

SUMMER INTERNSHIP PROGRAMME 2026

At NPTECH GREEN PRIVATE LIMITED

NPTECH GREEN PRIVATE LIMITED is pleased to announce its **Summer Internship Programme** designed to provide **hands-on training and practical exposure** in interdisciplinary scientific and environmental domains.

Available Areas of Training

- **Nanotechnology**
 - Nanoparticle synthesis
 - Characterization techniques
 - Applications
 - **Microbiology & Biomedical Work**
 - Antibacterial studies
 - Environmental microbiology
 - **Environmental Science & Engineering**
 - Biochar preparation and characterization
 - Adsorption of heavy metals and toxic components
 - Wastewater treatment strategies
 - **Sustainable & Green Technologies**
 - Plant-based environmental remediation
 - Waste-to-wealth strategies
 - **Technical Skill Development**
 - Instrument handling
 - Experimental methodology
 - Data analysis techniques
-

What We Provide

- Internship **Completion Certificate**
 - **Hands-on laboratory experience**
 - Exposure to **advanced research methodologies**
 - Guidance for **future research and project opportunities**
-

Guidelines for Admission

1. **Accommodation is NOT provided** by the organization.
 2. Candidates undergoing bachelor/ master's in **science/engineering** are eligible.
 3. Upon successful completion, participants will receive a **Completion certificate** and guidance for **further work opportunities**.
-

Additional Information

- The programme is designed for **students, researchers, and early-career learners**.
 - Practical exposure will be prioritized over theoretical learning.
 - Limited seats available for each module.
