

# \$BRO Whitepaper

## About \$BRO

**\$BRO** is a Linea-native memecoin that goes beyond hype. We're blending deep community culture with on-chain utility tools to power the next wave of crypto users.

With a clear mission to build a meme-powered ecosystem, \$BRO stands for:

- Fair tokenomics
- Real rewards (in \$ETH) for holders
- No presale, no VCs
- Full transparency with LP locked and contract renounced

\$BRO is designed for builders and degens alike, with a community-first approach and real utility products.

## Utility Tools in Development

**1. BroBuyBot** (*Beta Testing Ongoing*)\ A real-time Telegram bot tracking \$BRO buys with DexScreener integration. Perfect for building hype and showcasing community strength.

**2. BroSniperBot** (*Beta Testing Ongoing*)\ A fast, gas-optimized sniper bot built for Linea. Gives users an edge in new token launches.

### Coming Soon:

- Governance modules (Snapshot-based or native)
- NFT-linked utilities
- Dashboard for holders (airdrop tracker, LP stats, jackpots, and rewards)

## \$BRO Tokenomics

**Total Supply:** 1,000,000,000 (1 Billion \$BRO)

Allocation	Percentage	Description
Liquidity Pool	40%	Locked LP to support stable trading and avoid rugs
Airdrop	25%	Distributed to early supporters and community members
BRO NFT Allocation	10%	Reserved for NFT holders (Super Bro NFT utility)
Marketing & Growth	15%	CEX listings, influencer collabs, campaigns
Team Allocation	5%	Small team share, vested and transparent

Allocation	Percentage	Description
Dev & Ecosystem	5%	Future utilities, upgrades, Bro tools, and Telegram bots

**No Presale** — \$BRO is a complete fair launch project.

## Token Vesting Plan

### Airdrop Vesting (Community & eFrogs)

To ensure a fair launch and reduce early dumping, the airdrop is split into 3 phases:

Phase	Unlock %	Condition
TGE Drop	33.3%	Airdropped at TGE (no lock)
Day 3 Drop	33.3%	Must still be holding the first drop
Day 6 Drop	33.3%	Must still be holding the second drop

#### Note:

- If you sell your first drop, you won't receive the second.
- If you sell after second, you won't receive the third.

This approach encourages loyalty, community strength, and price stability.

### Super Bro NFT Utility

The **Super Bro NFT** collection is a key part of the \$BRO ecosystem. Total supply: **5,555 NFTs** - \$1 each, open mint, no whitelist.

### Utility & Benefits

#### 1. \$BRO Airdrop (No Vesting)

- 10% of total \$BRO supply is allocated to NFT holders
- Airdrop happens at TGE with **no vesting**
- Meant to boost liquidity; 70% of NFT mint revenue is used for:
  - Liquidity Injection
  - Buybacks
  - LP Support

## 2. Reduced Fees on Bro Tools

- NFT holders enjoy discounted access to BroSniperBot & BroBuyBot
- Priority access to new features and tools

## 3. Revenue Share

- NFT holders will receive a share of the fees generated from both bots
- Model and frequency will be announced post-launch

## 4. Bonus Perks (Planned)

- Whitelist access for future mints
- Boosted jackpot eligibility
- Other exclusive roles

Your Super Bro NFT = Your VIP pass to the BROverse
