## Emergency Care Expert Witness

ACP, ANP, RN, MSc, NMC

### General Background

Cheryl Mckain has spent the largest portion of her career working within emergency medicine. She began her first post as a staff nurse in an emergency department in 2013 and has consistently pursued ongoing learning and development throughout her career. Cheryl progressed to the role of charge nurse in the emergency department before transitioning into advanced practice, spending three years in trauma and orthopaedics as an Advanced Nurse Practitioner.

She later returned to emergency medicine to further develop her skills, taking on the role of Advanced Clinical Practitioner. Cheryl has written and delivered courses to train nurses, plays an active role in clinical simulation teaching for junior doctors, and has recently completed her master's dissertation on the role of convolutional neural networks in emergency department triage to screen for acute coronary syndrome.
