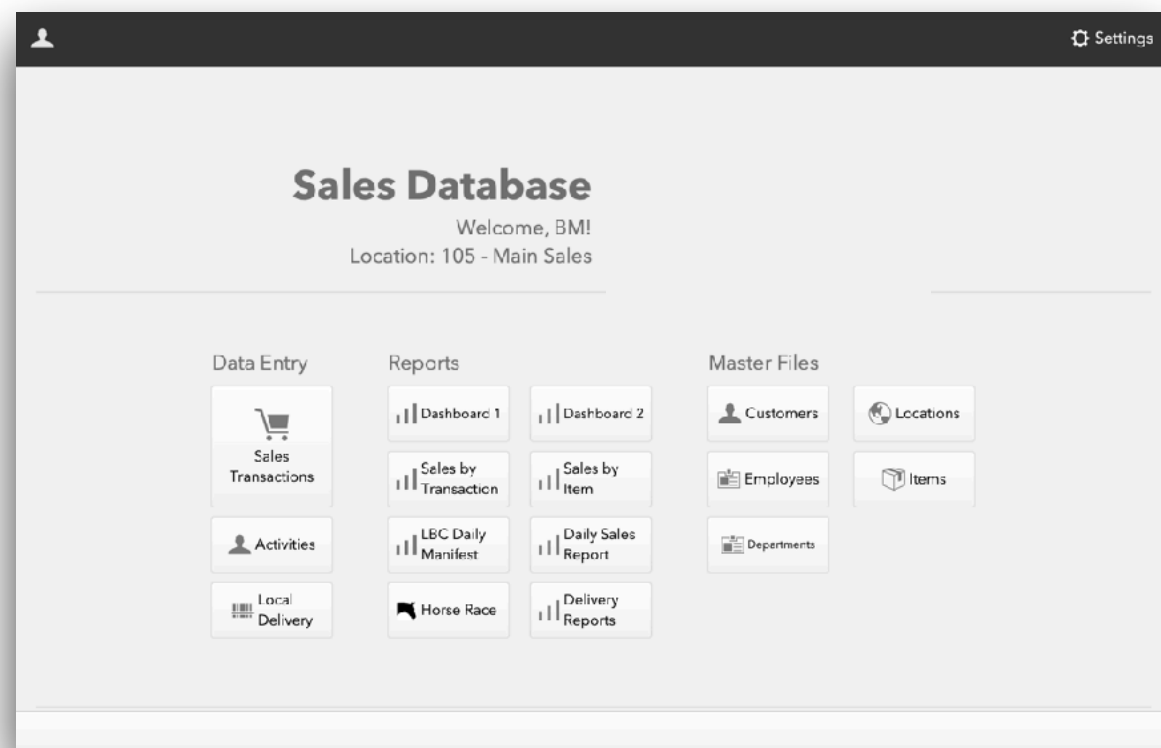

Portfolio

(4) Remittance System

Processes global transactions from source to customer. **Reduced extraneous manpower requirements from manual processes, saved revenue due to encoding errors, and automated transaction recording with APIs.**

Portfolio

(5) Direct Response TV Company System

Track sales and inventory for products. **Saved order encoding time for agents, provides management with real-time sales performance, and optimized shipping with direct form printing.**

Portfolio

(6) Logistics System

Handles cargo forwarding transactions, routing, manifesting, and cash management. **Integrated operations from different locations into central office, decreased losses thru data entry controls, automated scheduling of pickups and deliveries**
