

Report of Appreciation to Kids Care for Donations

Date: 03 December 2025

To: Kids Care Silveira (Dr Sita)

From: Silveira hospital Maternity and Pediatric Departments

Subject: Annual report on donations received from KidsCare Silveira 2025

This report serves to formally acknowledge and express our profound gratitude for the generous contribution made by Kids Care to Silveira Mission Hospital. Your support has been directed to the Pediatric Ward and Maternity Ward, yielding significant and immediate benefits for our patients and their families.

Donation Overview

Kids Care provided a substantial donation comprising financial resources, critical medical equipment, and comfort items. This multifaceted support has been instrumental in advancing the quality of care within our pediatric and maternity services.

Impact Assessment: Pediatric Ward

The donation has generated several key enhancements in the Pediatric Ward:

- **Enhanced Clinical Capabilities:** The contribution has enabled the procurement of vital medical equipment and supplies, directly elevating our standard of care. Notably, the acquisition of a vein finder has markedly improved procedural efficiency and patient comfort during cannulation. In addition, the blood glucose meter, the HbA1c device, and the ketone meter are a great support in managing our young diabetic patients. The examination devices for our doctors, such as the ophthalmoscope, otoscope, and the instruments for removing small foreign bodies from the nose and ear, also clearly improve the quality of our care.
- **Improved Patient Experience:** The provision of new toys and comfort items has positively influenced the therapeutic environment, aiding in the emotional well-being of our young patients.

- **Comfort Items:** Your donation provided toys and comfort items, making the hospital experience less stressful for children and helping to create a more welcoming environment. Decoration of the walls makes the environment attractive and relaxing to the sick children.

- **Support for Families:** We have been able to offer resources and support services to families dealing with the challenges of having a child in the hospital. We managed to successfully treat Rebecca, Pride, Mary, Sandra, and Pedzisai, and Palesa. These Children and families have been successfully healed physically and spiritually through the care of KidsCare.

- **Sitting place**

- **Wound material**

Wound material is being used effectively mostly in pediatric ward and theatre we would greatly need more of this.

- **Long-term patients**

Mary will have a HAB1C on the 4th of December and her sugar levels are stabilizing with the new treatment.

Sandra is coming for weight review and resupply of plumpynuts.

Pillows are essential and caregivers are also using them.

The bilirubin device is of crucial importance. we need it for children with Jaundice and hepatitis and can be used both in maternity and pediatric wards.

Maternity Ward

The Maternity Ward has also greatly benefited from your kind generosity:

- **Improved Facilities:** The donation helped us enhance our facilities, ensuring that new mothers and their babies receive the highest standard of care. The CTG machine new vital signs monitor is of great value in monitoring of Post natal mothers.

- **Comfort and Care Items:** The contribution of comfort items has significantly improved the emotional well-being of our patients during their stay. Babies' clothes, cotton wool, underwear have improved the hygiene of our clients. We would need more of the underwear next time.

- **Mattresses**

We have received 10 mattresses from kids care which are of great value. The maternity ward which comprises of 35 beds. These 10 mattresses were placed in the surgical ward and part of post-natal.

- The bags are being distributed so far, we have distributed 26 in the month of November.
- It is a noble idea to have to have a small cupboard in maternity and we have identified a place next to the duty room so Mr. Juchu can come and fix it.

Conclusion

We cannot thank Kids Care enough for your selfless support and commitment to improving healthcare for children and families. Your donations truly make a difference in our community and help us provide quality care and support to those who need it most.

In closing, we look forward to continuing our partnership with Kids Care and hope to see more such initiatives in the future.
