## BASS

We have a great 3/4 size double bass, (hand built in London, 2012 by Laurence Dixon). It has an adjustable bridge and Gage Realist and Wilson pickups. Strings are an Innovation braided set - braided core, medium tension, chrome tape wound. It is a copy of a famous bass owned by Ray Brown, which was made in Cremona, Italy by Nicholas Amati around 1770. It was discovered in Britain in a basement by Ray Brown when he and his then wife Ella Fitzgerald were over doing a show together. The original bass now resides in Canada.
