

WASHBASINS

WASHBASINS

A collection of Washbasins designed to match vanity tops made of FENIX®.

An integrated solution combining FENIX innovative materials with a selection of washbasins made of an original «matt composite material» that suits FENIX look and feel.

PERFORMANCE

This Washbasins collection represents an elegant and harmonic choice that combines performance with aesthetics.

Washbasins are made of an exclusive material. This is conceived for washbasins production and it is a blend of ceramic nanoparticles and six innovative acrylic resins. The special composition makes the washbasin more resistant to impact and thermal shocks.

Its smooth surface allows a rapid flowing of water and creates a «lotus effect» that eases the cleaning.

The UV protection prevents the sink from discolouration effects over time.

AESTHETICS

A well-designed bathroom is made up of a mix of elements: stylish washbasins that are fully integrated with vanity tops. The combination is definitely a trend solution for interior projects.

Integrated washbasins enrich the design with a touch of simplicity and elegance. With this purpose, nine colours have been created to match FENIX colours allowing a high level of chromatic correspondence between top and washbasin.

INTEGRATED WASHBASIN

The washbasin is inserted from below and is fixed to the vanity top in two ways:

Undermount

FENIX NTM
10 mm
double sided
with matched
colour core

Flushmount

FENIX NTM
