Message from our chairman

With over 25 years of experience in the industry, we take pride in our work and are committed to delivering projects with the highest level of professionalism, quality, and safety.

At Toshka, we believe that the success of our projects is based on strong relationships with our clients and partners. We are dedicated to building and maintaining these relationships through excellent service and communication.

As we look to the future, we are excited about the opportunities ahead and look forward to working with our partners to achieve our common goals.

About us

Toshka TTC provides comprehensive infrastructure, construction, facilities management, and agricultural services. We specialize in designing and executing infrastructure projects, including road and bridge construction, energy and utility systems, and environmental remediation. We also offer full-scale residential and commercial construction services, including renovations, interior fit-outs, and project management. Our facilities management services ensure the longevity and safety of the buildings we construct, and our agricultural solutions improve productivity, efficiency, and profitability for farmers and agribusinesses. Our practices prioritize sustainability, and social responsibility.

Currently, we cater to the Egyptian market, but are looking to expand within the MEA region.

Our Commitments

Our Vision

To become the intuitive choice for clients seeking a reliable partner that consistently exceeds expectations, and to expand our reach throughout the Middle East & Africa by consistently delivering unparalleled quality, safety, and reliability.

Our Mission

We deliver superior construction services globally, providing exceptional quality, timely completion, and unmatched customer service. We build lasting relationships with our clients, employees, and partners, and make a positive impact in the communities where we operate.

Our Values

We value safety, sustainability, integrity, teamwork and we place strong emphasis on customer satisfaction and no substitute for quality.

Our Services

01 Infrastructure

Infrastructure is crucial to the growth and development of communities, as it provides the basic framework for economic activity and social interaction. Our services encompasses a wide range of infrastructure projects, from road and bridge construction to utility and energy systems.

Our expertise and experience in designing and executing these projects ensures that they are completed efficiently and to a high standard, providing lasting benefits to the community for years to come.

- Asphalt & Concrete paved roads construction and repair
- Unpaved roads design, construction, and maintenance
- Dam construction and repair
- Open channels & ditches construction
- Sewage networks construction and maintenance
- Water networks construction and maintenance
- Ports & Marinas construction and repair
- Electrical & telecom networks construction and repair
- Stormwater drainage system construction and repair
- Landscaping and irrigation for infrastructure projects
- Site preparation and excavation for infrastructure projects
- Environmental mitigation and remediation for infrastructure projects

Our Services

02 Residential & commercial

When it comes to our residential construction projects, we place particular emphasis on discourse with the local authorities to ensure that the development plans for the project are met and executed with care.

Our clients praise our full-scale project management and complete construction capabilities as our main strengths. We will look after your project from conception to plastering, MEP work, and everything else in-between.

- New building construction
- Renovation and remodeling of existing buildings & interior fit-outs
- Building additions and extensions
- Roofing repair and replacement
- Window and door installation and replacement
- HVAC & MEP systems installation and repair
- Painting, decorating & flooring installation and repair
- Hard & Soft Landscaping and outdoor features
- Sport facilities construction
- Project Management & general contracting

Our Services

03 Facilities Management

Our scope extends beyond the initial construction phase, as we offer a wide range of facilities management services to ensure the longevity, safety, and efficiency of the buildings we construct.

Our facilities management scope includes services such as building maintenance, equipment management, energy management, cleaning and sanitation, waste management, and health and safety management.

- Preventive & reactive maintenance for buildings and facilities
- Repairs and replacements for HVAC & MEP systems
- Fire safety system maintenance and repairs
- Painting and decorating services
- Grounds maintenance, including landscaping
- Cleaning and janitorial services & waste management
- Pest control services
- Building security and access control systems
- Energy management and sustainability services
- Asset management and inventory control
- Project management and construction services for facility upgrades and renovations.
- Environmental Impact Assessment & Monitoring plans

Our Services

04 Agriculture

Our agriculture sector is centered around creating sustainable, innovative, and profitable solutions for agricultural development. We aim to provide a wide range of services and solutions to help farmers and agribusinesses improve their productivity, efficiency, and profitability.

We also operate farms to showcase our expertise and provide practical solutions to our clients.

We produce a variety of crops and livestock, and our farming practices are guided by the principles of environmental sustainability, animal welfare, and social responsibility.

- Land clearing and grading for agricultural purposes
- Irrigation system installation
- Drainage system design and installation
- Fencing and boundary installation
- Rural road construction and repair
- Crop protection and pest control services
- Landscaping and grounds maintenance services for agricultural properties
- Agricultural infrastructure design and construction, including water supply, electrical systems, and waste management systems.

Equipment

Our company is well-equipped with the most reliable machinery and equipment in the industry. We have invested heavily in our fleet to ensure that we can deliver high-quality work efficiently and effectively.

All of our equipment is regularly maintained and serviced to ensure optimal performance. We also have a team of experienced operators who are skilled in using the equipment safely and efficiently.

At Toshka TTC, we are committed to investing in our equipment and ensuring that we have the latest technology to meet our clients' needs..

Our People

We recognize that our people are our greatest asset. We are committed to providing a safe and inclusive workplace that fosters a culture of respect, teamwork, and continuous learning. We hire and retain the best talent in the industry and invest in their growth and development to ensure that we deliver quality services to our clients.

Our team comprises skilled professionals with extensive experience in different areas of construction, including project management, engineering, architecture, design, and trades. We are proud to have a diverse workforce that reflects the communities we serve, and we provide equal opportunities for everyone to succeed.

The Founders

Mahmoud Salama

Co-Chairman, ME

Mr. Salama is a seasoned Mechanical Engineer with more than 45 years of experience in the construction industry.

He commenced his career in 1978, engaging in business activities in the State of Kuwait, and Iraq where he played a crucial role in the successful implementation of several notable projects until 1990.

In 1991, Mr. Salama established his own Engineering & Construction company in his home Country, Egypt, Al Salem Co. He continued his entrepreneurial spirit by co-founding Toshka TTC in 1995 and Toshka Agribusiness in 1997. And in 2003, he founded ACEC, an engineering and construction company that has become a leader in the Egyptian market.

With his wealth of experience, expertise, and vision, Mr. Salama has been instrumental in driving the success of various companies and projects throughout his career. He is a valuable asset to our company as our Chairman, and we are honored to have him lead us towards continued success.

The Executive Team

Shady Salem

Director of Program Management, Arch

As an accomplished architect with nearly 20 years of experience, Shady brings extensive expertise to TTC. With a proven track record of delivering successful projects, he possesses excellent leadership and communication skills, and a strong commitment to achieving client satisfaction.

Sherif Salem

Director of Technical Services, Arch

Sherif is an experienced architect with a keen eye for detail. With over 16 years of experience, Sherif brings a wealth of knowledge to our team, ensuring all technical aspects of our projects are executed flawlessly.

Mohamed Salem

Director of Operations, ME

Mohamed, is a mechanical engineer with 14+ years of experience in leading mega projects in the region. He brings a global perspective to our team, ensuring smooth operations and excellent project delivery.
