"Warranty applicable on KORVIA models

1. KORVIA PREMIUM (Advanced 9-Stage Purification) RO + UV + UF + MINERAL + COPPER + ALKALINE

Ideal for Borewell, Tanker, and Municipal Water.

Product Title:

Groclean KORVIA PREMIUM RO + UV + UF Water Purifier with Alkaline, Copper & Mineral Technology | 9-Stage Advanced Purification | PH Controller for Healthy Drinking Water | Suitable for Borewell & Tanker (Black/Silver)

Bullet Points:

- **9-STAGE ADVANCED PURIFICATION:** Features a comprehensive filtration process including Pre-filter, Sediment, Post-Carbon, RO Membrane, UV Disinfection, and UF to ensure 100% safe drinking water.
- **ALKALINE + COPPER + MINERALS:** Enriched with the goodness of Copper and essential minerals. The Alkaline technology maintains the ideal pH level of water, boosting immunity and improving digestion.
- **PH CONTROLLER TECHNOLOGY:** Equipped with a precision PH Controller that allows you to manage the acidity/alkalinity of your water, ensuring it stays balanced and healthy.
- **VERSATILE WATER SOURCE HANDLING:** Specially engineered to treat water from multiple sources like Borewells, Tankers, and Municipal taps, effectively handling high TDS levels up to 2,000 ppm.
- **SMARTER DESIGN & DURABILITY:** A premium, sleek aesthetic designed for modern Indian kitchens. Built with high-quality food-grade materials and backed by Groclean's trusted engineering.

Product Description: Upgrade your family's health with the Groclean KORVIA PREMIUM Water Purifier. Engineered for ultimate purity, this advanced 9-stage system combines RO, UV, and UF technologies with the power of Alkaline and Copper. Whether your water comes from a deep borewell or a tanker, the KORVIA PREMIUM treats TDS up to 2,000 ppm, removing heavy metals, bacteria, and viruses. The integrated PH Controller ensures your water isn't just pure, but perfectly balanced for better health. Trust Groclean for Pure Water, Better Health, and Smarter Solutions.

1.1 KORVIA PREMIUM (UV + UF)

The High-End Solution for Municipal/Tap Water.

Product Title:

Groclean KORVIA PREMIUM UV + UF Water Purifier | Advanced 5-Stage Disinfection | Best for Municipal & Tap Water (TDS up to 200 ppm) | Zero Water Wastage | Eco-Friendly & Mineral Rich Drinking Water

Bullet Points:

- **DUAL PURIFICATION (UV + UF):** Combines a powerful UV Disinfection lamp to kill 99.9% of bacteria and viruses with an Ultra-Filtration (UF) membrane that physically removes microscopic suspended particles and cysts.
- **ZERO WATER WASTAGE:** Unlike RO purifiers, this UV + UF model does not waste a single drop of water, making it the most eco-friendly choice for pre-treated municipal water.
- **RETAINS ESSENTIAL MINERALS:** This system effectively purifies water without stripping away natural minerals like Calcium and Magnesium, ensuring your water is healthy and tastes natural.
- **IDEAL FOR MUNICIPAL WATER:** Specifically engineered for water with TDS levels up to 200 ppm. It provides a final, robust layer of protection against pipeline contaminants and biological growth.
- **SLEEK & COMPACT DESIGN:** Features a premium aesthetic that fits perfectly in modern kitchens. Easy to wall-mount, saving valuable counter space.

Product Description: The Groclean KORVIA PREMIUM UV + UF Water Purifier is the ultimate choice for urban homes receiving treated municipal or tap water. While municipal water is pre-treated, it often picks up contaminants from old pipelines. Our 5-stage purification process uses high-intensity UV rays to neutralize pathogens and a fine UF membrane to filter out dirt and germs. Because it doesn't use RO technology, it retains all essential minerals and produces zero wastewater. Experience the perfect blend of safety and sustainability with Groclean.

2. KORVIA PRO PLUS (RO + UV + UF + Alkaline + Copper)

The Performance Choice.

Product Title:

Groclean KORVIA PRO PLUS RO + UV + UF Water Purifier | 9-Stage Purification with Alkaline & Copper Technology | High TDS Treatment up to 2,000 ppm | Mineral Enriched Pure Drinking Water

Bullet Points:

- **COMPLETE PROTECTION:** High-end 9-stage purification process removes impurities, chlorine, and pathogens while retaining essential minerals for your body.
- **COPPER & ALKALINE BENEFITS:** Infuses water with Copper for antimicrobial benefits and uses Alkaline technology to neutralize acidity, promoting a healthier lifestyle.
- **HIGH TDS CAPACITY:** Effortlessly purifies water with TDS levels up to 2,000 ppm, making it the perfect solution for homes using hard water from tankers or borewells.
- **SEDIMENT & CARBON FILTRATION:** Includes a high-quality Spun Pre-filter, Sediment filter, and Post-Carbon filter to eliminate odors and improve the taste of your water.
- **TRUSTED PERFORMANCE:** Manufactured by Groclean Water Solution Pvt Ltd, ensuring innovation and excellence in every drop.

2.1 KORVIA PRO PLUS/ PRO (UV + UF)

Reliable & Efficient Protection.

Product Title:

Groclean KORVIA PRO UV + UF Water Purifier | Suitable for Municipal/Tap Water (TDS < 200 ppm) | Multi-Stage Purification | Bacteria & Virus Protection | Compact Wall Mountable Design

Bullet Points:

- **POWERFUL DISINFECTION:** Equipped with a high-grade UV lamp that disrupts the DNA of waterborne pathogens, ensuring every glass of water is biologically safe for your family.
- **ULTRA-FILTRATION TECHNOLOGY:** The hollow-fiber UF membrane acts as a physical barrier against sediments, dust, and microorganisms, providing crystal-clear water.

- **MINERAL-RICH WATER:** Designed to maintain the natural mineral balance of your water source. Enjoy the fresh, natural taste of water as intended by nature.
 - **LOW MAINTENANCE & COST-EFFECTIVE:** A budget-friendly and energy-efficient solution for homes that do not require heavy-duty RO filtration.
 - **EASY INSTALLATION:** Compact design with a user-friendly interface. Backed by Groclean Water Solution's commitment to innovation and purity.
-

3. KORVIA PRO (RO + UV + UF + Mineral + Copper)

The Essential RO Choice.

Product Title:

Groclean KORVIA PRO 8-Stage RO + UV + UF Water Purifier | Mineral Enrichment & Copper Technology | Suitable for All Water Sources (Borewell, Tanker, Municipal) | TDS up to 2,000 ppm

Bullet Points:

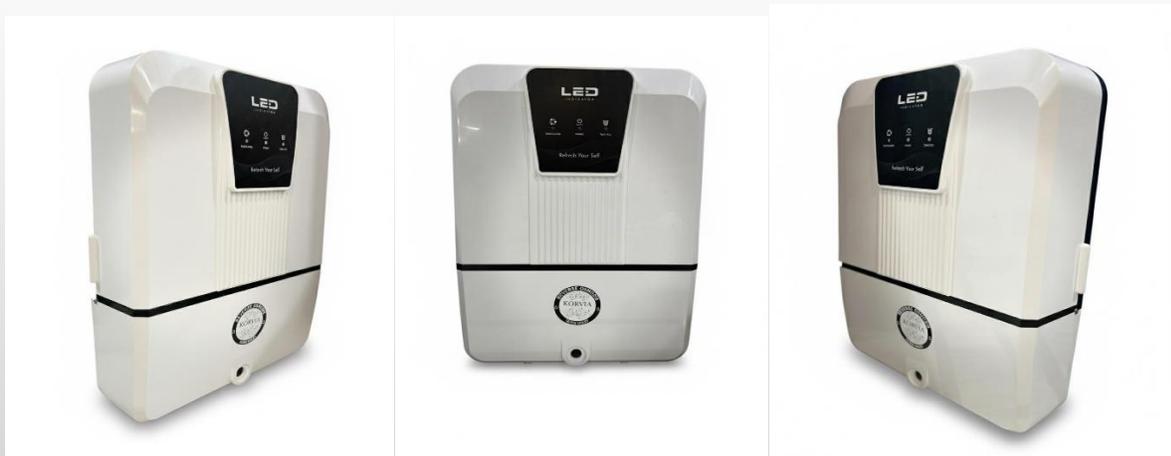

- **8-STAGE PURIFICATION:** A robust filtration sequence (Pre-filter to TDS Controller) that ensures every glass of water is free from contaminants and heavy metals.
- **MINERAL & COPPER INFUSION:** Advanced mineral technology adds back essential nutrients, while Copper technology provides natural purification benefits for better wellness.
- **MULTI-SOURCE COMPATIBILITY:** Whether it's Municipal, Tanker, or Borewell water, the KORVIA PRO is designed to handle diverse water qualities with ease.
- **UV & UF DISINFECTION:** Double protection with Ultra-Violet disinfection and Ultra-Filtration to kill bacteria and remove microscopic suspended solids.
- **DURABLE & RELIABLE:** Engineered for longevity and consistent performance, providing a cost-effective solution for pure drinking water.

3.1 KORVIA PRO UV + UF Water Purifier

Advanced Multi-Stage Filtration | Ideal for Municipal & Tap Water (TDS up to 200 ppm) | Zero Water Wastage & Mineral Retention | Compact Wall-Mountable Design

Product Bullet Points

- **SPECIFICALLY FOR MUNICIPAL WATER:** Designed expertly for treated Tap/Municipal water sources with TDS levels up to 200 ppm, providing the perfect final layer of safety for city homes.
- **DUAL PURIFICATION (UV + UF):** Features a high-intensity UV (Ultra Violet) Disinfection stage to deactivate 99.9% of bacteria and viruses, paired with an Ultra-Filtration (UF) membrane to remove microscopic physical impurities.
- **ECO-FRIENDLY ZERO WASTE:** Unlike RO systems, the KORVIA PRO UV + UF technology produces zero wastewater, making it an environmentally conscious and sustainable choice for your kitchen.
- **RETAINS ESSENTIAL MINERALS:** This purifier ensures that the natural health-boosting minerals like Calcium and Magnesium present in your water are not stripped away, delivering water that is both safe and nutritious.
- **COMPACT & MODERN DESIGN:** A sleek, space-saving design that complements modern kitchen aesthetics. Built with high-quality food-grade materials for long-lasting durability and hygiene.
