**Carol Jackson RGN**

**MSC (HONS) Health Sciences Nursing Practice, BSC (Hons) Nursing Practice, BASC Post Graduate Diploma, VTCT Level 3 Certificate in Cosmetic Camouflage, Nursing and Care Consultant**

## General Background

A Registered General Nurse (RGN) with 40 years' experience of working within the acute sector of the NHS. Following extensive training with both the British Association of Skin Camouflage and the Changing Faces Charity she is a qualified skin camouflage consultant specializing in para-medical skin camouflage application techniques.

A non-invasive skin camouflage consultation will be performed during a domiciliary visit to your client. A quantum report will detail the client's skin camouflage requirements and costs, setting out all products, tools and accessories necessary to provide a complete picture of the client's needs. It is based on in-person assessment of your client or photographs and is relevant wherever surgery is not possible or advisable in personal injury, clinical negligence and rehabilitation cases. Camouflage products can be used on the face or body, in paediatrics as well as adult cases.

She is also Expert Witness Bond Solon trained, GDPR and CPD compliant across all clinical practices.
