## **General Background**

Zoe qualified as a Registered Nurse for Adults in September of 1999. Throughout her extensive years of being a qualified nurse she has worked on an acute surgical ward where she provided preoperative and post-operative care. The majority of her career has been spent working within a busy Accident and Emergency Department of a District General Hospital. Here she spent time working with patients from birth to death. Zoe's diverse background then led her to bed management within the same District General Hospital (DGH). Within the same DGH Zoe worked part-time as Specialist Practitioner of Transfusion for around 10 years. This specialist work covered patient's age ranges from neonatal to the elderly. Alongside this specialist role Zoe worked within the Paediatric Assessment Unit and within a newly opened Paediatric Accident and Emergency Department. After 11 years Zoe returned to the Accident and Emergency Department (full-time) where she remains as a Band 7 team manager.
