

Peer-to-Peer Wireframes v10

Changes from v9 to v10

- Current Bets and Bet Challenges pages: bet description - added a line of info; removed 'To Win' column
- Bet History page: correction of note below from v9 - didn't actually remove timestamp (which is actually a date stamp)
- Sports betting pages (50, 51, 52, 53, 56, 57a, 57b, 57c): changed structure of tabs and 'your bet' summary

Changes from v8 to v9

- Current Bets, Bet Challenges, and Bet History pages: Sort By – change 'vs.' to 'Against'
- Current Bets, Bet Challenges, and Bet History pages: changed 'Time' sorting to 'Date' (meaning by date of the game)
- Current Bets and Bet History pages: removed timestamp

Changes from v7 to v8

- Register page: postponed integration with Facebook Connect until after Q1
- Home page: changed Start Betting section - added upcoming games, adjusted headers and buttons
- Home page: removed the news/results scrolling ticker feed at the bottom (will likely be added later on)
- Current Bets page: split apart into 2 pages – Current Bets (just the accepted bets) and Bet Challenges (the pending and declined bets); adjusted sorting and filtering on Current Bets page accordingly
- Select Friend(s) to Bet Against page: modified/added on-screen instructional text to the left of the Back button
- Place Bet page: added a bit of conditional on-screen instructional text below the Betting Against field value

Home (Anonymous)

"Forgot your password?" sends an email with web link in it that resets password.

Need error messages if fails to authenticate.

Need to add "welcome" content and branding/advertising stuff.

We will likely need a disclaimer of some kind.

Later on (soon) need to add Facebook Connect.

Are First Name and Last Name really required? Should Birthdate be required?
May add Location later on (e.g. using GPS), as well as favorite team/sport.
Need "terms of service" and Help content. How are these displayed?
Month list: '01-Jan' thru '12-Dec'; Day list: '01' thru '31'; Year list: current yr back to 99 yrs prior.
Need field validations and error messages (including password rules).
Need to figure out the Facebook Connect stuff.

Register

Next

Initial Funding

Just doing credit/debit card for now.
May add ACH and/or PayPal later on.
Are these the right cards to accept?
Need to add the credit card graphic icons.
Do we need the security code?
Need validation with error messages.
May add ability to pay through Apple/Google.

Are we storing this info or pass through to a provider?
Add a disclaimer about when and how much we are charging on their card.
Month list is '01-Jan' through '12-Dec'; Year list is current year through 15 yrs. later.
Upon Submit, we send the user a Welcome email with a web link to validate their email address.
If user starts entering field(s) in one section, select that section's radio button.
When a given section's radio button is selected, disable the field(s) in the other section.

Help

[Need to define what's on this page.]
Might be individual overlays rather than a separate popup/page.

The screenshot shows a web application interface for 'Cantor Gaming'. At the top, there is a navigation bar with the following elements: the site name 'Cantor Gaming', a mail icon with the number '4', the user's points '10,768 Pts', the user's name 'Bobby High Roller', and buttons for 'Sign Out', 'About', and a help icon (question mark). Below this is a secondary navigation bar with buttons for 'My Bets', 'My Friends', 'Leaderboard', 'Sports Betting', and 'My Profile'. The main content area is a large, empty white rectangle with rounded corners, representing a 'Help' popup window. The title bar of this window contains the word 'Help' on the left and a 'Close X' button on the right. The background of the main application area is a dark gray with a fine grid pattern.

Home (Logged In – Just NCAAB)

Each section header can be clicked to the corresponding page.
 Each Game button (in betting section) goes to the Bet Type page of the Betting area.
 Click a Friend's oval to bring up his profile in a popup.
 Individual sections scroll individually, show first 50, then a More... button below last one.
 Later on we may add a global "find" (search box) for teams and/or friends.
 We may add a feed of news related to upcoming games – use ticker in the footer?

Full Game is default selection for game portion.
When user changes to another game portion, update all values on the 6 bet buttons.
We might simplify this by only allowing Full Game; or just Full Game, 1st Half, 2nd Half.

Place Bet

To Win textbox is not editable by user.
When user enters value in Bet Amount textbox, use odds to calculate amount for To Win box.
If betting against multiple friends, below the output for the Betting Against field add this text:
“(sending [n] separate challenges)” in a smaller font.

Select Another Sport

Only show the sports that are available in the system.
If only one sport is available, this screen is not used.
This page is single-select, so close popup once a sport is selected.

The screenshot shows a web application interface for Cantor Gaming. At the top, the user is logged in as Bobby High Roller with 10,768 points. There is a notification icon with 4 alerts and buttons for Sign Out, About, and a help icon. Below the navigation bar are buttons for My Bets, My Friends, Leaderboard, Sports Betting, and My Profile. A modal window titled "Select Another Sport" is open, featuring a "Close X" button in the top right corner. The modal contains seven buttons for different sports: NFL, NBA, NHL, MLB, NCAA BB, NCAA FB, and MLS.

Select Bet Type (No Game Yet)

Place Bet tab is disabled since Game is not chosen yet.
Select Another Sport button is visible only if multiple sports are available.
Full Game is default selection for game portion, Spread is default selection for bet type.
We might simplify this by only allowing Full Game; or just Full Game, 1st Half, 2nd Half.

Transfer and Convert Points

If user puts a value in conversion Points textbox, we put the right value into Tokens box, or vice versa. Need field validation and error messages. Need final conversion rates; make it configurable. If user starts entering field(s) in one section, select that section's radio button. When a given section's radio button is selected, disable the field(s) in the other sections. List all 3 accounts in From & To drop down lists; choice in a list gets hidden from other list. After Submit, refresh page with blank fields and show success (or error) message.
