Steps to integrate your new template into Notion:

1 Open the template link:

Click on the link you received after downloading. This will open the template directly in Notion.

2 Click "Duplicate":

In the top-right corner of the screen, you'll see a button that says "Duplicate". Click it to copy the template to your personal Notion workspace.

3 Customize it to your liking:

Now that the template is in your Notion, feel free to edit it as needed: rename sections, adjust colors, or add any details to make it more useful for you.

4 Start using it:

Spend a few minutes exploring all the features of the template. You'll be amazed at how quickly you can adapt it to your workflow.

If you have any questions about using the template or need further assistance, just reply to this email and I'll be happy to help. Also, if you're looking for something more advanced, feel free to check out my premium templates, designed for specific needs like finances, project management, and more.
