RUN CLUB GLOSSARY

GET RACE READY!

BASE (EASY/ZONE 2)

Majority of our training volume mileage. The goal is to run at 75% of your max HR. Tests for RPE include breathing only through your nose, or the ability to hold a conversation or sing-along out loud.

TEMPO (THRESHOLD)

Designed to be performed at a pace that is comfortably hard, typically around 80% of your maximum HR. The goal is to enhance the body's ability to sustain a faster pace for longer periods.

INTERVAL (REPEATS)

Its name highlights the unique structure of these workouts, which alternates between high-intensity bursts and lower-intensity recovery periods. Recovery can be Active or Inactive.

THE LONG RUN

Builds endurance, improves mental toughness, and helps practice fueling strategies. 20-30% of Total weekly mileage. Mostly ran at Easy Pace, but often includes other types of effort in the workout.

OTHER TERMS

VOLUME Amount of miles you are running in over a set period

BLOCK An organized training period meant to stack & improve

RPE Rate of Perceived Exertion. How hard it feels out of 1-10

PACE Speed measure in min per mile (8:00 min/mile)

CADENCE How many steps you take per minute (Goal: 160-180)
