

GOALS

Participants of the YEUFRAS Program are confident in advisor methods and master key expertise needed for supporting farmers and other clients in rural areas in change and innovation.

The program concentrates on cross-cutting methodological competences which are relevant for all disciplines (crop advisor, livestock and animal welfare advisor, economist, agroecologist, horticulturist, etc.). The CECRA framework guarantees interactive trainings of highest standards.

TARGET GROUP

European young rural advisors, younger than 35

The YEUFRAS Program 2026-27 combines interactive advisor method trainings with a mentoring approach and networking elements.

The program offers space for 20 Young Advisors.
The program's working language is English.
