Set 4	Uu	Vv	Ww	Yy	Zz	
Set 5	Ii	Qq	Xx	Cc	Kk	

I Spy Letters – Alphabet Mats

Let's learn letters in a fun way!

These mats help children learn letter sounds and how to write each letter.

You can print each mat and put it in a plastic sleeve.

Children can trace the hollow letters with a marker, fill them with playdough, drive toy cars on them, or cover them with small objects.

These playful activities help children remember letters, strengthen hand muscles, and build early reading skills.

How to Use:

- Print and place the mat in a clear plastic sleeve.
- Use a marker, playdough, or small toys on the letter.
- Say the letter sound while tracing.
- Wipe and reuse the mat for more practice.

Printing Tip:

For best results, print on thick paper or card.

Insert each mat into a clear plastic sleeve or laminate it for reuse.

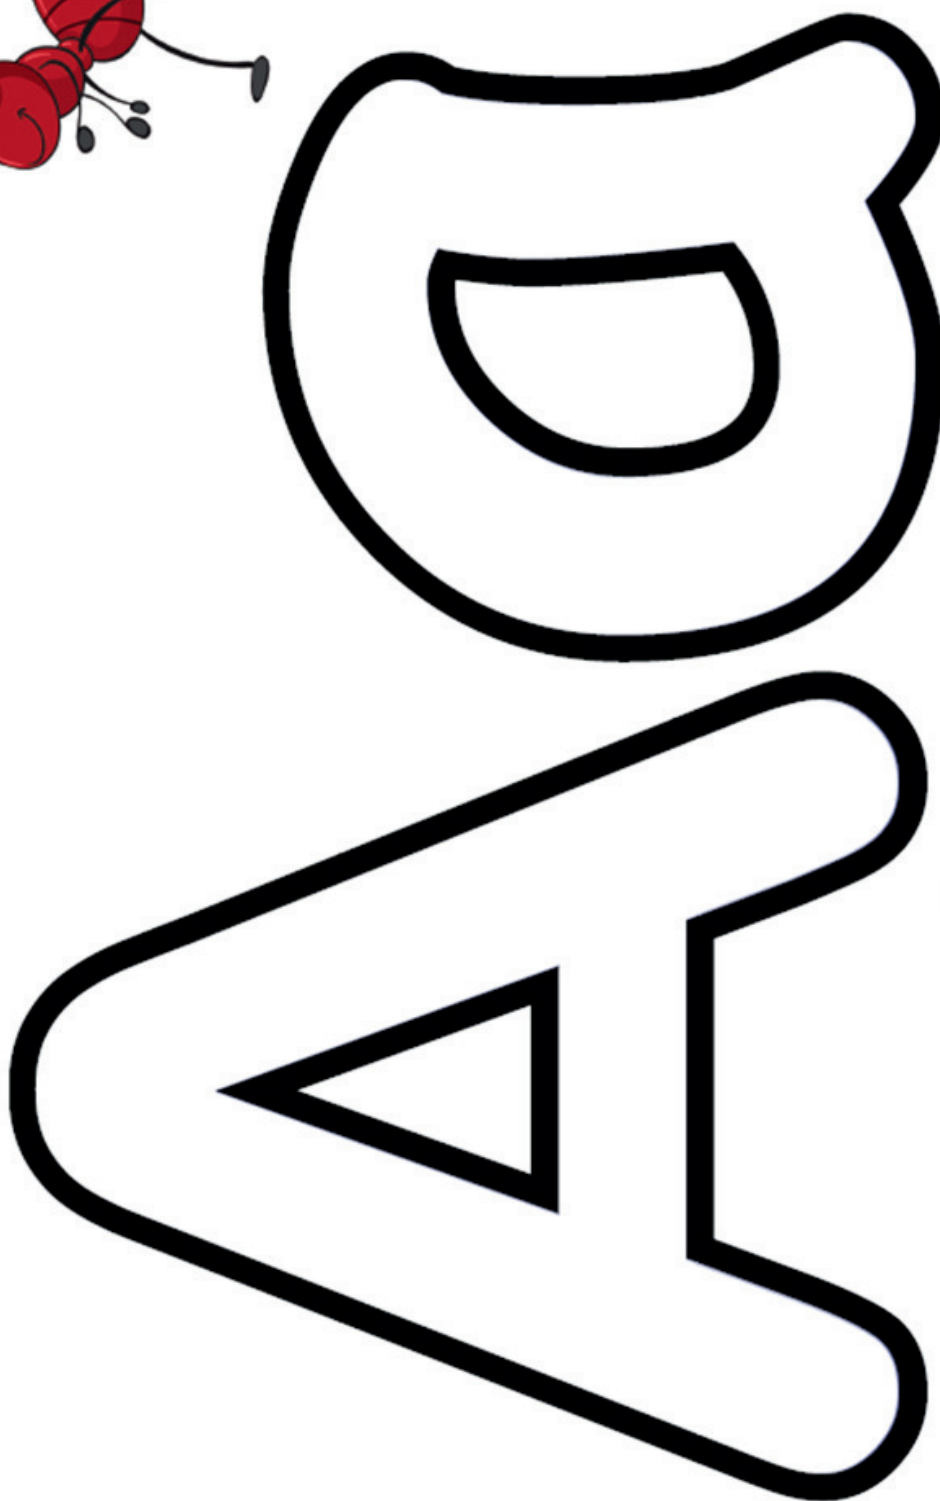

Use dry-erase markers, playdough, or small toys for fun practice.

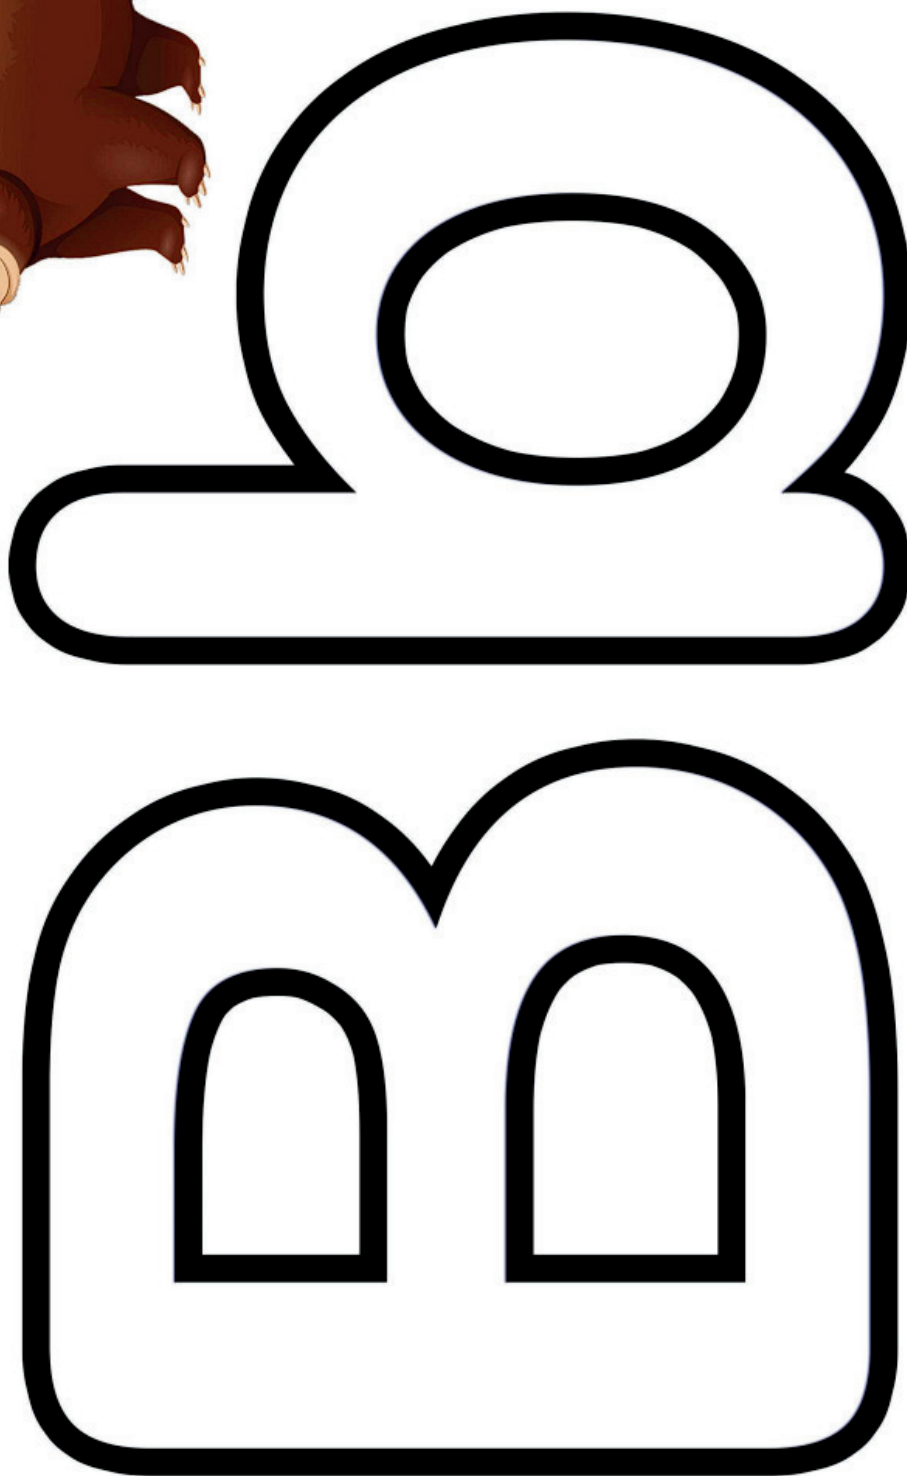

Level 1- I Spy Letters

LETTER

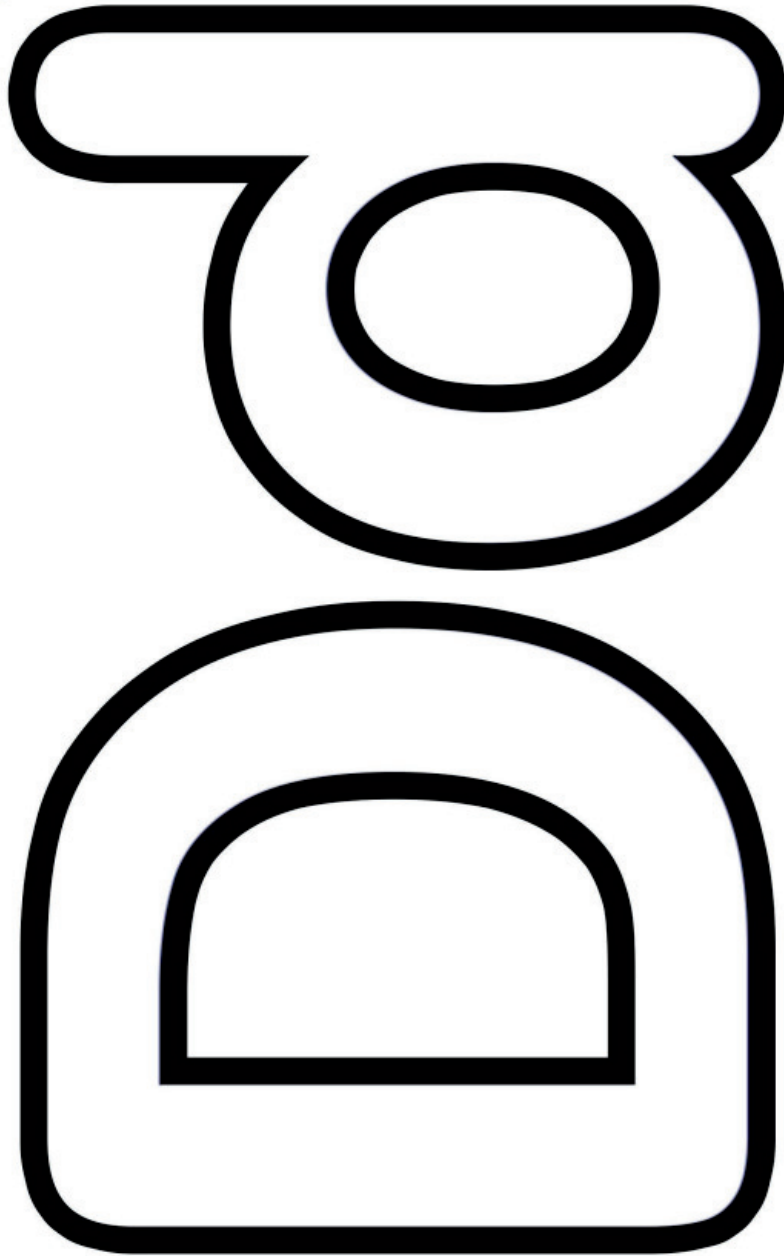

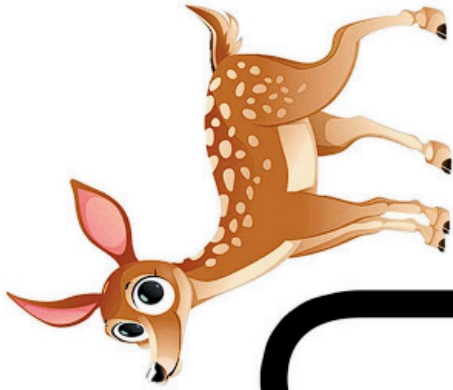

SET-1

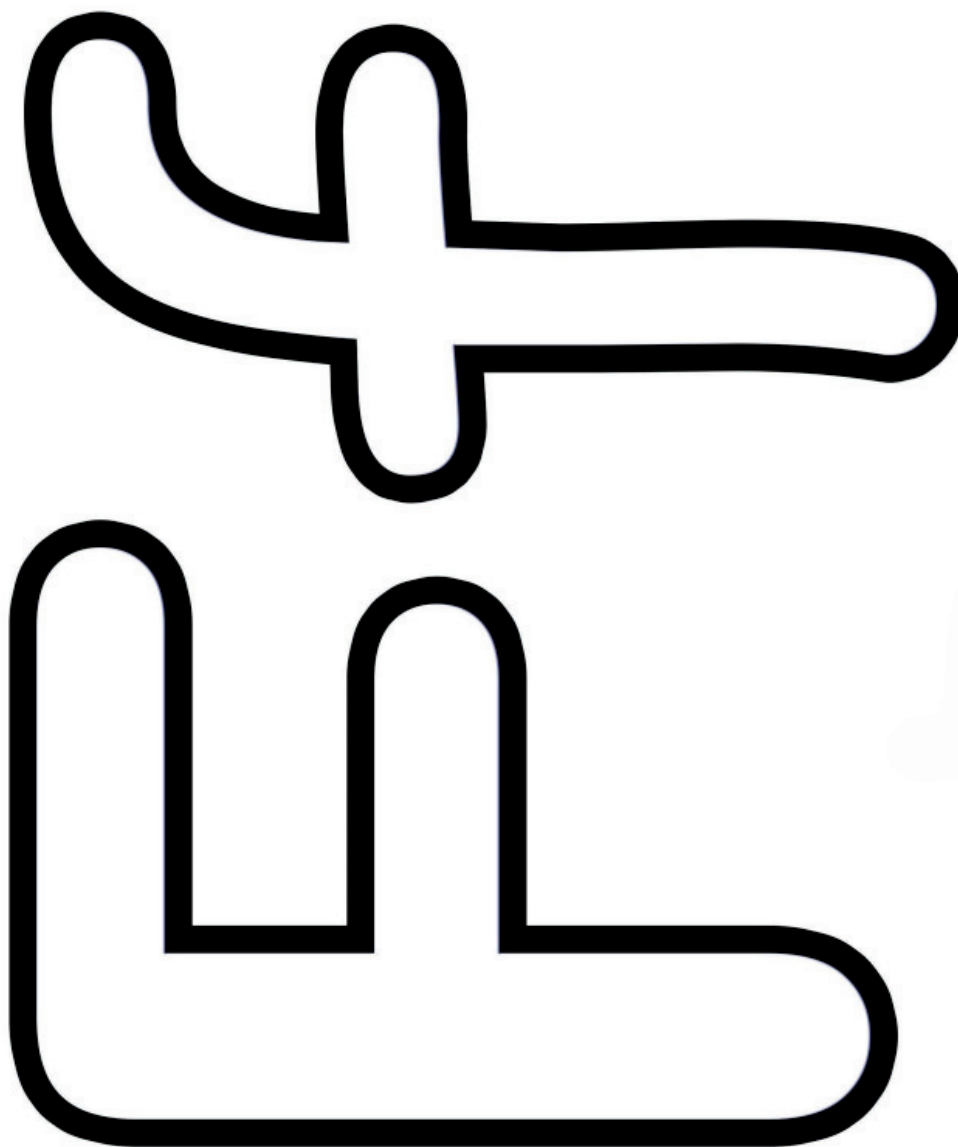

Cut out the alphabet playmat and insert it into a clear plastic sleeve. Use it to practice letter sounds and tracing with markers, clay, or tiny objects. The sleeve is reusable, and you can take a picture of the child's work to keep track of their progress.

HOP into Phonics Fun!

Thank you for using I Spy Letters – Alphabet Mats!

These mats are part of the HOP Level 1 journey that helps children connect letters and sounds through play.

Keep using the mats as children grow — practice builds confidence and helps make reading easy and enjoyable.

We hope your learners keep smiling, tracing, and discovering the magic of letters every day!
