

AI and Youngpreneurs Bootcamp

Tomorrow's Entrepreneurs Start with AI Today

We believe that the future belongs to young minds who embrace technology early. That's why we've designed the **AI and Youngpreneurs Bootcamp** – a unique program that blends creativity, innovation, and real-world business skills for kids.

This bootcamp empowers children to explore the world of **Artificial Intelligence, Business, and Digital Tools** in a fun and practical way. By the end of the program, they'll not only master digital skills but also gain the confidence to use them as budding entrepreneurs.

What Kids Will Learn

- **ChatGPT – Make Your AI Buddy**
Learn how to use AI as a smart assistant for ideas, problem-solving, and creativity.
- **MS Excel – Data Superpowers**
Unlock the power of spreadsheets to analyze, calculate, and visualize data.
- **MS PowerPoint – Design & Present Like a Pro**
Build impactful presentations and deliver ideas confidently.
- **E-commerce – Young Kids in Business**
Discover how online businesses work and design your own Youngpreneurs journey.
